OPENS PLANT AT SCOUDOUC

Strategically located to serve the Maritimes region, 20th Century's new Scoudouc, N.B. plant is geared to turn out a complete range of mobile homes, trailers and other portable prefabricated housing and commercial units. And as production increases, markets may be expanded to include Central and Western Canada.

In addition to contributing to the area's economy through an annual payroll approaching a quarter of a million dollars, the plant is attempting to purchase materials locally wherever possible. For example, upwards of one quarter million board feet of New Brunswick plywood and a significant amount of other lumber for framing will be used at the Scoudouc plant, or shipped to the parent plant at London, Ontario. Extensive production facilities (including 36,000 sq. ft. of floor area and plans for an additional 18,000 sq. ft.) means fast, efficient service for customers. Mobile homes are available in 10 and 12-ft. widths, ranging to 60 feet in length, while travel trailers come in a total of nine models from 13 to 26 ft. Unitized housing will be produced to serve regional needs, and commercial units such as portable school classrooms, campsite offices, bunkhouses and other buildings can be custom designed to meet every need. 20th Century welcomes your inquiries.
