

Dear Editor,
 Well, another week has passed at UPEI and I have been getting plenty of feedback from my last article. Many people have supported the things I have said but could not see how I could get the gall to write this. But I believe that if I have something to say then I might as well lay the cards on the table. I would like to point out before going on to more issues that these views are my own. They are what I think of the way this university is being run.

The first topic I would like to state is the topic about rules in the university. I think rules once made should be applied to all people not just to whatever people you feel like applying these rules to. A certain head resident in Blanchard Hall does not apply the rules consistently. A certain person went down there one night with all his friends and this head resident would not let him in but let his friends in. So he called down someone who lives in the Hall but she still would not let him in. This creates a situation where trouble begins. The trouble is not the student. It is the university head resident. This is something the Security Dept. and Student Services head men should get set straight on. If one student's name keeps reoccurring I suggest you look at the head resident not on the student because the student has no power but the head resident does. Also, before playing an intramural game last week, I remember being told that no one was to use Panther gear. But when stepping on the ice I noticed that team No. 5 were coming out of the UPEI dressing room with UPEI's Cooper- all hockey gear on. If you make a rule everyone should go by it or no one at all. This is where the UPEI staff really confuses students.

Is it because you play on the soccer team that you can do anything you want or what? The Security Dept. does the same thing here. My idea of Security is preventing breaks, and damages from happening. But this is no the case for UPEI security. Where were they when break after break occurred at the Barn? I think the Security Dept. like playing a game of cat and mouse. Do the crime and we will see if we can catch you. Who ever did these breaks made clowns of UPEI security. Instead of going to the bank next Friday I think I will go to the Barn late Thursday night.

Another thing that I find peculiar is how come UPEI has no facilities for sports. Rumor was going around a couple of years ago that a much needed sports complex was going to be built. At that time and even at this present day we need a good rink to facilitate our hockey Panthers. So when the land beside the gym was being groomed many people thought that this was the long awaited sports complex. But instead what did we get? A planetarium. Asking many students if they cared for this planetarium, many stated that they could not care less if the giant golf ball rolled away. It is no wonder many athletes from away go home after taking on look at our sports facilities. I believe with a high recognition in sports more people would come to UPEI. I really do not think that the planetarium is the first thing we needed on the UPEI campus.

Also, when Olands wanted to sponsor a sports complex at UPEI. I do not understand why the PEI Gov't. banned this complex on the basis it was advertising liquor. I mean PEI has more alcoholics per capita than any other place in Canada so what difference would a sports complex make?

This is like not advertising ice to the Eskimos.

Women: Pro-Choice Right Continues

Victoria (CUP) - A new Gallup poll, commissioned by the Canadian Abortion Rights League has added new fuel to the pro-choice movement.

A recent poll revealed that: 72 per cent of Canadians agreed that "a decision on whether or not to perform an abortion should rest with the consenting patient, and should be performed by a licensed physician in conformance with good medical practice.

: 82 per cent of the sample agreed that if abortions were outlawed in Canada, women would continue to get them.

The UPEI Jazz Band will be holding a concert December 5, Sunday at 2:30 in Steele Recital Hall. Please come and support this group as it will be great entertainment. Everyone Welcome.

Rowena Nemetz Exhibition and Sale are planned

The UPEI Arts Council has announced *A Retrospective Exhibition and Sale* of paintings and sculptures by Rowena Nemetz.

The exhibition and sale will be held at the Robertson Library Lecture Theatre from November 29 to December 31.

A prolific painter Ms. Nemetz accompanied her husband Donald on his consultant contracts in a number of underdeveloped countries of the world. As a result she has studied with other painters in Formosa, El Salvador and Ethopia.

In 1974 Mrs. Nemetz and her husband accompanied by their son and daughter-in-law, sailed their 40 foot sloop across the Atlantic. It was during this passage that Ms Nemetz sensed a new meaning or consciousness in her life, and, now a resident of Prince Edward Island, she feels free to paint with an unhampered spirit. Twenty-five percent of the proceeds from the sale will be donated to the UPEI Scholarship Fund.

Donald Nemetz is a Professor in the School of Business Administration at UPEI.
