

THE DAILY EXAMINER.

JANUARY 7, 1882.

A NOVA SCOTIA manufacturer writes: "We ask no man to work for less than \$1 for 10 hours work."

In the course of his speech at the banquet tendered him by the merchants of Quebec and Levis on Saturday evening, Sir Hector Langevin stated the important fact that, from actual compilation, the number of employes in the factories at Quebec had increased from 2,180 in 1878 to 4,673 in 1880, or more than 100 per cent., and that there are now in operation in that city 99 different factories.

The report of the United States Post Office Department for the quarter ending September 30, 1881, shows an excess of expenditure over receipts of only \$196,402.72 as compared with \$1,385,966.47 for the corresponding period of the previous year.

The carefully written article of an esteemed contributor, on "The famous marshes of Cumberland and Westmorland," will well repay an attentive perusal; and farmers on the island who have marshes may take from it some hints which may be of value.

The Toronto Mail remarks that "From various signs it would almost appear that the false notions about Canada which have been prevalent in England for fully a century are rapidly being dissipated. It has been a hard struggle to inform the dense masses of England's population. Malicious self-interest in the United States has for years been busy trying to deepen the early impression in England about the Arctic climate of Canada."

The immigration at New York the past year was the largest on record, 440,000 persons having arrived at that port in 1881, against 327,000 in 1880. The largest number of immigrants received in any year before 1880 was 319,223 in 1864, and the smallest since the bureau was established was in 1877, when 54,536 immigrants came over, Ireland sending but 8,221, and Germany but 17,530.

A SERIOUS FIRE occurred in Truro on the 6th inst. It broke out in the building occupied by R. L. Fox, stone cutter, and spread to Geo. Gunn's building occupied by himself as a general store, and W. F. Linton, china and glassware. These buildings were totally destroyed.

The trial of Mormonism made by Mack Johnson and his two wives, in Kansas City, Mo., was a failure. He married one woman there and one in Wyandotte. His bigamy was soon exposed, but the two wives agreed to compromise, by which he was to live a week with each in alternation.

The Albert medal has just been given to an English school teacher, Miss Hannah Roobotham, of Sutton, who, when the stone belfry fell through the roof, killing one child and injuring others, saw all of her class removed in safety, and, at the peril of her own life, dug out and resuscitated several of their number.

The Ontario Government is advertising for tenders for the erection of the new Parliament buildings in Toronto.

Special Despatch to the Examiner.

OTTAWA, Jan. 6. A. C. Rogers, exploring engineer, has found a favorable pass from Bow River country to the Columbia River valley, and the Pacific Company have still strong hopes to get a practicable route through the Sekirk ranges, thus giving a much shorter route to Kamloops than that via Yellow Head Pass.

There is said to be a legal question whether St. Leon is duly elected Mayor of Ottawa, no votes having been polled for him, and Mackintosh, who was nominated, not having formally resigned, though he desired to do so.

There were 108 fire alarms in Ottawa during the past year, the total losses being under twelve thousand dollars, all covered by Insurance.

The Canada Pacific Railway directors with Mr. Senecal, made a tour of inspection over the St. Lawrence and Ottawa Railway to-day and returned to Montreal. Mr. McIntyre went over the Canada Pacific to Mattawa.

The exchequer court, Judge Henry, presiding, was occupied to-day with adjourned portion of Right Rescue Company vs. Queen. Hon. D. Mowat, Premier of Ontario, was examined. The Occidental Railroad shows receipts for six months of over \$150,000, in excess of the corresponding period of the previous year.

An address was presented to Hon. Alex. McKenzie yesterday by the Hartford Lambton Reform Convention.

WASHINGTON, Jan. 6.

Mr. Scoville has received a bona fide offer from a medical gentleman for Gutta's body. The gentleman offers to pay \$1000 on condition that he will have the body as soon as the execution of the law has been met to dispose of as he sees fit and agrees to wait one month or twenty years for it. This offer was made known to Gutta, who seemed to favor the proposition, remarking, however, perhaps some other fellow will offer two thousand dollars.

LONDON, Jan. 6. In a sculling match to-day between Goodwin and Flynn for £100, over the Thames championship course, Goodwin won by six lengths.

HALIFAX, Jan. 6.

The Government steamer "Newfield," Capt. Guildford, arrived yesterday morning from Mud Island, the scene of the "Moravian" disaster, and reports at the time of leaving, 6 p. m. Tuesday, the wreck to all outward appearances appeared all right. She is standing upright, with masts, rigging and everything standing, and has not changed any since the time of going ashore. The tide flows in and out of her, filling her to the deck. Capt. Archer, with his officers and crew, are still working at the wreck, doing all they can to save the cargo, but have given up all hopes of ever getting the vessel off. The steamer Edgar Stewart, a tug boat from Yarmouth, and a number of schooners and the ship's boats are there, conveying the cargo from the wreck to the island. The captain and crew are living in fishermen's huts on the island, which they found very cold and uncomfortable at first, but have now got stoves and other necessaries from Yarmouth. The storm of Monday did not damage the wreck. The steamer "Newfield" left, but was unable to get close to the wreck on account of the heavy sea. The "Newfield" brought up the stewards and firemen of the "Moravian," with their effects. The "Newfoundland" will probably bring the rest of the crew. An agent is at Yarmouth receiving whatever portion of the cargo is picked up.

The first syllable of Mr. Gladstone's name is not "glad" in the sense of pleasure or rejoicing. It is glid's stone—glid meaning a hawk or kite, and glidstone the stone or rock where the hawks were in the habit of meeting or congregating.

OBITUARY item: "Will you please insert this obituary notice?" asked an old gentleman of a Birmingham editor. "I make bold to ask it because the deceased had a great many friends about here who'd be glad to hear about his death."

Miss West, the daughter of the British Minister at Washington, is a pretty and graceful young girl—a brunette with a piquant face and expressive eyes. She is a picturesque little figure as she goes walking in her brown dress, with a quaint poke bonnet tied under her chin.

A LAWYER had rather a rough experience in Pittsburgh the other night. He was on a visit to an old friend, a physician, and passed the night in the latter's bed. In the morning he was coolly informed by the doctor that he had forty smallpox patients whom he was visiting daily, and that he had visited one just before retiring that night. The lawyer lost no time in dressing and returning to Bradford, where he is now being attended by a physician who is assisting him to recover from his fright.

GOOD VENTILATION, And Good Health follows.

THE undersigned has purchased the exclusive right of the D. F. & L. VENTILATORS, manufactured by R. M. & T. ALLAN, Yarmouth, Nova Scotia, for this Province. This Ventilator recommends itself at sight, and is indispensable for Rooms, Kitchens, Cellars, Closets, Pantries, and all places where pure air is required. It does not interfere with the raising or lowering of the windows; it is simple in construction, durable, water-tight, absolutely noiseless, and ornamental. Physicians recommend it for sleeping and sick rooms. Scientific men declare it the best ventilator ever invented. It is equally adapted for dwellings and public buildings. Windows can be secured against drafts of cold air, and thus secured from attempts of burglars. Can be equally adjusted to double or single windows, and easily regulated. It is peculiarly desirable for steam boats, railway cars, and street cars, being unaffected by situation or motion, frost, storms or rust. The Ventilator has received numerous testimonials from medical doctors in Canada and the United States. Circulars giving full explanation of its working can be obtained from the undersigned, who is prepared to fill all orders for it. P. E. TRAINOR.
