

## Fund Establishes Speakers' Bureau

Many times each year various groups throughout the province are seeking speakers for regular and special meetings.

This year, Ralph J. Rupert of Charlottetown, chairman of the public relations committee of the P.E.I. United Fund, has set up a Speakers' Bureau under a sub-committee headed by Iphigene Arsenault and Eric Shepherd who will endeavour to meet the requests for speakers on the subject of the United Fund.

Officials of the United Fund at several centres in the province have agreed to take on speaking engagements in their own or other localities, particularly during the month of October, but also at other times during the year.

In addition, the organizations which participate in the United Fund campaign have been contacted and asked to provide speakers from among the members of their boards of directors. Organizations wishing to take advantage of the opportunity offered by this Speakers' Bureau to better inform their membership on the all-important subject of the United Fund should contact the P.E.I. United Fund office, P.O. Box 247, Charlottetown, giving alternate dates on which a speaker is desired.

R.E. DRISCOLL, left, national vice-president of the Civil Service Association of Canada met with representatives of the Summerside and Charlottetown local councils last night at the airport terminal building in Charlottetown. With him are Fred Campbell, president of the Summerside local council and D.C. Moore, president of the Charlottetown local council.

## Civil Service Ass'n Planning '64 National Convention Here

The national vice-president of the Civil Service Association of Canada was in Charlottetown last night to meet with the two local councils, one each from Summerside and Charlottetown.

R.E. Driscoll, Halifax, said last night that the main purpose of his meeting with the two locals was to discuss and prepare resolutions to be presented at the national convention to be held in Charlottetown next February.

He explained that some of the topics under discussion were collective bargaining, prevailing wages rates and a time and date for the national convention.

Paul MacKinnon, secretary of the Charlottetown local council, said that the prevailing wage rate was the biggest sore point in the Maritimes at the present time. Apparently while some civil servants receive the same wages all across Canada others such as carpenters find a very great variation in the wage scale.

Representatives attending last night's meeting were Frederick Campbell and Albert Boyle of Summerside and D.C. Moore, P.J. MacNeill, J.G. McFarry and E.G. Walker all of Charlottetown.

## Souris Soldier's Funeral Thursday

SOURIS — The body of Bar Herbert Lester MacDonald of this town, killed in a truck accident Saturday at Camp Shilo, Man., will be sent home for burial, it was learned Monday. The body will arrive tonight and funeral services are scheduled for Thursday morning from St. Mary's Roman Catholic Church here.

Bar MacDonald, in his 22nd year, was a son of Mr. and Mrs. James MacDonald of Souris. In addition to his parents, he is survived by two brothers and three sisters. They are: Gerald, Jessie, Mrs. William Lapsley, Ila and Earle, all in Toronto; and Mary, Mrs. Michael Cheverie, Souris Line Road. Two brothers predeceased him.

Summerside and D.C. Moore, P.J. MacNeill, J.G. McFarry and E.G. Walker all of Charlottetown.

Canada geese, their limit, being nine o'clock yesterday morning. Scene of the operation was somewhere in Queens County.

## Hunting Season Opens But Few Get Bag Limit

Despite wet, soggy weather, gunners all across the island were out in full force for yesterday morning's opening of the game bird hunting season.

The various types of ducks available in numbers varied widely in different parts of the province. From Prince County to the west, the word last night was that a green winged teal were the most plentiful.

Throughout most of Kings and Queens it appears that black and blue winged teal are predominant. But from all sections there were reports that geese seem to be more plentiful than usual.

There were not many reports of geese being taken, but a small number of gunners are said to have obtained their bag limit.

Most hunters were unable to obtain many birds due to the extremely high tides, which prevented the gunners from being able to locate themselves in the blinds which they had previously prepared.

In some cases, the high tides coupled with very strong winds resulted in the blinds being washed away.

Southern Kings hunters had good shooting for opening day, after taking a wetting in the early morning. The rain cleared and the high winds seemed to keep the birds on the wing.

More geese than usual are reported, with blacks and blue wing teal plentiful. Green wing teal are not so plentiful as other years.

One hunter reported seeing mallard and grey ducks but was unable to get a shot at them. Although no one came forward with a goose for a picture several were at the office in Montague with black ducks.

MATHESON — At the Prince Edward Island Hospital Sept. 30, 1963, Harry Matheson of Oyster Bed Bridge in his 79th year. Resting at the Catholic Funeral Home from where the funeral will be held on Wednesday, service commencing at 2 o'clock. Interment Port-Bowen cemetery.

## Top Rain On Storm Hits Charlottetown

HALIFAX (CP) — A gusty rain and wind storm that lashed the Maritimes Sunday night had passed into the Gulf of St. Lawrence late Monday leaving only slight damage in its wake.

The storm, carrying winds that gusted up to 70 miles an hour in Cape Breton, deposited from one to two inches of rain over the district.

The weather office said Charlottetown had the heaviest rain fall where almost two inches were recorded. One and three-quarter inches fell in Halifax. Most other areas reported up to one inch.

Winds up to 40 miles an hour and extending 500 miles east of the storm centre hit Newfoundland Monday. Gale warnings were up in all Newfoundland and the storm did less damage than was expected to the apple crop in Nova Scotia's Annapolis Valley. A spokesman for the Scotian Golf Cooperative Limited in Kentville said the loss was "negligible." The firm is one of the largest apple buyers in the area.

Seventy-five per cent of the 3,000,000-bushel crop is still on the trees. The spokesman said the heaviest losses amounted to more than three per cent.

**NO DISTRESS CALLS**

RCAP Search and Rescue in Halifax said no distress calls from ships at sea were received. Most smaller craft had headed for shelter when the storm warnings were issued.

Two scallop draggers out of Shelburne, N.S., the Judith and Suzanne and The Knock remained at sea during the storm.

As the storm moved away from the Maritimes a weaker disturbance moved in over Nova Scotia. However it was forecast to cause only cloudiness.

The 2,400-ton Norwegian freighter Bonita, grounded in the Gulf of St. Lawrence north of Anticosti Island, was refloated early Monday with the help of the storm.

A spokesman for Foundation Maritime Limited, said the company's ocean-going tug Foundation Vigilant with the help of ground tackle and a boost from heavy seas had pulled the ship off a reef near St. Charles Island in the Jacques Cartier Passage.

The ship went aground Friday on a voyage from Montreal to Europe. She was being towed to Quebec City for repairs.
