NO 133

## Genuine Comfort Little Cost

This is a story of new things in corset waists. Some for you—some for the children—all the best you'll find.

### "E T" Waist

Fine grey satteen, high full bust, lined, cord and steel filling, twelve buttons, strap over shoulders; quilted back **\$1.00**

### Gloria Waist

The "Gloria" is a new departure—it's a perfect fitter—absolutely easy—made in three pieces, the third being a shaped strip, laced into centre of back. This waist has side buttons for skirt or hose supporter **\$1.10**

### Misses "Gloria"

Practically the same waist as the ladies Gloria, just as nicely made—and made on the same principle **78c**

### For Children from 2 to 4 years old

Something entirely new, white satteen waist, lightly filled, with cord in front and back—and buttons at side for skirt or hose supporter. Strap over shoulder **42c**

### For Children from 4 to 7 years old

A waist of ecru satteen, cord fillings, back and front, buttons for hose supporter or skirt. Low under arm, and in front **55c**

### For Children from 7 to 12 years old

Grey jean waist, cord fillings, buttons and buckles for hose and underwear—strap over shoulder **58c**

## ISLAND CLAIMS. ON DOMINION

### Considered by Sir Wilfrid Laurier.

HOW HE DISPOSES OF THE ISLAND CLAIMS.

Is Considering the Belfast Railway and Hillsborough Bridge.

[SPECIAL TO THE EXAMINER.]

OTTAWA, June 7.—The Premier has brought down the correspondence concerning the claims of P. E. Island on the Dominion.

The demands presented this year are substantially the same as tabled by previous delegations with an additional claim of a share of the fishery award.

The latter grows out of a Privy Council decision on the jurisdiction of the provinces over the coast fisheries under the date of March 28th, 1899. Sir Wilfrid Laurier replied taking up the claims one by one.

As to the claim growing out of the failure to provide continuous steam navigation, Sir Wilfrid Laurier thinks that he met it by the purchase of a new steamship that is to go on the route next winter.

The larger claim of over two million dollars growing out of the under estimate at the time of confederation of the obligations of rest of the Dominion is met by Laurier's suggestion that the position would be changed if the Federal Government would construct a railway from from Charlottetown to Murray Harbor.

This project with that of a bridge over the Hillsborough river is under consideration, and the Premier hopes the Federal Government may be able to make an arrangement on this matter before the session closes.

As to a discussion of the fishery award Sir Wilfrid Laurier gives details about his authority for the statement that various legal questions are involved and that it will be necessary to make up a friendly case and submit it to a competent court.

The Premier does not see his way clear to take over any more piers from the Province and does not hold out much hope of it in the claim.

### What Germany Paid.

MADRID, June 6.—Germany, it is announced, pays 25 million pesetas \$5,000,000, for the Caroline, Palao and Marianne Islands. Spain retains the coal stations, one in each group, and Germany undertakes to defend these stations in case of war. Germany in addition, grants Spain the most favoured nation treatment in Germany, and in the Caroline Islands.

### Sir John Thompson's Grave.

HALIFAX, N. S., June 6.—A beautiful sarcophagus has been placed in position over the grave of the late Sir John Thompson in Holy Cross cemetery. It is of Nicotax granite and highly polished. It rests on a base eight feet seven inches by four feet seven inches, and fourteen inches high. The sarcophagus is three feet eight inches from the ground. The top part represents a cross and on the smaller piece is the word "Credo," and below is the inscription bearing his name and titles.

## COAL

### Drummond Coal

Is best for House and Steam Purposes

All orders for Coal issued and payment for same received at this office.

Prices furnished on application.

## CONFERENCE WITH KRUGER.

Took Place But Was Abortive.

[SPECIAL TO THE EXAMINER.]

LONDON, June 7.—A despatch from Bloemfontein says that the conference between President Kruger and Sir Alfred Milner has proved abortive.

Hon. W. E. Perley Dead.

[SPECIAL TO THE EXAMINER.]

ST. JOHN, June 7.—Hon. W. E. Perley is dead.

Copper in Cape Breton.

SYDNEY, June 6.—A Party of American capitalists have arrived here from making an examination of the copper areas held at Coxhead, Eagle Head and Gabarus, by the Cape Breton Copper Company. The company have concluded a deal looking toward the purchase of two square miles of copper areas at Eagle Head, Gabarus. The property has been bonded with a right to conduct prospecting and mining operations. There are three veins of chalcoprite ore cropping out on the shore of Gabarus Bay. The company are said to have a capital of \$300,000 and it consists of men who are said to be capable and willing to push the mining of copper in Cape Breton with vigor.

Money Accepted.

PRESBURY, Ont., June 6.—At a meeting of the Presbytery of this town, the very handsome offer of Mr. J. P. Wiser, the well known distiller, to pay off half the indebtedness of the Presbyterian Church, amounting to something over two thousand dollars, has been accepted, the congregation promising to make up the balance within two weeks.

Kitchener in London.

LONDON, June 6.—Lord Kitchener, of Khartoum, Sirdar of the Egyptian forces, arrived here yesterday and called upon Mr. A. J. Balfour, First Lord of the Treasury, and Government Leader in the House of Commons, with whom the General had a long interview.

A Shaky Place.

KINGSTON, Jamaica, June 6.—Advices from the Island of Montserrat, of the Leeward group, British West Indies, report that 45 earthquakes occurred in a period of five hours on May 17th, and that these were followed by frequent isolated shocks. Much damage was done to buildings and growing crops, and a few fatalities occurred. The population, the advices say, is demoralized.

Barn Destroyed.

QUEENSVILLE, Ont., June 6.—Jacob Smith's large barn, two miles from here, was struck by lightning and totally destroyed. The contents, consisting of 800 bushels of oats and 1,000 bushels of wheat and a clover mill, with five horses and two cows, were burned to a cinder.

## Feet Sore—This Weather?

Do you know that you can get good boots—boots that will fit—as cheaply as the kind that don't fit.

You may as well have foot comfort—especially in the warm weather.

I know how a boot should fit. If you come to me you'll get the right kind of boots at the right prices.

## THE DRUMMOND RAILWAY DEAL

### Shoving the Bill Through Committee.

BLAIR REFUSES TO GIVE MEMBERS INFORMATION.

And keeps the House sitting up all Night.

[SPECIAL TO THE EXAMINER.]

OTTAWA, June 7.—The House remained in committee during the afternoon and evening. A large part of the time was devoted to frequent attempts to get details and reports on which Blair stated the cost of certain bridges and rights of way on the route of the Drummond Railway.

Blair had stated that he had no statement of the engineer to bring down to the House.

Among the members who sought information and refused to accept Blair's assumptions were Foster, Bergeron, Wallace, Sproule, Borden, Clancey, Bell, of Pictou, McDougall, Henderson, Powell, Hibbert, Tupper.

Sir Wilfrid Laurier supported Blair in his reticence.

Finally Borden took a point of order that as Blair had referred to the engineers reports he ought to lay them on the table. Borden, as the chairman of committee, declared the point not well taken. On appeal was then taken by Sir Hibbert Tupper. Speaker Edgar had gone to bed, and Chairman Borden took the chair, and as Deputy Speaker, ruled that he had decided properly. On an appeal to the House the chair was sustained by a vote of 65 to 20. Discussion was resumed at 1.40 a. m. The Government refused to allow the House to be adjourned until the bill should be through committee, and at three o'clock the discussion was still going on.

## DISASTER AND DEATH

Overtakes a Party of Yukon Gold-Seekers.

VICTORIA, June 6.—Twenty nine gold-seekers who had been stalled all winter on the Edmonton trail have arrived here. They tell awful stories of hardships, disaster and death in the northern wilderness from drowning, scurvy and starvation. J. M. Smith and J. W. Irving, two of the just returned miners, say many men have found death on the Edmonton trail. Many are lying beneath the waters of Great Slave Lake, for several boats which started down that wind-swept inland sea were swamped and the occupants drowned. A party of ten or twelve men have doubtless perished in the snow-covered mountains in the vicinity of the Upper Liard post. A large party of prospectors started out in December from a point twenty miles above Ford Liard and two hundred west of the McKenzie river. Their destination was the Upper Liard post. They were ninety days on the trail, owing to the fact that they were encumbered by heavy loads of baggage, and the travelling was exceedingly heavy. Finally they reached a point on the Coles river, three miles from Lower Liard post, and about one hundred miles from their original destination.

## The Venezuelan Commission.

PARIS, June 6.—Prof. Martens of Russia, one of the arbitrators in the Venezuelan dispute, and also a member of the Peace Conference, has intimated that the members of the Venezuelan tribunal who are also delegates to the Peace Conference will be required at the Hague until early in July. The Venezuelan tribunal's meeting has accordingly been adjourned until all of the members can attend. Ex-President Benjamin Harrison says that the proceedings of the Venezuelan tribunal will extend over four or five months.

## The French Shore.

ST. JOHN'S Nfld., June 6.—The Colonial Government declines to re-enact the legislation concerning the French shore *modus vivendi* beyond the close of the present year, thus throwing the onus of passing the objectionable enactment to coerce the colonial fishermen upon the British Parliament. It is expected that this will have the effect of bringing about a speedy settlement of the question.

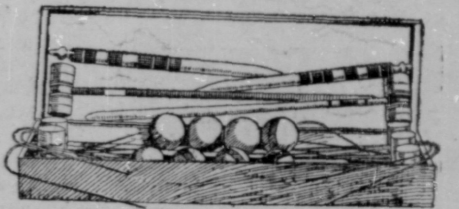

## ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.
