posed charitable and religious organization near Montreal.

The judgment told of rich oriental rugs placed on top of wall-to-wall broadloom at the elaborate 160-acre estate of the Christian Homes for Children at Vandreville.

Rev. Harold George Martin, founder and chief officer of the institution, kept what he called a "Hell" file of rude and brusque replies to letters from donors wondering what was being done with their money.

Mr. Martin's five children were all given expensive educations although he said he never drew more than \$2,000 a year in salary, said the judgment by board member W. O. Davis.

He denied an appeal by the Christian Homes against a claim by the revenue department that the institution should have paid tax on \$350,402 between the years 1946 and 1961.

The board, which took 2,000 pages of evidence at a two-week hearing on the case last November, ordered Christian Homes back to another hearing to hear argument on the total of the assessments.

The revenue department says Christian Homes is not a charitable organization and therefore not tax free as claimed.

Mr. Martin was identified as a minister of the Union of Regular Baptists, ordained in 1942 in Toronto, and since a prison chaplain, superintendent of a mission in Toronto, chaplain in the armed forces, and a missionary with the China Native Evangelistic Crusade.

He established the Christian Homes in 1945 near Orillia, Ont., but moved to Quebec when he was unable to obtain a licence in Ontario to run a year round home for children.

He was put together the framework of the UAW's contract demands on the auto industry in 1967 and Reuther has indicated he will seek substantial increases for a skilled workers and production workers.

Public Works Contracts Let

OTTAWA (CP)—Public works contracts totalling more than \$2,000,000 have been awarded for construction work in three Newfoundland centres.

Inspiration Ltd. of Montreal has been awarded a \$1,389,666 contract for ferry terminal facilities at Port aux Basques.

McNamara Construction of Newfoundland Ltd., St. John's, has been awarded a \$769,322 contract for services, roads and parking areas in connection with the ferry terminal facilities at Argentia.

A \$26,576 contract for paving a storage and parking area at the transport department compound at St. John's has been awarded to All Sales Equipment Contracting Ltd. of St. John's.

SALES WILL BE DOWN

Heads of all four auto companies have indicated belief that 1968 auto sales will wind up short of the record 9,000,000 cars, including some 800,000 imports, sold in the U.S. market last year.

Some sources said some customers, aware that the federal government will add more safety standards in 1968 models, will remain out of the market until then.

E. M. (Pete) Estes, General Motors vice-president and general manager of its Chevrolet division, disagreed with this.

"We are putting safety items on our cars just as fast as they become available and there is no reason for any buyer to put off his decision until 1968," he said in an interview.

Lacocca said one of the unusual things about sales to date

is that while fewer cars have been sold, customers have been digging deeper into their pocketbooks.

WANT BEST LINES

This was due partly to an increase in car prices because of addition of safety items this year. But, he said, "we are seeing a record demand for top-of-the-line cars and for optional equipment items."

The auto sales picture appeared certain to get close study from President Walter Reuther and other members of the United Auto Workers' executive board which is meeting here this week.

year ago, October sales trailed by about the same margin.

The industry, which had become used to superlatives in describing its sales accomplishments, found it hard in recent weeks to adjust itself to reporting less than record sales.
