Canada Has Magnotometer But Lacks Planes To Fly It

By DAV McINTOSH
Canadian Press Staff Writer

OTTAWA (CP)—The RCAF's big shortage of transport planes is shown no more clearly than in the strange story of the airborne magnotometer.

The department of mines and technical surveys spent five years developing an airborne magnotometer, considered the best in the Western world. Details of the device are still classed as secret.

The magnotometer would be used to improve magnetic charts of Canada, thus aiding aerial navigation, a matter of concern, of course, to the RCAF.

But the government now is in the position of not having a single plane available in which to carry the airborne magnotometer, which can also indicate promising areas for more detailed mining surveys on the ground.

NOT AVAILABLE

Commercial operators don't have any planes available, either, because they're all tied up on the northern radar lines airlift.

The RCAF last summer and the summer before loaned a North Star transport to the mines department for some magnotometer flights. This plane was the former "flying laboratory" used by the National Research Council for de-icing experiments.

But the air force told the mines department it couldn't loan the plane this year because of heavy transport commitments. After all that, the plane was destroyed in the recent RCAF hangar fire at Dorval, Que.

Using the airborne magnotometer would be cheaper, officials said, than sending out field parties. The magnotometer would also provide better coverage.

SHORT OF TRANSPORTS

RCAF officers say the air force is "terribly short" of transport aircraft.

The defence department has been in a quandary for some time over the RCAF's current and growing needs for air transport.

No action has yet been taken apparently though the department has been studying for a long time various schemes, such as acquiring big American C-124 Globemaster or building a transport version of the CL-28. The latter is being designed and built by Canadair Ltd. of Montreal for RCAF maritime reconnaissance.

EASTERN GUARDIAN

BREAKS WRIST — Her many friends will regret to learn that Mrs. Rose Mahar, Montague, suffered a broken wrist in a fall last week. She was taken to the Kings County Hospital where her arm was placed in a cast, and she is presently convalescing at the home of her son-in-law and daughter, Mr. and Mrs. John Morris, Dundas.

GEORGETOWN Pastoral Charge United Church of Canada. Services for April 29th: 11 a.m., Sturgeon; 2.30, Milltown Cross; 7 p.m., Georgetown. Boys who attended Boys' Parliament, Charlottetown, will give short addresses. Rev. W. A. Paterson, Minister.

Personals

Mr. Alex MacDougall, Montague, is a patient in the Kings County Hospital.

EAST BALTIC

Friends of Mrs. Clinton Stewart are sorry to learn of her continued illness in the Souris Hospital.

Sympathy is extended to Mr. Charles Campbell on the death of his father, Mr. Pius Campbell.

Mr. Pius Cheverie has recently returned to his home in Souris having been a patient in the Charlottetown Hospital.

Sympathy is extended to Mrs. Ernest MacPhee, Bayfield, on the death of her father, Mr. Pius Campbell.

Miss Karloyn Stewart, Red Point, spent a week visiting with her friend, Miss Mary Toombs, Rustico.

Mr. Oran Kennedy, Kington, is ill in Charlottetown and all extend to him a speedy get well.

Mr. Sept. MacPhee of Little Harbour accompanied by Mr. Campbell left during the past week with a trailer load of fish products for a firm in Philadelphia.

Mr. Jerom. Sutherland, Black Pond has entered the Charlottetown Ho ital.

Mrs. Hazel Robertson, teacher Little Harbour School, spent the weekend at her home in Kingston.

Sympathy is extended to Mr. and Mrs. Peter Sinclair, Montague, on the death of their little son Pete.

Rev. D.I. and Mrs. McLare returned to their home in Kingston, having spent the past week in Amherst and at their respective homes in Nova Scotia.

Mrs. Clarence Rose underwent a successful operation in a Boston Hospital.

Mrs. H.R. Bell, Red Point, was hostess to the Baptist W.M.S. meeting at her home.

Mrs. Freeman Mossey returned to her home in Bothwell having spent the past two weeks caring for the children of Mrs. Wesley Fraser, North Lake, while she was undergoing surgery in the Souris Hospital.

Mr. Tyler Ching is at present not enjoying his usual good health. His host of freinds are extending to him a speedy get well.

Refresher Course For Firemen

The members of the Montague Fire Department held a special session Monday night for the purpose of a refresher course in artificial respiration. Prior to the lesson several films were shown by Gilbert Clements on combating fires, fire hazards, and self protection in a burning residence. This was followed by a film showing the new improved Danish method of artificial respiration.

Following several showings of this film, the members spent the next hour practicing the new method. Another session for further practise will be held next week.

Highest average in Senior grades: Bobby Wood, 89.9 per cent. Highest average in Junior grades, Joanne Reid, 92.2 per cent.

Perfect attendance: Eleanor MacKinnon, Elaine MacPhee, Bobby Wood, Dwight MacEwen, Billy MacEwen.

Teacher: Elaine MacKinnon.

Broad Powers For Farm Marketing Bd. In Quebec

QUEBEC (CP) — Appointments to a provincial farm marketing board with broad supervisory powers over the sale of farm products, were announced Friday by Premier Duplessis.

The premier told his weekly press conference that the board, created during the last session of the legislature, will begin functioning May 1.

Appointed are: chairman: district judge Georges-Henri Heon; vice - chairman, Abel Marion, former president of the 40,000-member Union Catholique des Cultivateurs; members: Alfred Dube, Union Nationale member of the legislature for Rimouski, and Dan G. Murphy, member for Missisquoi county.

The appointments are for a period of 10 years, but they are valid indefinitely unless replacement is provided for.

CO-ORDINATE MARKETING

Main functions of the board are:

1. To assist in co-ordinating various operations involved in marketing farm products.
2. To find new markets and improve existing farm markets.
3. To assist in directing farm production.
4. To cooperate with producers, co - operatives and professional farm organizations and consumer associations in the promotion of fair marketing practices.

Under the act which created the board, farmers and wholesalers will work out marketing plans which the board will have the authority to approve or reject. Once a marketing plan is in force, its set prices will be mandatory and purchasers of products covered by the plan who do not meet the set prices will be subject to legal action obliging them to pay the difference plus costs.

IRON DEVELOPMENT

The premier also told newspaper men that plans are proceeding rapidly for the establishment of a proposed new iron ore mining development north of Shelter bay on the north shore of the St. Lawrence river.

He said the Cartier Mining Company, a subsidiary of United States Steel, has submitted a plan for the mining of ore in the Mount Reed and Mount Wright area. Exploration of the Mount Reed and Mount Wright area had so far uncovered 700,000,000 tons of iron ore reserves.

Mr. Duplessis also disclosed that the government recently authorized the building of serveral new mining towns, one of which will be built in northwestern Abitibi.

DAILY MARKET QUOTATIONS

By THE CANADIAN PRESS

Toronto: Prices drift lower; Industrials gain some ground.

New York: Stocks lower; brief selling flurry hits list.

Montreal: Industrials lower; moderately active trading.

Toronto Stocks

TORONTO (CP) — Dullness persisted through all divisions of the stock market Tuesday.

There was no urgency about the sell-off and the volume, at 8,957,000 shares, was below the 9,000,000-share mark for the first time this month.

Refining oils and constructions made some headway among industrials, but BA Oil dropped $2.50 to $40.50, after climbing for several months on rumors of a deal with U. S. oil interests. The company announced Tuesday it is seeking to purchase the assets of Canadian Gulf Oil.

Canadian Locomotive was down $3.50 and Dominion Glass lost $2.25 at $41.50.

Mines losses ranged to $1.75 by Gaspe Copper, $1.50 by Mining Corp. and $1 by International Nickel.

McIntyre, up $1, was almost alone in showing a gain among senior mines.

Index losses: Industrials 2.14 to 470.21, golds .13 to 88.20, base metals .60 to 246.74 and western oils 1.16 to 155.80.

Montreal Stocks

MONTREAL (CP) — Industrial prices were narrowly lower at the close of active trading Tuesday on the Montreal and Canadian stock exchanges. Some firmness noted early in the session faded during the noon hour.

BA was the list's most active issue. It held a loss on the day of two points after posting a gain of 1¾ earlier in the session. Trans Mountain was a point better in the pipelines.

In a mixed base metal group, Aluminium advanced a point while International Nickel slipped 1⅛ in moderate trading. Steels were mixed in a ½ point range.

Fraser added a point as the papers scored narrow gains in quiet trading. Bell eased ⅝ in a slightly
