JOHN GAFFNEY, Esq., has been appointed one of the Government school trustees for Summerside in the place of Chas. E. McNeill, Esq., who retires by rotation.

THERE were an unusually large number of tourists on the steamer "Miramichi" on Friday last, a number of whom made a tour of inspection through Summerside.

By cable to Hon. L. C. Owen, it is learned that the brigantine "Fanny," Murchison, master, having arrived at Galway, Ireland, from New York, has made the passage in twenty-four days.

COL. HICKMAN will give a short address in the basement of the Y. M. C. A. Hall at half-past seven this evening, previous to the installation and installation of the members of the new Lodge of Templars to be organized then.

A WOMAN named Jones belonging to Tracadie, N. S., gave birth to a still-born child, on board the steamer "Worcester," on Sunday morning last, during the passage from Boston to Halifax. The child was buried at sea, and the mother was able to leave in good health at Hawkesbury.

THE three-masted American schooner "Flora Rogers," 376 tons, Capt. Long, arrived from Durban, Cap., this afternoon with a most valuable cargo of pitchpine timber and spars, and oak timber. She had a fine passage, but was retarded by head winds. The cargo is consigned by John F. Robertson, Esq., of this city.

BEAUTIFUL silk ornaments for transferring to any dress material, bracket drops, or in fact any article about a house, may now be seen at the Diamond Bookstore. The lovers of the beautiful should call and examine them, as their cheapness and beauty will commend them to all. We have not seen anything more appropriate for general decoration.

Nos. 1 and 2 batteries of the P. E. Island Pro. Brigade of Garrison will parade at the Drill Shed on Monday evening next, at the hour of eight o'clock, for the purpose of being present at the presentation of prizes by His Honor the Lieut. Governor, to the successful competitors at the late meeting of the provincial rifle association. Review order, by order, W. A. O. MORSON, Lieut. and Adjt.

MESSRS. SHAW & WHEATON, who were awarded the contract for building the Cape Traverse Branch Railway, have also the contract for building the branch railway from Sackville to Cape Tormentine. They are well known throughout the Maritime Provinces as first class railroad men. They have built a number of branches in New Brunswick and Nova Scotia.

THE Summerside cemetery is not in a very satisfactory condition. The Journal has several times called attention to this fact and says "we are sorry to say that our remarks only had the effect of having the fence repaired sufficiently to keep out cattle, while hogs can readily gain admittance, and are very annoying to those who try to keep the burial places of loved ones in a decent condition. We think the least the Company could do would be to see that their grounds were so fenced that no kind of stock could get in."

LOBSTER FISHERY EXTENSION.—Mr. Duvar, Inspector of Fisheries, telegraphs:—"There seems to be some difference in dates as to the time to which lobster fishing is extended."

The following are the exact words of the despatch:—"OTTAWA, Aug. 22. "Lobster fishing extended to twenty-fifth (25th) instant. Notably fishery officers. (signed) "T. F. BAUSER, "For Minister."

CRICKET.—At the Park to-morrow afternoon Law and Medicine will play a return match with the All-Comers. As the latter proved victorious in the previous match, and as Law and Medicine are desirous of wiping out this defeat, a pleasant and most interesting game may be anticipated. Probably, this will be the last match of the season in which full teams will compete, several members of the club being obliged to return shortly to College. The wickets will be pitched at half-past two o'clock sharp, and tardy members of both teams are requested to make a note of this. We hope to see a good attendance of spectators.

THE steamer "Worcester," Capt. Blankenship, sailed for Boston on Thursday evening with a freight consisting of 1440 barrels of mackerel, 554 cases of eggs, 89 barrels of taters, 200 empty oil casks, 39 barrels of raspberries and 22 cases of canned berries. She had also the following passengers:—Mary Ellen Collins, Mr. W. A. Martin, A. Martin, F. W. Martin, Miss L. Rochford, R. Donoherty, Laura A. Docherty, G. S. Hall, R. F. Collett, Miss Kiley, Bridget Cheverie, Jane Jenkins, Mrs. D. Aitken, Mary Ann McLaese, Peter Beaton, Martha Carmichael, Geo. R. In the House of Commons, on the 23rd, Mr. Cross, Under Secretary for India, presented the Indian budget. The surplus for 1884 is estimated at £457,000.

Twelve decomposed bodies of children had been discovered in the establishment of an undertaker at Bernoddesey, a suburb of London. The police are making inquiries as to the identity of the children and cause of their deaths.

Mr. Gladstone stated, in the Commons, on the 23rd, in response to a question by Mr. Parnell, that he regretted that the House of Lords had rejected the Irish Registration Bill. Mr. Gladstone also stated that he would introduce a large measure on the subject at the next meeting of Parliament.

Mr. Collings (Liberal), member for Ipswich, gave notice, in the House of Commons, on the 23rd, that, at the next session of Parliament, he would offer a resolution declaring that "It is desirable to grant a measure of home rule to Ireland as the best means of securing permanent peace to the Irish." Mr. Collings' announcement was received with cheers.

Hunnell, Kansas, has been in a ferment for some days, owing to the attempt by cowboys to run the town. Last Thursday, Deputy Marshals Forsythe and Raynor arrived from Fort Worth. Forsythe was sworn in as marshal, and two hours afterward he and Raynor went upon the street and were met by cowboys. A fight ensued, and one cowboy was fatally shot and two horses were killed. Ten rioters have been arrested. The town is quiet, the authorities being in supremacy. The cowboys, however, are still ugly and threaten to make further trouble.

The Surgeon-General of the Marine Hospital service, at Washington, has received a report from Surgeon Main, at Brownsville, Texas, from which it appears that black small pox is prevailing with great mortality in the towns of Tamatalanand Purification, Mexico; that yellow fever is reported at Tampico and Panama; black small pox is prevalent in Guatemala, the victims being principally foreigners. There were 160 deaths from cholera in San Dionisio, Oaxaca, during July. These were 477 deaths from yellow fever in Vera Cruz during July. Early in August there was a shower of thousands of fish in Montemorelos, and there was an earthquake at Pachuca, causing 20 deaths and destruction of 30 houses.

Color Hearing.

PERSONS ENDOWED WITH SUCH SENSIBILITY THAT THEY CANNOT HEAR WITHOUT SEEING.

Popular expressions are often very significant, writes H. De Parville, "Popular Science Monthly" for August, "I saw three dozen lights of all colors," or some similar expression, may frequently be heard from persons who have received violent blows on the head or face. Under the influence of shocks of this kind, the eye really seems to see infinite numbers of sparks. Shocks of a certain class impressed upon the nervous system seem to have the faculty of producing phenomena of light. This remark has been suggested by the facts we are about to relate, which lead us to suppose that sonorous vibrations are susceptible in certain cases of provoking luminous sensations. There are, in fact, persons who are endowed with such sensibility that they cannot hear a sound without at the same time perceiving colors. Each sound to them has its peculiar color; this word corresponds with red and that one with green, one note is blue and another is yellow. This phenomenon, "color-hearing," as the English call it, has hitherto been little observed. Dr. Nussbaumer, of Vienna, appears to have been the first person who took serious notice of it. While still a child, when playing one day with his brother, striking a fork against a glass to hear the ringing, he discovered that he saw colors at the same time that he perceived the sound; and so well did he discern the color that, when he stopped his ears, he could divine by it how loud a sound the fork had produced. His brother also had similar experiences. Dr. Nussbaumer was afterwards able to add to his own observations nearly identical ones made by a medical student in Zurich. To this young man musical notes were translated by certain fixed colors. The high notes induced clear colors and the low notes dull ones. More recently M. Pedrono, an ophthalmologist of Nantes, has observed the very same peculiarities in one of his friends.
