The Grand Division of this Island will meet at Souris, on Monday evening next, at 8 o'clock. A public meeting will be held in Morrow's Hall on Tuesday evening at the same hour.

The weather threatens utter destruction to what promised to be one of the finest harvests ever reaped in Ireland. The heavy, almost incessant, rain has laid low many flourishing fields. Potatoes have suffered severely.

If this nation does not speedily share the fate of Ananias and Sapphira it will not be from lack of efforts by the newspapers, which seem this year to be outdoing themselves in the construction of extraordinary yarns.—Boston Journal.

QUEEN ANNE MARSH at Grenville is being devastated by the army worm. This marsh contains over three hundred acres, and was only reclaimed four years ago. It is estimated that at least three hundred tons of hay have been destroyed.

MR. MACK'S MAGNETIC MEDICINE is a positive remedy for nervous exhaustion and all weakness of the generative organs in both sexes. Sold in Charlottetown by Apothecaries Hall Co. See advertisement in another column. July 22 2w wky

"We doctored our boy for rheumatism," said Mr. Barton, of the stove firm of Redway & Barton, of this city, to one of our reporters, but could find no cure. I had heard so much of the efficacy of St. Jacobs Oil that I finally determined to try it. Two bottles of the Oil fully cured him."—Cincinnati Enquirer.

The gilded youth of the day, as described by Truth, wear exceedingly tight trousers, well-fitted waists, slightly suggestive of corsets, hats with curved brims, very tall collars, very light ties, and a white flower placed very near their estimable chins. Their boots taper at the toes to points so sharp as to defy nature and encourage chiropodists.

ENGLAND ought to have peace of mind now on the vexed Egyptian question. General Grant has spoken and kindly sides with England, and says the people of Egypt are ten times worse off than the negroes of the South. He believes an English protectorate would help to develop the resources of the country and improve the condition of the people. The late extended travels of the General embolden him to be emphatic on this question.

THE CHINESE FASHION OF SMALL FEET.—In the twelfth century there reigned in China an Emperor called Tchou-Koung. He was a great tyrant. He had a wife, Ja-Kaya, who was still more despotic and severe than her husband. She was beautiful, but she had crippled feet; in order to hide that defect she wrapped them in all sorts of bandages and put on little shoes. The ladies of her court hastened to follow her example, and the strange custom has been handed down until now.

The Oddfellows of this city purpose having a Grand Moonlight excursion on board the S. S. "Princess of Wales" on Wednesday evening next. The total proceeds will be presented to the Charlottetown Hospital. Considering the charitable end in view, we have no doubt a large number of our citizens will avail themselves of the opportunity of a magnificent sail outside the harbor. The Oddfellows are proverbial for getting up enjoyable entertainments and excursions. Let all who can, attend on Wednesday next, and show their appreciation of the benevolent purposes of this excursion.

An effort is being made to have an Immigration Society established in Nova Scotia to encourage European emigration. The plan of the society is set forth as follows:—

First, That a competent person be employed to visit the several counties of the Province to canvass for members, and to aid and assist in organizing in each county a branch society. Second, To collect and compile such items of information respecting the resources and products of said counties as shall form the subject matter of the intended pamphlets. Third, To obtain a list and accurate description of the farms and farming lands that are for sale in each county, and often a paid advertisement of the same to be inserted in the Pamphlet and circulars before stated.

ARRIVAL OF REV. MR. DEINSTADT AND FAMILY.—Rev. T. J. Deinstdt, who was stationed as pastor of the Methodist church in this town at the recent meeting of the Conference, arrived here with his family by yesterday's train from Summerside, via Point Du Chene. They were met at the station by Mr. Geo. Moore and Mr. J. R. Foster, members of the congregation, and escorted to the parsonage, where the ladies of the congregation had prepared a lunch and were assembled to welcome the pastor and his family in accordance with the usual custom. The Rev. gentleman and Mrs. Deinstdt have many friends in Moncton, having lived here for a full ministerial term some years ago.—Moncton Times.

AN INTELLIGENT AND REASONING CANARY. A canary, owned by a child in Maitland, N. S., was seen performing the following trick: The little thing was evidently suffering from thirst. The water in its cup was very low—too low for it to reach it with its beak. After making several unsuccessful attempts to reach the water, it sat on the perch a moment or two, evidently in a contemplative mood. It then suddenly turned around, pulled a feather from its tail, the feather, we presume, was loose, took it by the but in its beak, dipped it in the water at the bottom of the cup, drew it up, placed the feather crosswise on the perch, put one foot upon it, then reached to the wet end and with its beak took the moisture from the feather. It was seen to perform this feat more than a dozen times, we suppose until it was satisfied.—Medford Mail.

AN old man named Bolger was, yesterday evening, arrested by the police for vagrancy. He proved to be an incurable lunatic, and the magistrate, to-day, ordered that he be kept in jail until he is taken to the asylum.

The dust nuisance is the cause of complaint for the past few days. Our City water carts, however, are idle, and we understand out of repair. Would it not be well for the Street Committee to have the carts repaired and set at work in order to immediately allay the nuisance.

STAFFORD'S INKS, a variety of kinds, received at Bremner Bros. to-day. [July 22 21]

MR. MUNROE, of Seaside Library fame, has endowed three chairs of learning in Dalhousie College within the last three years. Such generous liberality in the cause of education is worthy of extended imitation, and Mr. Munroe's liberality cannot be too highly commended.

DURING the recent visit of Mr. Ellison to Montreal he entered into an agreement with Mr. Geo. W. Stephens, of that city, to light up that gentleman's house, at the corner of Sherbrooke and Mountain streets, with the most improved kind of electric lamps. The contract provides that the cost shall not exceed that of gas.

TOURIST TRAVEL.—A gentleman from Point du Chene says the volume of travel to and from Prince Edward Island is not quite so large this week as last, but is still very considerable. There is also a falling off the past few days in the number passing over the I. C. R., but it is seldom there are less than three car loads of passengers on the day express trains. The tourist travel of the present month in the Provinces will probably be greater than ever before in a single month.—Moncton Times.

The St. John News remarks that, backward as the late spring was, and discouraging as were the prospects of our farmers in seed and planting time, there seems ground for hoping that fair general crops will be gathered in the Maritime Provinces this year after all. A more rapid growth of grass has never been seen in these latitudes than has taken place in large sections of those Provinces during the past few weeks. In many cases, too, grain and roots have progressed amazingly. A fine autumn to finish the good work would be a great blessing.

HOW LINCOLN SETTLED IT.—"A farmer said to me," says Rev. N. W. Miner, D. D. "I once got into difficulty with a neighbor about the line between our farms. I went to Mr. Lincoln to secure him. Mr. Lincoln said: 'Now, if you go on with this, it will cost both of you your farms, and will entail an annuity that will last for generations and perhaps lead to murder. The other man has just been here to engage me. Now, I want you two to sit down in my office, while I have gone to dinner, and talk it over, and try to settle it. And to secure you from any interruption I will lock the door.' He did so, and he did not return all the afternoon. We two men, finding ourselves shut up together, began to laugh. This put us in a good humor, and by the time Mr. Lincoln returned, the matter was settled."

THE HOUSEHOLD

The Handsomest, Most Complete, and Finest Finished Sewing Machine Ever Invented.

READ THIS! THE manufacturers claim for the "Household" that it has been perfected in all its details by some of the best mechanics in the country, who, with unlimited resources at their command, have devoted years to its construction, and have produced a Machine combining more good points than ever before presented for public favor.

The Providence Tool Company has had great experience in producing fine interchangeable work. All the parts of the "Household" are made with the utmost care and subjected to a thorough inspection with gauges before being assembled. Among the features which recommend the "Household" are the following:

It has a high arm, giving ample room for any kind of work. It is the easiest running shuttle machine ever made.

It is almost noiseless. It has a large cylindrical shuttle of great simplicity, being open at one end; thus allowing the bobbin to be readily inserted without displacing any of the parts. The bobbin holds an extra large amount of thread and runs loose in the shell, without spring centres or point bearings, insuring an even and uniform tension.

It has a loose balance wheel attachment for filling the bobbin without running the machine, and the balance wheel is nickel plated.

All running parts of the machine subjected to wear are made of cast steel, hardened, thereby insuring great durability. Its belted "Household" is the finest finished machine ever offered to the public.

It is provided with a complete outfit of Attachments for doing all the different kinds of plain and fancy work.

The Cabinet Work is in the most thorough manner, and is built up of perfectly seasoned lumber, so it is not liable to warp or crack. It has a handsome gothic-top, French-finish cover, and presents a neat and attractive appearance.

The treadle works very easy, being set on anti-friction bearings, which never need oiling. This saves the carpet from dirty grass spots so often found under other machines.

The stand is on four casters, so the machine can easily be moved for sweeping, or convenience of position. For terms, etc., apply to MRS. JOHN P. IRVING, North Side King Square, July 17, '82.
