

HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

Dodd's Kidney Pills

IT'S MOVE ON

The City Council passed a law, you must "move on," you must move on.

The policemen won't stand any jaw make you move on, make you move on.

At Sentner, McLeod & Company's Store things must move on, things must move on.

Remnants there on every floor that must move on, that must move on.

Remnant sale begins Tuesday, January 2nd, 1900.

FURS have got to move on at My Store.

JACKETS will move on at My Store.

200 hats will move on, at 25c—Sentner, McLeod & Co.

Sentner, McLeod & Co's Remnant Sale is moving on.

Our Remnants are tempting morsel for d'speptic purses.

We need not write an essay on our FURS.

They are well able to talk for themselves.

SENTNER, McLEOD & CO

EARNSCLIFFE NOTES.

Mr. Gilbert Court, Suffolk, paid us a brief visit this week.

Mr. Neil McKinnon returned home a few days ago from North River.

Mr. Robert Young and family will spend the next few weeks with friends here.

Hayseed is excellent for fattening geese; it is found chiefly in the Grits hair.

Mr. Daniel McRae, Waterside, is taking a course of training at the Military School, Fredericton.

The friends of Joseph McInnis and Andrew Morrisey are pleased to see them home again from their enjoyable visit to Montague.

If our Lieutenant-Governor, who has been expressing his sympathy for England's enemies, had been appointed by a Conservative government we would not be able to sleep nights for the howls of the Grits.

We regret that we are about to lose another one of our boys. It seems that he read in a paper recently that "the nights in Greenland are six months long." As our friend threw down the paper he was heard to mutter, Christopher Columbus! what a place for "sitting up"—six months at a stretch! He goes to Greenland in the Spring.

Another good girl has gone in the person of Charlotte E. McLeod, a resident of Earncliffe until a few months ago. Miss McLeod was married at Hopkinton, Mass., January 11th, to Mr. Charles Ward, of Woodville. The ceremony was performed by Rev. W. D. Athearn, Baptist minister at Woodville. We extend hearty congratulations to the happy couple.

From the Presbyterian Witness we clip the following: "Thirty years ago Great Britain expended over ten million pounds to release one of her citizens from an Abyssinian prison. This act was typical of British policy. A nation that thus defends her citizens, be they English, Scotch, Irish, Canadian, Australian or South African, deserves the loyalty of every man who has the honor of living under the flag."

There has not been a pie social in Cherry Valley or vicinity for a long time; and now the people are breathing easier and hoping that the "plague" has abated. A pie social is a place where you pay perhaps a dollar or more for the privilege of making a fool of yourself and eating three cents worth of a ten cent pie with a lady—sometimes another man's wife. Hence, a "pie social" is another name for sugar-coated blackmail. Rxx.

New Glasgow Notes.

A tide of ecstatic joy passed through the village and the neighboring country when it was announced that the graphophone would deliver some choice selections of music in the hall on the 19th inst. Despite the almost impassable condition of the roads a large number gathered to the scene of action. Shortly after eight o'clock, the President of the Literary Society took the chair, and after delivering some preliminary remarks called upon Mr. Walsh to begin the music. Its effect upon the audience during the delivery was remarkable and seemed to carry them into a delirium, but this was depressed by an intermission of 15 minutes, which was spent in the distribution of candy.

The individual who forwarded an account of the "at home," which was held in the hall on the 11th inst., to the Guardian might have given us an elaborate description of the dance, even if he had to refer to his colleagues for information. We would like some of our influential young men, who take such an active part in ecclesiastical affairs, to recommend its various excellencies and substantial merit to mankind.

C. A. Stevenson, our veteran cheesemaker, who won such honor for himself and his factory at the last exhibition in St. John, has charge of the separator during the winter months. We are pleased to announce that under his efficient management the work appears to be highly satisfactory to all.

Rumors have been circulated that competent judges did not think the straw rail on the bridge presented by some unknown personage as a Xmas gift to the present government, was substantial enough to stand the prevailing winds. Present indications are that the gift was not appreciated.

A few days ago a young gentleman while returning to his home in the city had the misfortune to break the shaft of his sleigh. Luckily it was not far from the village and after successful maneuvers on his part and of some friends, who rendered their assistance, he succeeded in strengthening the damaged parts, which bore him safely to his destination.

THEOPHRASTUS.

Corrville Notes.

The people in this vicinity are taking advantage of the fine weather and good roads and are supplying themselves with firewood. We notice that quite a number of our people are obtaining their supply from that well-known and unsurpassed quality of hardwood owned by Mr. Allan McDonald, of Milltown.

Mr. Wm. T. Sigworth has recently arrived from Boston, on a brief visit to his native home. His many friends are pleased to see him after his lengthy sojourn in Uncle Sam's domain.

Our school is progressing rapidly under the supervision of Mr. Arthur N. Fraser. Mr. Fraser has only recently taken this school, and, judging by the earnestness displayed by both teacher and pupils, we may expect good results.

During the past year the people in this vicinity have kept up their reputation in

the building line as well as other improvements. Foremost amongst these we may mention Mr. Thomas E. Sigworth, one of our most popular young men, who has during the closing part of the past year erected a handsome and spacious dwelling house.

THE EXAMINER is anxiously awaited every week, as its new-y and well filled columns and up-to-date war news is appreciated in our country homes.

VENTUS.

SONS OF TEMPERANCE.

DEAR BRETHREN:

GREETING:—We wish you prosperity and happiness during the year upon which we have just entered.

That our order has been conducive of much good is true; and that much remains for us to do is equally true. Therefore, we must not throw off our individual responsibility in this matter of such importance to our country, to our nation and to our God. We must be in earnest in order to accomplish the noble purposes of our time-honored institution. Then let us meet with Maple-Leaf Division, Freetown, on Wednesday, 31st instant, actuated by a desire to disseminate the grand cardinal principles of Love, Purity and Fidelity.

The usual railway privileges have been granted. Tickets will be issued on Tuesday and Wednesday, good for return up to and on Monday, February 5th. Certificates of attendance required on home trip.

We wish to have as large a representation as possible. Please don't forget the date—Wednesday, 31st instant, 1900.

Fraternally,

ERNEST S. WEEKS,
Grand Scribe.
Fredericton, Jan'y. 19th, 1900.

PRICE OF BACON.

Sir,—After reading a synopsis of Mr. McDonald's paper on co-operation I turned to the latest market report of bacon at Liverpool and found:

Waterford Irish sides, 44s to 48s per cwt.

Danish sides, 49s to 42s per cwt.

Canadian sides, 38s to 40s per cwt.

These values are in order as the proximity of the producing country to the market. So that, Mr. McDonald, you are laboring under an hallucination when you state co-operation is the life of bacon trade. The facts are against you.

MARRIED

At Clermont, on the 17th inst., by Rev. H. C. Alwin, John R. Glover, of Mill Valley, to Miss Louise E. Mill, daughter of the late Wm. T. Mill, Clermont.

At St. Malachi's Church, Kinkora, on the 9th inst., by Rev. J. J. Macdonald, Daniel Noonan, of Bedouque, to Miss Maggie A. Smith, of the same place.

At Woodville, Hopkingsville, Mass., on the 11th inst., by Rev. W. D. Athearn, Charles J. Ward, of Woodville, to Miss Charlotte E. Macleod, of Prince Edward Island.

At Alberton, on the 17th inst., by Rev. John Goldsmith, Silas Cannon, of Montrose, to Miss Charlotte Macleod, of Lot 9.

At Murray Harbor South, on the 6th inst., by Rev. E. Gillies, William A. Giddings, of Lot 64, to Effie Maclean, of Lot 63.

At Pleasant Valley, on the 9th inst., by Rev. Jno. Dystant, Ambrose Silliphant, of Hunter River, to Miss Julia Beatrice Binn, of New Glasgow.

Disease weaves its web around people a little at a time. They are not dangerously ill all at once. The beginnings of illness are mere trifles. First a little indigestion, perhaps, or headaches; or an occasional bilious turn. It is hard to realize how you are being tangled up in the strands of sickness until you are fairly caught.

Nearly all serious illnesses begin with some stomach or liver trouble, or with a costive condition of the bowels. These functions have got to be put in good condition before there can be any recovery from any disease no matter what its name or nature, and it is because Dr. Pierce's Golden Medical Discovery acts directly upon the liver and digestive organs that it has such a marvelous effect upon all diseases of malnutrition.

It gives the digestive system power to assimilate nourishment and make good blood; it drives out bilious poisons; it creates the red, vitalizing, life-giving elements in the circulation; and builds up the weak and wasted places in every corner of the constitution.

Taken in conjunction with Dr. Pierce's Pleasant Pellets, it relieves obstinate constipation and keeps the bowels in a perfectly natural condition.

Mrs. Ella Howell, of Derby, Perry Co., Ind., writes: "In the year of 1894 I was taken with stomach trouble—nervous dyspepsia. There was a coldness in my stomach, and a weight which seemed like a rock. Everything that I ate gave me great pain; I had a bearing down sensation; was swelled across my stomach; had a ridge around my right side, and in a short time I was bloated. I was treated by three of our best physicians but got no relief. Then Dr. Pierce's Golden Medical Discovery was recommended to me and I got it, and commenced the use of it. I began to see a change for the better. I was so weak I could not walk across the room without assistance. I took Dr. Pierce's Golden Medical Discovery and his 'Favorite Prescription' and one bottle of the 'Pleasant Pellets.' I began to improve very fast after the use of a few bottles. The physicians who attended me said my disease was leading into consumption. I had quite a cough, and the home physician gave me up as a die. I thank God that my cure is permanent."

Read Weeks & Co's special whitegoods ad. on last page.

New York's Tenement Houses.

One of the indications of the improvement of the masses in this city is the gradual abolishment of the tenement, as the word is generally understood. The big rookeries, with their small rooms, airless halls and rusty fire escapes, are going out of existence in the ordinary course of events, by fire, tumbling down and being removed to make room for modern structures, and the people who live in them are seeking more airy homes in the suburbs or in the flats up town.

While the foreign element continues to live in tenements for the first year after reaching New York the children of foreign parentage are not willing to exist in the noisome quarters of the east and west sides. They crave more light, more air and cleanliness, and in many cases they get it. Rapid transit makes Harlem as accessible as Grand street, and there is no occasion to live in a down town tenement unless one likes it.

No new tenement houses are building. The flathouse has taken its place, and in the course of time the foul barracks in which scores of families are crowded will be a thing of the past and only remembered as part of a distempered dream.—New York Letter in Pittsburg Dispatch.

Why is it that one man is old and decrepit at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds he is losing weight and that his ordinary work gives him undue fatigue, he needs Dr. Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and his body under a constant nervous strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

Send 31 one-cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address World's Dispensary Medical Association, Buffalo, N. Y.

Tenders for Church

SEALED TENDERS will be received by the undersigned, until February 8th, 1900, for the construction of a new Roman Catholic Church, at Souris, P. E. Island, designed by Mr. W. C. Harris, Architect, to be built of stone or brick, about one hundred and eighty feet over all in length, and to seat about nine hundred and fifty people. The plans and specifications can be seen at Souris, from January 8th, to the 15th, 1900, and can be seen at the Bishop's Palace, in Charlottetown, from the 15th January to the 8th of February, 1900. Each tender must be accompanied by a certified cheque for \$100.00, which will be returned if tender is not accepted, and which will be forfeited if tenderer fails to undertake the contract after his tender has been accepted. The lowest or any tender not necessarily accepted. Tenders to be sent to the undersigned and marked "Tenders for Souris Church."

D. F. MACDONALD, P. P.,
Jan. 4, 1900. Souris, P. E. I.

THE QUESTION IS OFTEN ASKED,
HOW IS THE ASCENDENCY OF

ROYAL OAK SOAP

accounted for? The answer is simple enough, viz:—Because there is none equal to it for intrinsic merits, firmness, purity, combined with great lasting and cleansing properties
