CURRENCIES

MONTREAL (CP) — The U.S. dollar Thursday closed at a discount of 7.16 p.c. in terms of Canadian funds, up 5-32. Pound sterling \$2.43 3-16, up 1/4.

TORONTO

TORONTO (CP) — The stock market closed down from its top Thursday in the closing minutes of trading but managed to maintain a narrowly higher level.
 Base metals, ahead more than a point on index earlier, closed with a gain of less than three-quarters of a point.
 Uranium featured a trading day of shaking from the slump which was triggered by reports for most of the day. Gains ranged to a point among high-priced issues and more than 30 cents in lower-priced stocks.
 Observers said the reason for the interest in uranium issues was a combination of technical factors—bargain buyers—and the fact that while the rest of the market has nothing solid to go on, uranium is at least assured of sales until 1962 and 1963, when the government contracts expire.
 Meanwhile, western oils fell prey to profit-taking which developed following Wednesday's strong advance. Losses ranged to 45 cents among low-priced stocks and actions in the senior issues.
 Other mining issues were mixed to higher. Seniors were led by Labrador and Falconbridge, each ahead a point. Lower-priced mines sagged.
 Index changes: Industrial up 15 to 148.81; golds up 176.67; base metals up 63 to 176.67; western oils off 34 to 170.3h.
