Bilingual Maps Opposed Because Too Cluttered

OTTAWA (CP) — Bilingual maps were opposed Thursday by a bilingual French-Canadian at the annual meeting of the Canadian Institute of Surveying.

Maurice Landry, assistant director of the National Capital Commission, said bilingual maps are "completely impractical."

He told the surveyors' convention that all Canadian maps should be printed separately in English and French even if it costs more.

Mr. Landry said bilingual maps become "so cluttered up with names" they are impossible to read. This presented a major problem to tourists.

Attempts had been made in Canada to produce bilingual maps. Every attempt failed because the map sheets became overloaded with names, confusing the person trying to read them. he said in a panel discussion.

Mr. Landry said greater care should be taken in translating geographic names. An English or French place name should be translated into the other language only on the authority of widespread local or historical usage.

"If a geographic place name is English, it should appear on a French map in English. The same thing should apply to an English map where the place name is French."

CITES EXAMPLES

Mr. Landry gave two examples. He said Regina should not appear on French maps as "Cite de Regina" but as Regina. Lac Philippe in Quebec should not appear on English maps as Lake Philip.

Lt.-Col. L. M. Sebert, deputy director of the army's military survey, said most city maps in Canada are so out of date they would be useless in the event of a disaster.

Col Sebert also said the army plans to revise military town plans every six years and wishes it had the facilities to do this more often.

He said the army has completed mapping five of 16 cities to be remapped in the next few years .They are Victoria, Vancouve., Saint John, N.B., St. John's, Nfld., and Calgary.

OPPOSE SUPERMARKETS

TOKYO (AP) —About 3,000 Japanese shopowners held a rally Thursday to oppose moves to open in Japan supermarkets linked with foreign retail chains. They urged Premier Hayato Ikeda's government to oppose plan of opening supermarkets with foreign capital, especially U.S. capital. Among U.S. super-chains reported seeking capital tie-ups in Japan are Safeway and the Jewel Tea Company.

Illustrated at left in the picture screen is the "Monitron"—an incredibly sensitive electronic "brain" that protects picture tube life. The set is Philips new ALDERWOOD 23" Console with a furniture crafted hand-rubbed wood and veneer cabinet.

Philips conquers high voltage burnout with Monitron Television to bring you Canada's first
2-year picture tube guarantee!

The picture tube is the hardest working part of your television set. And it is the most expensive. Many picture tubes burn out prematurely, weakened by high voltage surges caused when household current fluctuates.

Now Philips engineers have found a way to stop excess voltage reaching the picture tube. They have developed a tiny electronic "brain" called *Monitron* which controls the voltage reaching the picture tube and keeps it at a safe level.

Philips new Monitron circuit offers such exceptional protection that the picture tube is now guaranteed for *2 full years.*

The idea for Monitron came from the giant Thyrite Arrestors that protect expensive powerline transformers against lightning. Working with new materials, Philips engineers developed a tiny device about the size of a headache capsule. Monitron senses voltage changes and acts immediately to protect the picture tube.

Monitron TV means greater viewing pleasure, longer picture tube life, a steadier picture and greater dependability. By keeping voltage constant, Monitron eliminates "Picture Squeeze"—the shrinking picture that results when voltage drops.

See your Philips Franchised dealer soon. We picked him for his courtesy, his integrity, his ability and his willingness to provide you with responsible follow through service. Ask him to show you the new Monitron TV with the 2-year picture tube guarantee.
