COLONIAL PARLIAMENT.

HOUSE OF ASSEMBLY.

Debate on the Draft Address in answer to His Excellency's Speech (continued.)

LOCAL INDUSTRY AND AGRICULTURE.

Hon. Mr. LAIRD.—The Hon. Leader of the Opposition is very anxious to hear our policy. I hope whatever that policy may be, our records will not be darkened by such proceedings as some of those of the late Government. Hon. members belonging to that party cannot show much they did to develope velope local industry. The only woollen factory, I believe, on the Island, is established in the district which I have the honor to represent. The enterprising owner petitioned this House that the duty might be remitted on some machinery which he was importing to improve his factory; but the late Government, I understand, threw his petition under the table, for it was never even seen by the member for that part of the district. I trust the party at present in power will never thus turn the cold shoulder to those who are endeavoring to develope our manufactures. In reference to agriculture, they have been tolerably liberal; they have spent some £4,000 in establishing a stock farm, which has as yet accomplished very little for the benefit of the Island generally. The only share of the stock which has come to the County in which I reside is, I believe, a few little pigs and one lamb. (Laughter.) I fear that the farm in question has not been properly managed, for I hear that some of the young stock have been worried by the dogs of parties who have been admitted on the premises. I am inclined to the opinion that it would be less expensive to import stock every year than to keep up a farm for raising pure breeds. We know that, as a general rule, the Government cannot conduct any business so economically as it can be done by private enterprise.

Hon. LEADER OF THE OPPOSITION. As regards the petition to which the hon. member for Bedeque has referred, it was laid before the Executive under the rule which gives the government the initiation of money votes. They brought it before the members of the party in caucus; but there was not a majority in its favor, though I myself supported it, and went to the store of a gentleman, who is now a member of this House, to obtain information on the subject. If the hon. member's colleague did not see the petition it was because he would not attend meetings of caucus at the time; and if he thus neglected the interests of his constituents, the blame should rest upon him, and not upon the Government of the day. With respect to the stock farm, it was established principally to avoid the risk of importation, as on one occasion the Government nearly lost the whole of some valuable animals, purchased in Britain, on their passage out to this Island. Certain competent persons were appointed to take charge of that farm when it was established, among whom were the Hon. George Beer, Dr. Jenkins, the present Liberal member for the city—and last but not least, Hon. Alexander Laird, the father of the hon. member for Bedeque, and if they did not attend to their duty, I cannot understand why the hon gentleman should censure the late Government.

Mr. HOWATT.—The hon Leader of the Opposition has thought proper to allude to me in connection with money votes. When the question of allowing the Government the privilege of initiating money votes was brought up in this House, I opposed it. Talk about caucus meetings properly adjusting money matters! there never was a greater delusion! (Laughter.) I was opposed to the initiation of those votes by the Government when the question was first introduced, and so was the hon. member from New Glasgow; and I am opposed to the principal still. I think it is a power which should never be placed in the hands of any Government.

Hon. Mr. DUNCAN.—I am surprised to hear a farmer like the hon. member for Bedeque, opposing the stock farm. I was expecting, on the contrary, as he is a member of this progressive Government, that he would be proposing a grant now of £1000 a year for that farm. He has referred to the petition praying for a remission of duty on certain factory machinery. If the prayer of that petition had been granted, it was found that the duty would also have to be taken off a great many other things of a similar benefit to home enterprise.

Mr. MACLENNAN.—I rise to corroborate the statement of the hon. member for Bedeque, in regard to the share of stock which Prince County received from the stock farm. I hope, as he is now a member of the Government, that he will carefully look after the interests of Prince County.

Hon. Mr. LAIRD.—I wish, Mr. Chairman, to ask the hon. Leader of the Opposition, if the stock farm was not employed as a shooting ground.

Hon. LEADER OF THE OPPOSITION. —When I was at Halifax last summer, I was informed by Major General Doyle that, unless the Government provided a shooting ground for the troops in this Island, they would have to be taken to Halifax for this exercise, and back again, at the expense of the Colony. And as no other suitable place could be found than the stock farm, we thought it better to give the troops the use of that farm, rather than put the country to the expense of several hundred pounds.

Hon. Mr. LAIRD.—The hon. member who has just spoken, taunted me by saying that if there had been any mismanagement about the stock farm, the Commissioners in charge, my father among the number, were to blame. Now, I ask what responsibility could be attached to the Commissioners, when Hon. Colonel Haviland and other members of the late Government, without consulting or notifying them, turned the stock farm into a shooting ground. If the Government permitted the troops to go on the farm, and the dogs of the officers worried some of the young stock, I hold that they, and not the Commissioners, were chargeable with allowing the public money to be squandered.

Hon. LEADER OF THE OPPOSITION. —It was, Mr. Chairman, to save the public money the troops were allowed to go on the farm for shooting practice. Was the amount of the stock destroyed on the farm worth £500 sterling, for this is about the sum it would have cost the Colony to send the troops to Halifax? It is, however, the first time I heard that any of the stock were injured on account of Her Majesty's troops being permitted to go on the farm; and I believe if it were represented at head quarters that such was the case, remuneration would be offered for the damage sustained.

Hon. Mr HENDERSON —I was a member of the Government at the time alluded to by the hon. member for Bedeque, and gave my consent to the stock farm grounds being used for military ball practice, from the conviction that it was the best course that could be adopted, in view of all the circumstances of the case. I regret to learn that any portion of that valuable stock were injured in consequence of the arrangement; but this is the first time I have heard of it. Am I to understand it as the opinion of the hon. member, that any Government should delegate an amount of power to a committee, which would make that committee entirely independent of the government that appointed it? If that is not his meaning, I am at a loss to understand him. The mistakes and faults of the late Government should be of service to the present party, as beacons to make them steer clear of the rocks and shoals which proved so dangerous to their predecessors, for they may depend upon it that the due performance of promises made by them at the hustings will be demanded by the people.

Hon. Mr. LAIRD.—I wish it to be distinctly understood that the powers of this Committee were over-ruled, and their privileges interfered with. I ask, is it right for any committee to be sacrificed, and their authority set aside, while they, as such, are held responsible for the consequences?

Hon. LEADER OF THE OPPOSITION.—There was no time to consult the Committee.

Hon. Mr. LAIRD —In the neighborhood of stock was no place for ball practice. The danger was two-fold; the young stock were liable to be shot or otherwise killed, as, on such occasions, many persons would be out there on horseback, with dogs, and these latter, when collected together, were apt to destroy young stock.

Hon. LEADER OF THE OPPOSITION. —It is not every place that will do for ball shooting practice. Before even the grounds of the stock farm would be taken, two officers were sent out to see if they were suitable.

Hon. Mr. DUNCAN.—I expect everything will go on well this year; there will be no failures in anything.

The paragraph under discussion was then passed, as also were the 9th and 10th; after which the Committee rose, and the Chairman reported the Address agreed to without any amendment.

House adjourned.

NEW TRIUMPHS OF ROGERS' MEDICINES.

Run your eye over them and tell your affected neighbour about it.

Messrs. Rogers & Co.:

This is to certify that about five years ago I had a lump on the back of my neck, which all the doctors to whom I showed it pronounced it a Tumour, and said it could only be cured by cutting it out. I did not like the operation much; and by accident heard of Messrs. Rogers' medicine for the cure of cancers, &c, and concluded to try it; and to my surprise the tumour disappeared in a very short time, and I have not since been troubled with it.

JOHN W. McPHERSON.

Pugwash, 28th May, 1863.

Mr. Colin McCallop, Loading Ground, Pictou, is cured of a bad ulcer on his side, of many years standing. The doctors pronounced it incurable.

HANTSPORT, Jan. 25, 1864.

Messrs. Rogers & Co.:

It is with pleasure that I can justly say that your medicines are truly great, after proving them faithfully in two cases,—one of Erysipelas, which is now cured, the other that of the late Capt. F. McKenzie, of this place, who was widely known to have the worst of diseases, viz., Scrofula, and who consulted many of the best physicians in Europe and America, who pronounced his case incurable eighteen months ago. I attended him, and applied your medicines during the last few months of his life, and am fully persuaded that had you been sent for six months sooner his life would have been saved, and the disease cured. His constitution was gone, but your medicine worked marvellously for good. The captain himself had the fullest confidence in it to the last, and said to me frequently that if he had known you sooner, his life would have been saved.

I do, with every confidence, recommend your medicines to the suffering everywhere, and wish you God's blessing in your work of humanity.

Yours, very respectfully,

T H. HARDING.

Miss Mary McDonald, East River, Pictou, was afflicted with a tumour on her face the size of a hen's egg, of six years' growth. Is now entirely removed.

(Extract of a letter.)

HANTSPORT, 11th January, 1864.

Messrs. Rogers & Co.:

I watched with interest the effects of your medicine upon the late Capt. F. McKenzie, of this place, and the facts of its straigthening the nose, and nearly healing up the face, as well as reducing the swelling, proves to me the virtue of the medicine. I would earnestly recommend all afflicted with Scrofula or Skin diseases, as well as Cancer, to employ your skill. I have every faith in your applications, and wish you success, and pray the Lord may bless and prosper you in your work of love to mankind.

I am, respectfully yours,

N. T. HARRIS.

The Most Reliable Friend!

Holloway's Ointment.

Its Searching & Healing Properties are known and recognized throughout the World.

The number of years this invaluable Ointment has stood the test of public opinion, (and the longer known the better appreciated) is a testimony of itself more convincing than anything that could be written in praise of its truly wonderful healing properties. In the cure of bad legs, bad breasts, sores, wounds, and ulcers, its effect is marvellous. For ring-worm, scald-head, scrofula, and diseases of the skin generally, there is no remedy to be compared to it. When assiduously rubbed upon the skin (previously well bathed in warm water) this Ointment is quickly absorbed into the system, and cleanses, in its passage, every part to which it is applied.

Glandular Swellings, Mumps, Bronchitis, Quinsey, Sore Throats and Diptheria.

In any of the above diseases, immediate and permanent relief is obtained by effectually rubbing this detergent Ointment, twice a day, upon the neck, chest and back. Its acts upon the very mainsprings of life; for through the glands pass all new matter required for the body's reparation and all old particles detrimental to its preservation. The Ointment, used conjointly with Holloway's Pills, will act so searchingly and certainly as to effect cures in the most hopeless cases.

Rheumatism, Lumbago, Contracted and Stiff Joints.

Many thousands of martyrs from the above complaints have found life almost unsupportable; yet, if Holloway's Ointment be briskly and perseveringly rubbed upon the parts affected, ease may be safely guaranteed, especially it the pores of the skin be previously opened by fomentations with warm water. The gross humors require expulsion from the system; it is therefore necessary to have recourse to Holloway's admirable Pills, which, by purifying and strengthening the system, greatly assist the operation of the Ointment and facilitate and confirm the cure.

Bad Legs, Bad Breasts, and Ulcerations of all kinds.

There is no medicinal preparation in the world which may be so thoroughly relied upon, in the treatment of the above ailments, as Holloway's Ointment. Nothing can be so simple or safe as the manner in which it is applied, or its action on the body, both locally and constitutionally. The Ointment, rubbed around the part affected, enters the pores just as salt enters meat. It quickly penetrates to the source of the evil and drives it from the system.

Erysipelas and Scrofulous Sores.

In all irritations of the skin, sores, ulcers, burns or scrofulous enlargements of any kind, Holloway's Ointment presents a ready and easy means of cure. It manifests a peculiar power in restraining inflammation, removing stagnation, cooling the heated blood, and checking all acrimonious and unhealthy discharge.

Diseases attendant on Childhood.

Diseases incident to early life fall more under the management of the mother than the medical man. Holloway's Ointment should therefore be regarded by her as a "Household Treasure," as it never fails in bringing out the rash in measles and scarlatina; and for the removal of all skin diseases its effect is miraculous. In cases of whooping cough and croup, this invaluable Ointment should be rubbed twice a day upon the throat and chest, and the youngest invalid will derive therefrom the most soothing relief. Two or three of Holloways's famous Pills, reduced to a powder, will augment the curative powers of the Unguent.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Corns (soft)	Rheumatism
Bad Breasts	Cancers	Scald Heads
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions	Elephantiasis	Sore Throats
Bite of Moschetoes and Sand Flies	Fistulas	Skin Diseases
	Gout	Scurvy
Coco-bay	Glandular Swellings	Sore Heads
Chiego-foot		Tumours
Chilblains	Lumbago	Ulcers
Chapped Hands	Piles	Wounds
		Yaws

Sold at the Establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s 1½d, 2s 9d, 4s 6d, 11s, 22s, and 33s each Pot.

*** There is a considerable saving by taking the larger size.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers her

Soothing Syrup,

FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay **all pain** and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants.

We have put up and sold this article for over thirty years, and **can say, in confidence and truth** of it, what we have never been able to say of any other medicine—**never has it failed, in a single instance, to effect a cure,** when timely used. Never did we know an instance of dissatisfaction by any one who used it; on the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter **"what we do know,"** after thirty years' experience, **and pledge our reputation for the fulfilment of what we here declare** In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most **experienced and skilful nurses** in New England, and has been used with **never-failing success** in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcomes convulsions, which, if not speedily remedied, end in death. We believe it the **best and surest remedy in the world,** in all cases of **Dysentery and Diarrhœa in Children,** whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints —**do not let your prejudices, nor the prejudices of others,** stand between your suffering child and the relief that will be **sure—yes, absolutely sure**—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the facsimile of **CURTIS & PERKINS**, New York, is on the outside wrapper.

☞ Sold by Druggists throughout the world.

Principal Office, No. 48, Dey Street, N. Y.

Price only 25 Cents per Bottle.

THOMAS OWEN,
Postmaster General.

General Post Office, Ch'town, 10th June, 1867. isl

DR. LA'MERT
ON
SELF-PRESERVATION.

PRICE WITH ENGRAVINGS AND CASES, 1s. 6d, BY POST, 3s. CURRENCY.

SELF-PRESERVATION: A popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence, by DR. LA'MERT, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the attributes of manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The author is the only legally qualified practitioner whose name stands on the 'Medical Register,' (the sole test of medical qualification) who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter—37 Bedford Square, London, England.

Patients residing in the Colonies can be successfully treated by correspondence, and remedies can be forwarded in secresy and safety to any address.

"SELF-PRESERVATION" may be had of the undermentioned Agents, price 1s 6d; free by post, 3s currency:—Halifax, N. S, Mr. Johnson, Chemist. Yarmouth, N. S., Messrs. Young & Baker, Booksellers. Sydney, C. B., Mr. J. P. Ward, News Office. St. John, N. B., Messrs. H. Chubb & Co., *Courier* Office. Charlottetown, P. E. I., Mr. John Ings, *Islander* Office.
