

THE DAILY EXAMINER

MAY 25, 1895.

NOTES AND COMMENTS.

—Montreal Gazette: "The continuous increment in the savings of the people held by the banks remains a significant and favorable sign of the substantial thrift of the community."

—Advices from Washington state that unassisted respecting the seal fishery has been relieved by the announcement that British men-of-war will patrol Behring Sea the coming year.

—An Ottawa despatch May 22, reports: Mr. Pottinger, general manager of the I. C. R., is in the city. Today he was engaged with the Hon. Mr. Ferguson in arranging a summer time table for the Prince Edward Island railway.

—The Patriotic asks THE EXAMINER to make a note of the following paragraph: "In the House on Monday last Mr. Campbell was informed that the original estimate of the drill hall at Toronto was \$250,250, but the Government had reserved claims for extras to the amount of \$180,000. The Minister of Public Works informed Mr. Campbell that the Government intended to pay to the last cent all legitimate claims."

—At a large and influential meeting held at Egmont Bay on the 23rd inst., Mr. Laurence A. Arsenault was chosen as candidate to contest the partial election in the Conservative interest. Mr. Arsenault is a man of more than ordinary ability, a good speaker and an able debater.

—Those who favor a License system for the removal of the drink evil will do well to read the following paragraph which we clip from one of our exchanges:—"The high license law of Philadelphia has not proven the success which its friends predicted for it: reducing drunkenness and crime. The arrests for intoxication in Philadelphia in 1888 were 22,638; in 1890, 20,957; in 1892, 24,352; and in 1894, 24,468. The total for the year 1888 were 46,899; and in 1893, 61,478. The liquor production in Pennsylvania in 1888 were: distilled gallons, 3,283,453; fermented liquors, 2,479,243. In 1890, distilled spirits, 6,389,926; fermented liquors, 2,762,352. In 1893, distilled spirits, 9,514,155; fermented liquors, 2,684,333."

FOREIGN TRADE OF CANADA.

The Montreal Gazette, to hand this morning, gives some valuable statistics concerning the trade of last year. It appears that the value of merchandise imported into the Dominion during the first nine months of the current fiscal year, is to say up to March 31st, shows a decline of about 10 per cent. from the figures of the corresponding period of the preceding year, having been \$73,993,665, as against \$82,376,691 in 1894. A portion of this decrease is accounted for by the fall in prices, though there is no doubt that the actual increase in the importation has been contracted by the quiet condition of business in Canada.

The export trade continues surprisingly large in domestic products, though largely in favor of Canada during the current fiscal year, taking into account merely the export of domestic produce, including bullion, as the following statement will show:—

Table with 2 columns: 1893-4 and 1894-5. Rows include: The mine, Fisheries, The forest, Animals, Agriculture, Manufactures, Miscellaneous, Totals, Imports, Exports, and a list of goods with their respective values.

NEWS NOTES.

General Booth, of the Salvation Army, is seriously ill. Ottawa hotel-keepers have decided to raise the price of whiskey to ten cents a glass, or three drinks for a quarter.

The Canadian Gazette says it will cause no surprise if Major General Herbert's command of the Canadian militia is extended another year.

The Toronto Globe insists that what is worth from 88 to 90 cents in Canada, and from 73 to 76 in the United States. Will free trade make you rich?

The Emperor of China has issued a decree, recalling from the island of Formosa, to be Japanese Minister to Peking.

The French Government has decided to ask Parliament for a special credit in order to erect a monument to the soldiers who fell during the war between France and Germany.

Dr. Bergin intends to introduce a measure during the present session of the Dominion Parliament to check the truck system of paying wages, which appears to be on the increase.

Another batch of ladies from Uncle Sam's dominions were presented at the royal "drawing room" in London on Wednesday last. Judging by the cabled description of their toilette, they were something gorgeous.

There is great excitement in grain circles in Canada over a rate of wheat at the grain exchange at one dollar per bushel, about at Fort William. This is fifty-one cents in excess of the price paid for the crop, and some one has pocketed a pretty penny.

Mail and Empire: As the free traders in the United States Congress are endeavoring to further reduce the tariff, and as a protectionist success at the next Presidential election is certain, business is improving and wages are being raised voluntarily.

Near Belgrade, recently the custom house officers seized a large quantity of human bones consigned to a bone-boling establishment near Vienna. They turned out to be the bones of Russian and Turkish soldiers who died in the war of 1878. The importers were heavily fined.

European Queens are progressive with the rest of the world. The Empress of Austria has ordered one of the newest bicycles, and Queen Margaret of Italy has applied the phonograph to a new use—that of imprisoning her melodies in wax cylinders, which she has difficulty afterward to recall!

A widow, under thirty, enjoying good health and a bright disposition, and possessed of the complete wardrobe of her rank, is seeking a partner. This is probably what Mr. Newbery thought eleven years ago, when he began to arouse the people to the fact that the "Garden of the Gull" had no other life than that of a plant.

It is announced that on Tuesday next Mr. Montague will add to the budget literature, and will be followed by Mr. Laurier. The division will be taken, in all probability, late on Tuesday evening or early on Wednesday morning.

Chief Justice Sullivan left for Montreal on Thursday.

Mr. Montague Stephens, of Orwell, spent Queen's Birthday in the city.

Police Officer Campbell returned from Boston on Thursday evening.

Sir Oliver Mowat leaves Montreal today on the Vancouver for England.

Mr. Ernest Lord, of New Glasgow, N. S., is visiting his parents in Charlotteville.

Mr. John A. McLaine, St. Peter's Bay, registered at the Queen Hotel this forenoon.

Prof. W. K. Burr, the phrenologist, has returned to the Bellevue Hotel, where he will receive his commercial, ambassadorial, and educational work, and was ever ready to assist a good cause.

ARBOR DAY.

Paper Read by Miss Lena White, a Pupil of Prince Street School, in Connection With Arbor Day Exercises.

"The Time hath laid his mantle by, Of wind and rain and icy chill, And does a rich embroidery Of sunlight poured on lake and hill.

"No least or bird in earth or sky, Whose voice does not with gladness thrill; For Time hath laid his mantle by, Of wind and rain and icy chill.

"River and fountain, brook and rill, Bespangled o'er with lively gay; Of silver droplets, wind their way All in their new apparel vie, For Time hath laid his mantle by."

It is the lovely spring-time which seems always to be associated with deep blue sky, about which fleecy clouds are floating in great banks; rich green grass dotted here and there with golden dandelions and "Now Nature hangs her mantle green On every blooming tree, And spreads her sheets of daisies white Out o'er the grassy lea."

The little brook breaks from its long winter home, and seems to be glad it will sympathize with you, if you are glad it will laugh as if trying to equal your happiness; the clay smells sweet and looks rich and moist when compared with what it was one month ago.

"It is the spring time! and Whether we look or whether we listen, We hear life murmur and see it gladden, Every cold feels a stir of might, An instinct within that reaches and towers And grasping blindly above it for light, Climbs to a soul in grass and flowers."

During the month of May we have one of the most interesting and beautiful days that is known in Canada. This is Arbor Day. Almost every province sets aside a day in May for the purpose of tree planting.

In Prince Edward Island it was first celebrated on the 24th of May, 1884, and since that time Charlottetown has yearly improved in beauty.

The object of Arbor Day is to set out young trees, shrubs and plants of the rich foliage, and the car by the sweet rustlings and whisperings of the leaves that are wafted to us by the summer breeze, but it adds to our health and vigor by the air, by taking up the carbonic acid which exhalable, which acid makes a large portion of the food of trees and plants, and giving us back pure oxygen which forms one-fifth of the air we breathe.

Why should we not have trees around our streets and in our squares and school yards? when this and many more benefits are received from the tree it must be probably what Mr. Newbery thought eleven years ago, when he began to arouse the people to the fact that the "Garden of the Gull" had no other life than that of a plant.

Arbor Day, thanks to our school teachers, is not likely to die out, as every year the pupils of each room plant a tree on the school grounds, and in this way the people get into a habit that is helpful to themselves and others; for as Ruskin says, "When we plant a tree we are doing what we can for the future, and a noble and happier dwelling place for those who come after us, if not for ourselves."

As you drop the seed, as you plant the sapling, your left hand hardly knows what your right is doing. But Nature knows, and in due time the power that sees and works in secret "will reward you openly."

"So plant the trees, children, Plant, yes, plant, for the future will grant, When your children's children, so Shall rejoice, you heard the emulous Plant, plant the trees!"

It is with deep regret we chronicle the early death of Alexis Murphy, Esq., Postmaster at St. Ann's. Mr. Murphy was a devoted Christian, a kind hearted and noble man, a gentle and indulgent father, a charitable and obliging neighbor, and one that will be much missed by the people of St. Ann's. His life was that of a good Christian, of charity of both heart and tongue, and a great friend of the needy poor. Few deaths among his friends or neighbors found him absent; he was always ready to console and assist those in trouble and distress, in joy or sorrow, Mr. Murphy was always the same. He was a man possessed of more than ordinary intelligence, and was well informed on all topics of the day. He took an active part in religious and educational work, and was ever ready to assist a good cause. He fought the good fight and kept the faith, and when Death's summons came he received it with calm resignation. To his holy will who directs everything for the best. He was strengthened in his last moments with the sacraments of his holy religion, from the hands of his loving and devoted pastor, Rev. J. E. Macdonald. He leaves a wife and seven children to mourn their loss.

TRAMP GOSSIP.

Jack and Jim met on Queen Street, in front of McLeod's Shoe Store. After the weather (ever present friend) is disposed of, conversation follows thus:—

JACK—"Well, Jim, hard times don't seem to hurt this store much. They keep things moving. I hear they sell good shoes here, and just about as cheap as other folks sell shoddy. The people seem to be 'on to it.'"

JIM—"Oh, yes, a fellow can get a good pair of solid lace shoes for an even dollar; women's, too, for 75c. Just look in the window and see those beauties for \$3, and the latest narrow toe, black or tan. By George, no wonder they do the trade."

Come along here now, you fellows, or a cop'll arrest you for stealing a look at McLeod's Shoes. Ha! ha!
