BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified by pure blood and a properly nourished frame."—Civil Service Gazette.

Gave Himself Away.

The story is told at Moosehead of a genial landlord at one of the more remote hotels in the wood's region who got into a nice little scrape by deciding an alleged "bet" between a couple of guests. The latter gentlemen weregame wardens who had been called to the place by rumors of unlawful killing of deer there. As they sat at table enjoying a juicy steak the landlord came bustling in, when one addressed him:

"My friend here and I have made a bet and we want you to decide it for us. He claims that this steak is beef and I say it is deer steak. Now as you know, won't you please decide who is right." The landlord blushed all over, but who could refuse such an innocent request. "It is deer," he said. "Are you sure?" asked the beef man; I don't want any mistake about it." "Yes, I know," said Boniface, using his bandana to take up the surplus perspiration; "it was shot last Sunday by Tom ——." Arrests and fines followed as a matter of course.—Lewiston Journal.

She Took the Hint.

A good Presbyterian woman in Foundry street had a tramp caller last Friday and she generously set before him a glass of milk, plenty of bread and a piece of pie. The tramp set down and looked at it for some time.

"Madam," he said without touching it, "are you a member of any church?"

She thought he was going to ask a blessing.

"Yes," she replied, "I am a Presbyterian."

"I am glad to hear that, madam, for I am a Presbyterian myself."

"Yes?" she replied, not knowing what else to say.

"Yes, madam," he went on, as he eyed the food critically, "and I believe us Presbyterians don't object to eating meat on Friday, do we?"

Then it was her meek and lowly spirit hoisted itself in wrath, and the next minute the tramp was flying toward the gate with the dog after him.

The Sparham Case.

KEMPTVILLE, July 24.—Much interest is felt by residents of this place in the case of Mr. W. F. Sparham, of Ottawa, to whom reference was made in an Ottawa despatch a few days ago, as a sufferer delievered from from kidney disease by the use of Dodd's kidney pills. Mr. Sparham was born and brought up here, and is well-known and universally popular. His friends here had heard of his illness and his failure to obtain relief from all the medicines he tried before taking the pills. Their wonderful effect in his case will make the remedy more popular in this vicinity, for all now are fully aware of his good properties.

A SPLENDID RECORD.

A Provincial Industry Trebles its Business in the Last Three Months.

Some three months ago this journal informed its readers that a new provincial industry, that of the Hawker Medicine Company, of St. John, had completed its first qurrter's business, and that itss book showed a development of trade and a record of sales that was not only gratifying but really astonishing.

Another three months has now elapsed and the company have balanced their accounts for the six months. The results show that in the last three months they have trebled the business of the first three: they have about doubled their working staff and work has been carried on in the packers room till 11 o'clock every night in order to fill orders promptly. From all parts of New Brunswick, Nova Scotia and P. E. Island, from Newfoundland and parts of the United States, the orders have rolled in. The business is now firmly established. The experimental stage is past: repeat orders come in constantly, showing that where once the remedies are introduced, they win permanent favors with the people, who know as soon as they have given any of them a trial that these standard remedies are all that they are claimed to be. Indeed, this last might readily be assumed without a trial, and judging solely from the character of the gentlemen who form the Hawker Medicine Co., as they are numbered among the leading citizens and most honorable and successful business men of St. John.

The Hawker Medicine company are now patenting their remedies in Great Britain and will presently extend their operations there, as well as more extensively to the United States. About the middle of this month Thomas Rankine, who so successfully introduced the Hawker remedies in Newfoundland last spring, will start and traverse the western part of Canada, from Montreal to Vancouver in the interests of the company. With such a record as that of their first six months now closed, the Hawker Medicine Co. are evidently destined to achieve a great success. They control standard remedies, which have received the endorsation of leading physicians in Canada and the United States, as well as the fervent praise of sorely afflicted people who have by their means been restored to health.

Their place of business is at 104 Prince William Street, St. John, N. B., where they have the most extensive and elaborately fitted up premises of the kind in the Lower Provinces. William Hawker, the original inventor of the remedies, has been a druggist in St. John for 30 years, and had long proved the value of the different remedies before the present company was organized. It is with pleasure that this journal records the company's wonderful success.

Worse Than Dynamite.

Hardly a month passes but we read of terrible explosions and loss of life from natural gas.

One writer has raked up Chinese history wherein it appears that away back in the time when the famous Chinese wall was building, before the use of gas wells was discovered, a terrible explosion took place.

The big wells in some way got the start of the little ones, so that enormous volumes of air were sucked down into those subterranean magazines. When the air reached certain proportions the whole thing went off like a leaky gasoline stove. The result was horrible in the destruction of lives. The same writer predicts similar conditions underlying the great natural gas belt of this country, from Toledo, through Ohio, Indiana and Kentucky, whereby that whole vast region might be ripped up to the depth of 1,500 feet, leaving a chasm for the waters of the great lakes to pour down into, blotting out every living human in this now densely populated valley from the face of the earth. That writer might easily have shown further that throughout our whole country, not only in densely populated regions and cities, but in country and village houses as well, natural gases far more dangerous than is found in the lake regions, are carrying off not only "pig-tail" Chinamen, but our own families and friends during the hot waves of July and August.

Scores of people are dying daily from typhoid fever, diarrhœa, dysentery, cholera-morbus, and infant summer complaints; all caused by poisonous gases and ferments, far worse than hydrogen gas or dynamite in their explosions. Fortunately this latter danger can all be averted by the use of a simple old fashioned remedy, Johnson's Anodyne Liniment, used internally, as explained in a pamphlet sent free to anyone by I. S. Johnson & Co., Boston, Mass. No matter if you have used this remedy before, it will pay you to get a bottle and read the directions, or send for the pamphlet just to learn how to use it economically.

Experience Has Proved It.

A triumph in medicine was attained when experience proved that Scott's Emulsion would not only stop the progress of Pulmonary Consumption, but by its continued use health and vigor could be fully restored.

F. G. BLACKLOCK, of Cape Spencer light station, tried all kinds of remedies for rheumatism, that had left him almost unable to walk, and at last got Dr. Manning's German Remedy. Before he had finished a bottle he could walk without a cane. This marvelous painkiller is a positive cure for rheumatism, neuralgia, sprains, strains, bruises, colic, chills, cramps and all pains and aches, either internal or external. An invaluable household remedy Sold everywhere. Price 50 cents.

OTHER cough medicines have had their day, but Puttner's Emulsion has come to stay, because it is so nice and so good.

Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in thin dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this is

Why you use Allen's Lung Balsam.

It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ar

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

The Telephone Company —OF— P. E. ISLAND.

Parties using the telephone would facilitate talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear just as if you wished to shut out other sounds. Do not press too hard against the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.
