sufficient to arouse the fancy of any gourmet. A tasty and well-prepared supper of chicken and salad was served by the ladies of the parish. Following the supper, an auction sale of cakes was held with Mr. G. H. Nelson as auctioneer. Mr. Hughie Power was the lucky winner of the silverware. At the conclusion of the evening the ladies were commended for their splendid work in preparing such a delicious supper. Mr. Guy Nelson very capably auctioned the cakes following the supper.

St. David's United Anniversary Services

The one hundred and fifteenth anniversary of St. David's United Church, Georgetown, was held on Sunday, July 27th, at both morning and evening services. Dr. Ian MacKinnon was the guest preacher.

An excerpt from the original charter granting certain lots in the Town of Georgetown and signed by the Lieutenant Governor and commander-in-chief of Her Majesty's Force in the Island of Prince Edward to the Presbyterian Church in Georgetown in 1837, was read by the Minister, Rev. W. A. Paterson, at both the morning and evening services.

This document would indicate that there was an organized body of worshippers prior to 1837, but of this there seems to be no record. It was well, however, to recall the early beginnings of Presbyterian Church life in Georgetown and know that the traditions of this old church are honorable and glorious.

At the morning service the Georgetown choir, led in music, under the leadership of Mr. Harry Yorston. A solo, "O Lord Correct Me", was sung by Mr. Harry Yorston. The annual special offerings were received in the morning and with the evening offerings, this amount realized was \$593.00.

There was a large attendance at the evening service and Dr. Ian MacKinnon, grandson of a former minister, Rev. John MacKinnon, from 1877-1882, and son of the much revered Dr. Clarence MacKinnon, again delivered the sermon from the Book of Ruth.

Special music was given by the well known octette, led by Mr. Malcolm MacKinnon of Charlottetown. The day came to a close and the memory of the service will be cherished in the hearts of those attending for many days to come.

ANCIENT COIN

READING, England.—(CP)—Mrs. W. G. Marks, working in a vegetable garden, dug up a silver penny of Edward the Confessor's reign, from 1042 to 1066. The king's head can still be traced on the coin with the words "Edward Rex Anglo."

LONDON.—(CP)—Plans are on foot to reconstruct the east end of St. Paul's Cathedral as a memorial to the 108,929 members of the commonwealth who lost their lives in the Second World War. It is hoped to raise the money in small amounts entirely in Britain.

Skilled and unskilled workers will be interviewed tomorrow for employment in Labrador. About 85 Cape Bretoners have gone to Labrador during the past two weeks and approximately 100 to farms in Ontario and Prince Edward Island.

Mr. Connolly said 1,907 persons are jobless in Cape Breton. Of these 1,030 are drawing unemployment insurance. More than 2,200 were unemployed this time last year.

Murray River Wins; Cardigan; Souris Tied

The Murray River Larrippers called the tune on Peakes with a score of 11-4 in a 5-inning game of the King's County Baseball League played at Murray River last evening. Dufney went the whole way for the Riverites, while the visitors used Handrahan and MacKinnon. The win last evening ran the Murray River score to five straight wins, leading Peakes, their nearest rivals by six points. At Souris the Souris St. Mary's game was called by darkness at the end of the sixth inning. It was the first time the teams had met and the closest the Souris team came to a victory since the league opened.

"Flying Farmer"

Continued from page 5

on return find that he has to rush over to Halifax or some other centre. And with all of this flying he still continues to operate a most prosperous farm.

Originated 6 Years Ago

Mr. Woodside is taking over the service originated more than six years ago by Mr. Paul Sharpe, an R.C.A.F. veteran, who now has nearly 7,000 hours of flying experience or approximately a million miles of flying to his credit over the past fifteen years. In all this time Mr. Sharpe has never even scratched any of his thousands of passengers and has built up one of the greatest safety records in Canada. He built Paul's Flying Service into an organization that could always be counted on for service regardless of how rugged and cold winter conditions were. Mr. Woodside's assistance last winter in particular made numerous flights from isolated areas of hospital. An emergency was never overlooked, and though Mr. Sharpe has been associated with The Guardian for the last year, he was always given time to carry out these flights. His daily flights carrying The Guardian to Western parts of the Province were of a regularity that farmers used for setting their clocks.

But Mr. Sharpe is now retiring from active participation in flying to other business and the reputation of the light aircraft which is known from Elmira to Tignish and from Murray Harbour to Rustico as a means of communication when other forms are not functioning will continue to be upheld by Mr. Elton Woodside in Woodside's Flying Service.

Unemployment In C. B. At New Low

SYDNEY, July 30.—(CP)—Unemployment in Cape Breton has dipped to a post war low and indications are that a further decline will be recorded during the next few weeks. T. Lawrence Connolly, manager of the National Employment Service office here, said today.

"Skilled and unskilled workers will be interviewed tomorrow for employment in Labrador. About 85 Cape Bretoners have gone to Labrador during the past two weeks and approximately 100 to farms in Ontario and Prince Edward Island."

Mr. Connolly said 1,907 persons are jobless in Cape Breton. Of these 1,030 are drawing unemployment insurance. More than 2,200 were unemployed this time last year.

Annual Meeting

Continued from page 1

Following are excerpts from the annual report of the president, Mr. Arnold Wood:

"We cannot but look with pride on the achievement of Island Co-op Services. It has been a year of expansion and increased service. The detailed statement will be presented by the manager in his report. Seed potatoes, table potatoes and other products were handled in large volume on an increasing scale. In the month of May, 1952, when we had sales of \$380,000.00. This figure shows that your Co-op must be performing a satisfactory service for farmers and fishermen."

"In the first six months of 1952 year, potato prices were at very low ebb for years. But your organization packaged potatoes in 15 and 10 lb. bags and developed a market for over 1,500,000 of these small packages. These small packages returned a better price and enabled us to move a large volume of potatoes which otherwise would have had to go on Government support program."

"Butter and eggs have developed a satisfactory volume under the supervision of Mr. Leonard MacDonald. We are shipping a weekly volume of cartoned eggs. We expect an increase in this department."

"We are asking our Co-ops to support our new machinery department. Mr. Leonard MacDonald is in charge of service and installation."

"Your Board felt that Co-op insurance—life, fire and auto, was an important service to our members. We are making this service available to the people of this province through our insurance department. This department is set up to look after sales, adjustments, and claims."

"We must look forward to future development. At present our egg storage and warehousing is bursting at the seams. We must therefore face the problem of renting larger storage space. We may very soon be forced to consider constructing a large modern warehouse, in which we will house our various activities. As a result of this business this problem will become more acute. This problem I leave to you and the incoming board of directors."

"There are great possibilities open in fish marketing, especially when the fishermen really get going on a marketing program. The Island economy is in the throes of renovation and readjustment. We need clear heads and deep thinking to set this new development on the right path. If this new creamery amalgamation gets away from a successful start the farmer ahead greater security and prosperity for himself and his family."

MANAGERS REPORT

Following are excerpts from the report of the manager, Mr. Jerome O'Brien:

"The past year has been a very busy time, a time of expansion in spite of low prices in several products. From February 1st to July 1st 1951, potato prices were very depressed. In January, egg prices dipped very low, around 27c per dozen. In spite of these price recessions, we have upped our total volume of sales some \$400,000 to \$1,723,000 with a corresponding increase in net earnings."

"We have increased the number of our customers this past year. We have found many co-operative outlets for farm produce. We have the best of relations with Maritime Co-op Services of Moncton, Cape Breton Co-op Services of Sydney, Co-op Federes of Quebec, United

Annual Meeting

Continued from page 1

Co-ops of Ontario, also central co-ops in the western provinces. We have sold seed potatoes to co-operatives in the United States from New York State to Tennessee. We have found fellow co-operators in other provinces and United States. It follows to do business with. We also have made satisfactory contracts with private business all over Canada and United States.

Potatoes and Turnips

Due to these expanding contacts we have handled large volume of seed and table potatoes and table turnips. Physical volume in potatoes was reduced, somewhat by our reduced acreage and yield in 1951. We shipped over 900 cars from January 31, 1950 to January 31, 1951. We have expanded our facilities for packing the consumer package, 15 and 10 lb. containers. We have eight warehouses equipped to pack the 10 and 15 lb. containers. The 10 lb. container is becoming very popular this season, we are trying out 10 lb. bags with mesh windows. This container should deliver our spuds in fine condition to distant markets. This is purely an experiment."

"The potato market from September of 1951 until June 1952 was not favorable to the extensive packing of 10 and 15 lb. packages due to the extremely speculative prices. Often price l.o.b. Prince Edward Island was nearly as high as market price in consuming centres. We were practically priced out of traditional seed markets in Canada and United States by spectacularly rising table prices. Despite these conditions we have increased the number of our customers."

Other Products

"We have greatly expanded our services in other departments. We are handling a large volume of eggs at present and developing satisfactory markets. Butter sales are increasing steadily. When amalgamation of several cheese factories and creameries at Summerside takes place our farmers will be more secure in the dairy industry."

Our wholesale department servicing our stores has a steadily increasing business over last year. "We handled a small volume of fish products. In this department we are merely scratching the surface. In May and June we had a very satisfactory deal in live lobsters. This can be greatly expanded next season. We shall handle quite a few cars of salt fish this fall. At a recent meeting of the captains of several large ships, which have been in port recently, that a small area be dredged out in the basin to provide a turning area for ships of large size, since at present they must run the prow aground in order to have clearance to turn the stern. However, as yet there has not been any indication that this is being contemplated, although it may later receive consideration."

ling all farm and fish products we can have a sound and solid growth. Thus we shall serve better both the farmer and the fisherman of the province."

There is considerable discussion on the method of marketing in the Province. Some would have marketing return to the free enterprise system of the thirties, when we saw butter 18c per lb in July and 50c per lb in January. Today in butter, cheese, eggs, beef and pork, we operate in a semi controlled marketing system.

"As these products are prevented from dropping in price to disastrous levels by floors established by Agricultural Prices Support Board. This system has worked very well in above products. No farmer would wish to return to the system of the thirties which allowed prices to fluctuate based on export markets."

Hillside Lodge Installs Officers

"At a recent meeting of Hillside Lodge, I. O. O. F., Montague, the officers for the ensuing term were regularly installed by E.D. G.M. Cyrus A. Shaw, assisted by H. L. MacGregor, William MacLean, and Atwood MacDonald."

Mr. Shaw was appointed a delegate to attend Grand Lodge in Saint John, N.B., next month. Correspondence included a letter of appreciation from Rev. F. N. Young on behalf of the Session of St. Andrew's Presbyterian Church, for the use of the hall for a recent reception.

The following is the new slate of officers: N. G. John MacDonald; V.G. Malcolm MacKenzie; recording secretary, Sandy MacDonald; financial secretary, Spencer Llewellyn; treasurer, Archie Hillyear; conductor, E. H. Stewart; warden, H. Llewellyn; R.S.N.G., J.H. MacGregor; L.S.N.G., Chas. Annsar; R.S.V.G., C. A. Shaw; L.S.V.G., Mont. Wright; R.S.S., David Wright; L.S.S., Collin MacDonald; chaplain, Garnet MacIntyre; I.G., H. L. MacGregor; O.G., Heath Stewart; J.P.G., Bruce MacPhee.

At the close of the meeting, the members enjoyed a social hour."

Dredging To Be Resumed Shortly

Dredge 115 has been inactive this week owing to the absence of the Tug, Glen Livett, which is presently engaged in a long tow reportedly to Miminegash. During operations last week the dredge completed the dredging out of the dock adjacent the Stephens wharf as far as possible.

The small unfinished part lying well to the inner extremity of the dock can not be done owing to the impossibility of getting a scow into position inside the dock. However, what has been completed is a very great improvement over the previously existing small dock. The present one is almost twice the former size with a greater water depth, and should prove of greater benefit to the fishermen who dock their boats in this area."

On the return of the Livett the dredge will continue its work winding course."

It has been suggested by the captains of several large ships, which have been in port recently, that a small area be dredged out in the basin to provide a turning area for ships of large size, since at present they must run the prow aground in order to have clearance to turn the stern. However, as yet there has not been any indication that this is being contemplated, although it may later receive consideration."

U. S. Delegates

Continued from page 1

its propaganda efforts. With the first appearance of harmony yet shown, the meeting passed a Polish resolution which all governments to hasten ratification of the 1925 Geneva Conventions outlawing bacteriological warfare. This passed by a vote of 49 to 8, with the Soviet bloc among those in favor.

It adopted unanimously a resolution presented by the Norwegian Red Cross and signed by the Red Cross Societies of Denmark, Finland, Italy, South Africa, Sweden, Switzerland and Yugoslavia calling on governments to hasten ratification of the 1949 Geneva Conventions.

It also accepted unanimously a hold-down version of complaints from Russia, Greece, and other countries that refugees from the Second World War and other straited areas have not been repatriated and agreed to a resolution expressing hope the current conference can organize some way of obtaining this repatriation.

Andre Francois-Poncet of France, chairman of the general commission who for three days has given the Soviet-controlled delegates every opportunity to speak, today lost his temper over a tirade by Kim Min San, the North Korean delegate.

Kim Min San whipped off 20 minutes of charges in his native language which his interpreter took 25 minutes to translate. The interpreter was still talking when Francois-Poncet, who had already used his gavel extensively, hammered in the microphone and shouted into the microphone: "That is all!"

W.M.S. Rally Held At Murray River

"A most inspiring Women's Missionary Rally was held in the United Church, Murray River, on Friday, July 25th with an attendance of members, visitors and guest speakers totalling 91, and under the leadership of Mrs. (Rev.) W.D. MacPherson."

The worship service was conducted by the Valleyfield W.M.S. led by Mrs. Roy Gillis. Hymn 637 opened the worship period after which Mrs. Arthur MacKinnon read the scripture for the 10th chapter of John, verses 1 to 8, followed with prayer by Mrs. (Rev.) A. Frazer. Hymn 434 closed this part of the service."

The address of welcome was given by Mrs. Royal White of Murray River and escorted to by Mrs. Ethel Stewart of Montague. Greetings from Vancouver were tendered by a visiting member from that province. Miss Ernestine Scott, Presbyterian Secretary of Christian Stewardship sent her report which was given by Mrs. W. MacLeod of Murray River. Mrs. Wilbur Webster of Montague, Presbyterian Secretary for Supply gave a report about the Supply. Mrs. Allison Tait, Presbyterian Literature Secretary, then presented the literature, stressing the need of the literature for the young, old, and said an opportunity would be given at the close of the meeting, for one and all to buy some of the books."

Mrs. W. A. Bruce of Valleyfield favoured the members with a solo, "My Heavenly Home", one of her own compositions. Mrs. W. D. MacPherson then introduced Mrs. Fred Osborne of Charlottetown who gave a very interesting talk on the life of the Grenfell Mission in Labrador. Among other things she displayed several books of rugs, beautifully made from silk stockings, and Mrs. Osborne stated that old silk stockings would be gratefully received there.

Two verses of Hymn 259 were then sung and the offering received and dedicated, after which the singing of "Will Travel All the Way To Calvary" was beautifully rendered by Mrs. Lloyd Tuttle of Washington, D. C., formerly Miss Lelia MacLeod of Murray River.

The president of Presbyterian, Mrs. Hazel Howard of Cornwall, introduced several distinguished speakers, Miss Margaret Dawson, Missionary in Angola, Africa, and Miss Mario Chela, a native leader from the Angola Mission.

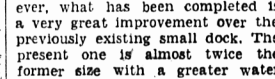

Miss Chela told the story of her life in her own language which she learned from her mother, Dawson. At the close of their talk, various articles native to their country were shown, and then Miss Chela sang in her own language, the ever-loved old hymn "I Love To Tell the Story" which was brought to a close by the singing of Hymn 252, "In Christ There Is No East Nor West", and the benediction, pronounced by Rev. A. C. Fraser of Valleyfield. Luncheon was then served by the ladies of Murray River Auxiliary.
