PUBLIC MEETING IN QUEEN'S COUNTY.

A public meeting of the electors of the Third District of Queen's County was held at Battery Point, on Tuesday afternoon last. The attendance was very numerous, and the Honourables Messrs. Coles and Kelly—who represent the district, and who called the meeting for the purpose of discussing political affairs with their constituents—were rejoiced to meet with so many of their constituents. Both gentlemen addressed the meeting at great length, on topics relating to public affairs, and their o, inions received an unanimous expression of approval from the meeting, as will be seen by the annexed resolutions, which convey the sentiments of the hon. members. Edward Mullen, Esqr., presided on the occasion, and discharged his duties with great efficiency.

Proposed by Mr. Robert Webster, seconded by Mr. John Kelly, and unanimously adopted—

Resolved, as the opinion of this Meeting, that the Government of this Island, as at present constituted, is anti-British, and not in accordance with the true principles of Responsible Government, as carried out in the other North American Possessions of the British Crown, and which was granted to this Island by the Civil List Bill, inasmuch as the present Heads of Departments are not allowed to hold seats in the Legislature; and the only claim to office on the part of nearly all consisting in the relationship which subsists between them and the members of the Executive Council.

Proposed by Mr. John McCarron, seconded by Mr. James Jennings, and passed unanimously—

Resolved, That the Legislative Council possess the confidence of this Meeting; and that any attempt to interfere with the constitution of that Body—merely because they exercise an independent vote on all matters submitted for their approval, and which may be in opposition to the views of the Government—would be subversive of their independence, and render the Council a mere reflex of the Government, and a useless branch of the Legislature. The Council not having yet opposed the wishes of a majority of the people on any question submitted for their consideration, it would be unwise and unjust to interfere with its construction.

Proposed by Mr. Daniel Mullen, seconded by Mr. Patrick McQuaid, and passed unanimously—

Resolved, That the unsettled state of the Land Question requires the united action of the whole country; and the enforcement of the back rents, pending the address of the House of Assembly on that question, is an arbitrary and tyrannical exaction, and requires the interferance of the Executive, as the proposal to remit those rents met the approval of the whole Government, as well as an enquiry into the Proprietors' titles to the Township Lands; but this meeting have cause to believe that the action of the present Government was only a piece of deception to mislead the tenantry.

Proposed by Mr. Archibald Carmichael, seconded by Mr. Owen Began, and passed unanimously—

Resolved, as the opinion of this meeting, that Public Meetings should be called in every District throughout the Island, to enable the electors to give an expression of their opinion on the unsatisfactory state in which the public affairs of this Island are now conducted.

We have received several communications on the subject of the retirement of the Hon. E. Palmer from the House of Assembly, and his admission to the ranks of the Peers of P. E. Island. The prominent idea of our correspondents is one of surprise that the leader of the Government should have consented to exchange the arena of many an exciting contest—the place around which all the reminiscences of a long political career are gathered—for the uninfluential and comparatively tame life of a Legislative Councillor. When Hercules laid aside his club and assumed the distaff—when Anthony lost an Empire—their conduct was induced by the love of woman; and men can understand the influence which actuated them. But from Mr. Palmer's oft repeated opinions, we cannot believe that the Hercules of the Tory party, the Anthony—long the opponent of our Island Cæsar—would find an Omphale or a Cleopatra among the *old ladies*, as they have been styled, of the Legislative Council.

To Mr. Palmer one of our correspondents applies the words of Ulysses to the Grecian hero:—

> —— "The cry went on thee,
> And still it might; and yet it may again,
> If thou wouldst not entomb thyself alive,
> And case thy reputation in thy tent."

NEWS OF THE WEEK.

Although the foreign, British and Colonial Mails have come in a shower upon us, during the past week, we have but very little news of great public importance in our numerous exchanges. United States papers furnish the usual chapters of accidents by water and fire, the usual amount of crime, and a full measure of discussion arising out of the local squabbles between the Government of the Republic and their opponents, in any of which we cannot be expected to take much interest.

From the Provinces, the most noteworthy thing is the anomalous position in which the Government of Nova Scotia appears to be placed. The Legislature of that Province met on the 26th ult.; up to the 3rd inst. nothing was done beyond choosing the officers of the House—the rest of the time having been occupied with the most trumpery discussion about the claims of certain gentlemen to seats in the Assembly. The Government—who are clearly in a minority, and who have not the grace to resign—contend that seven of the new members were not qualified when they were returned to the House, and they ignore the right of those gentlemen to sit in Parliament. The Opposition, on the other hand, contend that the seven gentlemen referred to were not disqualified according to the laws of the Province; and they insist that those who are alleged to be disqualified should retain their seats until a Committee of the House, constituted in the regular and usual way, shall prove their titles bad. This seems to us to be the proper course; but the Government are meanwhile in a minority, and they threaten to dissolve the Parliament if the so called disqualified members are allowed to hold their places.

We believe that Mr. Johnston's party will make good their threat, if driven to extremities; but we believe, also, that if they do, their act will redound to their everlasting discredit and discomfiture. We say this, not from any dislike of the Johnston Government, taking it on the whole; nor from any sympathy with those who at present constitute the Opposition—whose proceedings have not, for two or three years past, commended themselves to our favourable consideration; but because we think the acts of the Government with regard to the disputed seats are irregular and unconstitutional. Mr. Johnston's Cabinet have appealed to the Attorney General and Solicitor General of England on the subject. The correspondence is before the public, and all we shall say at present about it is, that the appeal and its result are discreditable to Nova Scotia and to the Law Officers of the Crown in that Province.

The news from Europe, brought by the English Mail on Saturday evening, is of a negatively interesting character. The French and English have not yet commenced that war which has been so long talked of, and the dread of which has frightened so many people on this side of the Atlantic, but the two nations have been quietly talking to each other about commercial treaties;—the formation of Rifle Companies does not appear to be as active as it was a few months ago;—the long talked of Congress has not yet met in Paris, nor is it likely to meet there or anywhere else;—there is some little noise still kept up about Garibaldi, Mazzini, and other Italian revolutionists; but the Pope has not been despoiled of any of his temporal power, and for ought we know to the contrary, sits as quietly in the Vatican as ever he did. So, on the principle that no news is good news, we may safely congratulate our readers on the interesting character of the intelligence from Europe.

CATHOLIC YOUNG MEN'S LITERARY INSTITUTE.

On Wednesday evening, 1st inst., Mr. J. K. Kelly, son of the Hon. F. Kelly, delivered the second part of his lecture on Ireland, entitled "Irish Nationality," in the above Institute, to a very respectable and attentive audience. As on the former occasion, the lecture was all that could be desired; it embraced a wide range of subject, and afforded an extensive illustration of facts, proving most satisfactorily the care and attention bestowed upon the details of his leading by the talented young lecturer. Incidently developing his subject, he rapidly sketched the leading features of the American War of Independence, drew pleasing portraits of Washington and his compatriots, characterised the Federal Republic as the home of the free and the refuge of the oppressed, adverted to the stirring events of the great French Revolution—whose ideas of progressive improvement, evolving from chaotich confusion, stimulated oppressed nationalities to burst the chain which had bound them, and arising from their serf-like and ignominious prostration—with eagle eye and pinion wing, their flight upward and onward to feast their delighted gaze with the splendor and glory of the Sun of Freedom. At the close of the lecture a very animated discussion ensued, which was kept up with spirit till after ten o'clock.

On Wednesday evening next, 8th inst, Mr. E Roche will lecture; subject, "General Information."

Professor Holloway.—We have received a presentation copy of an engraving of the world-renowned Pill and Ointment manufacturer, Professor Holloway, a *protrait de luxe*, got up in crimson velvet and gilding, and in a very elaborate style. Never having seen the original, we are unable to criticise the likeness; but the counterfeit presentment is that of a very intelligent looking gentleman in the prime of life, of a slightly American style of countenance, every feature of which gives indication of that "cuteness," by the exercise of which Professor Holloway has made his fortune. Instead of presenting his portrait to the press it would be more in accordance with the spirit of this testifying age if the press would do something handsome in the testimonial way for him; for no man in this empire has been a better friend to newspapers than Professor Holloway. In the first place, he is profuse in the extent of his advertising orders, liberal in his terms, and the best of all kinds of press customers, for he pays invariably in advance. The regularity with which this department of his business is conducted is remarkable, for "Holloway's Pills" are advertised in every newspaper in every country in the world, and yet his orders are sent out, and their fulfilment checked with an accuracy which is extraordinary when the vast amount of the papers in which he advertises is considered. In the second place, the Professor serves newspapers by exhibiting a splendid example of what can be done solely by well sustained, extensive, and persevering advertising. The amount expended by him annually in this way is equal to many a ducal income, and as his business expands, so does his advertising. There is a story of a mad hatter in America who wanted to ruin himself as a preliminary to suicide, so he commenced, as he thought, to squander his money recklessly in advertisements; but he found that the more he advertised the richer he grew, so he gave that up. Professor Holloway adopted the system from very different motives, and has achieved a similar result. We commend the fact to the consideration of an intelligent mercantile public, who, of course, will see at once that our advice is perfectly disinterested, and is given solely with the desire to promote their interest. It may be as well to add, for the enlightenment of discerning readers, that this paragraph is *not* a puff.—*Northern Whig.*

Holloway's Pills.—For scurvy and the most prevalent diseases incidental to mariners, this purging and cleansing medicine is invaluable. It accommodates itself to the peculiar exigencies of the case, and after restoring the patient to health, re-invigorates the vital energies of the body. 25

Messrs Squire, Parsons & Co., in writing from Brantford, Ct., say:—We are out of Davis' Pain Killer, and some of our customers are suffering from the want of it. It has, from its own merit, acquired a popularity beyond anything in the whole category of medical preparations. Sold by druggists.

AYER'S CATHARTIC PILLS.

The sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pains arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by some unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

A NEW DISCOVERY FOR 1860!

Stoves! Stoves! Stoves!

THOSE celebrated Yarmouth, N. S., extra strong and substantial Cooking, Franklin, Box and other STOVES, and not Sam Slick Peddling Stoves some of which have been set up and forced on simple farmers, at one third more in price than those first rate Yarmouth Stoves, on the name of giving 12 months' *credit* on a Note of Hand, which must be paid in cash when it falls due in the Bank, or to the holder of the Note, *and no mistake.*

Produce will be taken in payment, and time given to any good Farmer wanting one of those celebrated Cooking Stoves.

From the very general satisfaction they have given for the last two seasons, and the great demand for them all over the Island, which are now fast superseding all other kinds of Yankee Stoves; and as they only require about half the wood, labour and time of most other Stoves—such a revenue is equal to so much cash in the Farmer's pocket, or Oats in his barn. The large metal Boilers, which suit also to feed cattle in the Winter, make those Stoves still more valuable for cooking up all the barn waste, and the little time required to attend to them.

Any one that wishes to save money, and to keep a warm house for little trouble and cost, ought to have one of those extraordinary Stoves for 1860 in it, before they are all sold, which would clear its own cost in wood, labour and time before three seasons are over.

The following Agents have been appointed, and have received nearly 300 of those almost everlasting, new and favourite Stoves, most of which have been sold, and not one returned or found fault with. Reference can be given to all the parties who purchased them, on enquiry of any of the undersigned, and there is one in operation at the Orwell Agent's, where it can be seen at all times.

Doctor Evans' Pain Killer.

NO medicine has been discovered that is so happily adapted to use internally as drops to be taken, and yet perform such wonders when applied externally as a wash, bath, or by friction.

USE IT IN THIS MANNER:

For common Headache, simple bathing will answer.

For sudden colds and hard coughs, (to cure immediately) put one teaspoonful in four of molasses, and take three teaspoonfuls of the mixture as often as you cough. Bathe the neck, breast and sides with it to cure soreness of a cough.

Asthma, Phthisic, and sore breasts—for speedy relief, 30 drops in molasses, and bathe freely with it clear, and keep on flannel wet in it.

For bowel complaint, cholera morbus, cholic, and diarrhœa,—a teaspoonful in a gill of milk and molasses, well mixed; if the pain is severe, bathe the bowels with it, and in cholera repeat the dose every hour.

For Dyspepsia and sick stomach, 20 to 30 doses in sweetened water, morning, noon and night, till all symptoms yield, and you are restored to perfect health.

For all rheumatic complaints, lame neck, swelled face, sore throat and toothache, 60 drops as above, three times a day; bathe the parts well, rub with a warm cloth, and take a teaspoonful of mustard seed nightly, in milk or molasses, at bed time.

For burns, scalds, pricks, stings or old sores, bathe well and often the parts affected.

For sudden colds or croup, 30 drops in molasses, every hour, and bathe freely with it.

For canker, sore mouth and stomach, chicken pox, or measles, 30 drops twice a day in sweet milk.

ASK FOR EVANS'

PAIN KILLER, and take no other.

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.
LOWELL, MASS.
Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per Box; Five boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand Ayer's, and take no others. The sick want the best aid there is for them, and they should have it.
