## NOTICE

DEPARTMENT OF THE PROVINCIAL SECRETARY  
THE CHARITIES ACT

The above Act was passed at the last Session of the Legislative Assembly.

### "CHARITY" DEFINED

"Charity" means any person, association, institute or organization under whose auspices funds for benevolent, educational, cultural, charitable or religious purposes are to be raised.

### "CHARITABLE FUND" DEFINED

"Charitable Fund" means any fund in excess of \$100.00 raised for benevolent, educational, cultural, charitable or religious purposes.

The Act requires that all "charities" and "charitable funds" be registered with this Department.

The Act does not apply to appeals by any Church among its members for support of religious purposes or objects connected with the Church, or to any collection at Divine Service in any place of worship.

For further particulars and for application forms apply at the office of the Provincial Secretary, Room 24, Province Building, Charlottetown—Telephone No. 8023.

P. S. FIELDING,  
Deputy Provincial Secretary.

# MARKETS

## New York Stocks

NEW YORK (AP)—The stock market pushed up strongly last week toward record highs. It was able to score its 10th straight weekly advance in the face of a sizable array of uncertainties on the political scene and despite technical difficulties that always surround exceptionally strong markets trying to extend the rise.

Last week the Associated Press average of 60 stocks gained \$2 and closed at \$76.30, only 10 cents under the record high established July 6.

The five most active issues on the New York stock exchange were:

## Steel Demand Keeps High

CLEVELAND (AP)—For the summer season, Steel demand shows "surprising vitality," says the magazine, which remarks that "the anticipated sharp slump in third quarter activity hasn't materialized."

The trade journal says "it looks like volume may zoom to a peak for the year in the fourth quarter. Most observers are certain it will unless inventory accumulations at consumers' plants put a damper on buying enthusiasm."

Steel reports "prices in all segments of the steel market are on a higher level. Practically all producers have announced new schedules. Most recent advances are six cents a pound on high speed steels, and 5.8 per cent on tool steels."

Referring to the usual slackening of interest in the summer months, the magazine comments: "Not so this summer. Mill backlogs are not shrinking appreciably. Overflow second quarter indicated. Cutbacks from automotive and related lines haven't materialized in noticeable volume."

## Canadian Currency One Of Best Managed In World

NEW YORK (CP)—Canada's currency management has one of the best records in the world, currency expert Franz Pick says in Pick's Currency Yearbook published today.

Pick, publisher of Pick's World Currency Report and noted as one of the world's foremost authorities on currency, also notes in the Canadian section of the 400-page manual of the world's monies that since 1951, the rate of the Canadian dollar has really been made in New York's foreign exchange market, which has the world's largest turnover in Canadian dollars. He estimates U.S. investments in Canada at \$9,000,000,000 in 1954.

In a statement announcing publication of the book, Pick said the volume, "starting with the Afghanistani afghani and ending with the Yugoslav Dinar represents the most exhaustive research into the history and present status of the

currency values which are presently determinant factors in the flow of world trade."

Detailed analyses of 74 of the world's leading currencies are presented in the yearbook, planned as an annual publication.

## Boston Cool As U. S. Roasts

NEW YORK (AP)—The hottest day of the year left millions in the northeastern United States wilted and panting Friday. It was 100 degrees or better in several areas, in the high 90s nearly everywhere.

The temperature hit 114 in South Wales, near Buffalo, N.Y., 102 in Plainfield, N.J., 101 in Poughkeepsie, N.Y.

By a freak of nature, an east wind off the sea air-conditioned Boston to a comfortable 82 most of the day while the area around the seaport sizzled. The wind slackened off in late afternoon and Boston's temperature rose to 91.

## BENEFICENT BIRDS

German Folklore held that storks gathered babies from ponds, wells, marshes and springs and bundled them to favored families.

## Cost Of Public Hospital Has Tripled Since War

OTTAWA (CP)—The cost of Canada's public hospitals has tripled since the end of the Second World War and shows no sign of becoming a lighter charge on the public purse.

The bureau of statistics' latest report on hospital finances shows Canadians spent \$227,036,000 on 720 public hospitals in 1953 compared with \$84,503,000 in 1946. Expenses of tuberculosis sanatoria, mental institutions and hospital owned by the federal government are not included.

Health department authorities say the upward trend still continues at a rate of about 10 per cent a year.

Public hospitals' share of Canadians' total personal spending on consumer goods and services in 1952 was 1.6 per cent, a rise from 1.1 per cent in 1946.

## Deny Canadian Woodsmen Dip American Wages

WASHINGTON (AP)—The northeastern pulpwood industry denied Friday that importation of Canadian woods laborers has reduced wages and cut employment of Americans.

Gordon M. Tiffany of Concord, N. H., lawyer for the northeastern group of the committee on imports of the American Pulpwood Industry, refuted the allegations made and said the investigation is not necessary.

"The pulpwood industry," he said, "categorically denies these charges. The facts are that the use of Canadian labor in the northeastern United States has been made only to the extent necessary to fill short-ages of domestic labor."

He said that in 1952, the peak number of imported Canadian workers was 6,667, or less than one-third of the woods labor force.

Tiffany said each of the Canadians, 80 per cent of whom were wood cutters, provided raw material for about three workers in the manufacturing part of the pulp and paper industry.

"If the use of Canadians was eliminated," he said, "the 1952 total production of \$1,183,000,000 might well be reduced by one-third."

The Canadians, he said, are paid the prevailing wage and work under conditions comparable to those applying to American employees.

WASHINGTON (AP)—The northeastern pulpwood industry denied Friday that importation of Canadian woods laborers has reduced wages and cut employment of Americans.

Gordon M. Tiffany of Concord, N. H., lawyer for the northeastern group of the committee on imports of the American Pulpwood Industry, refuted the allegations made and said the investigation is not necessary.

"The pulpwood industry," he said, "categorically denies these charges. The facts are that the use of Canadian labor in the northeastern United States has been made only to the extent necessary to fill short-ages of domestic labor."

He said that in 1952, the peak number of imported Canadian workers was 6,667, or less than one-third of the woods labor force.

Tiffany said each of the Canadians, 80 per cent of whom were wood cutters, provided raw material for about three workers in the manufacturing part of the pulp and paper industry.

"If the use of Canadians was eliminated," he said, "the 1952 total production of \$1,183,000,000 might well be reduced by one-third."

The Canadians, he said, are paid the prevailing wage and work under conditions comparable to those applying to American employees.

PATIENTS PROVIDE MOST For the bulk of hospital income, \$1.5 per cent, came from earnings from services to patients. Provincial governments contributed 6.9 per cent and municipalities 3.6 per cent. The remainder was made up of grants from hospital care plans, donations, other earnings and contributed services.

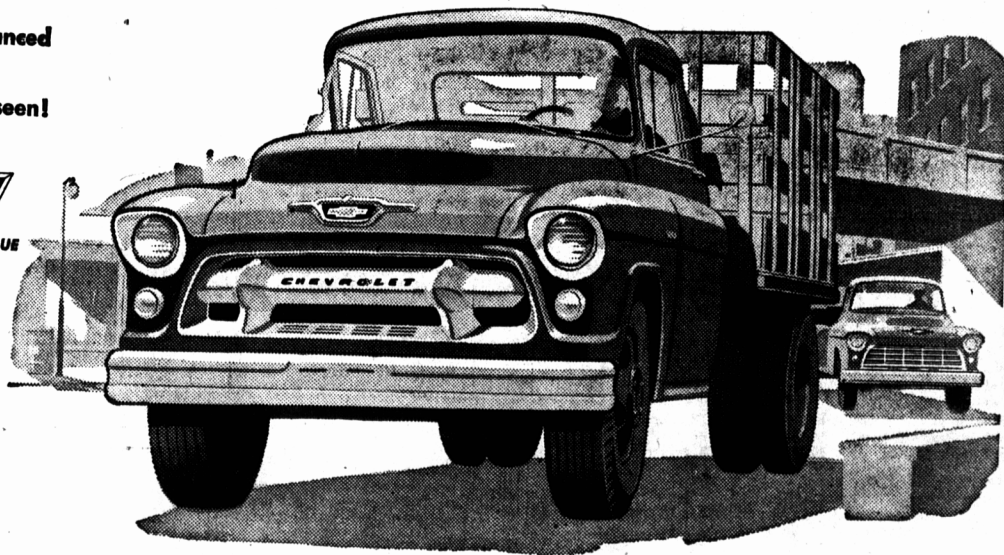

Public hospitals spent \$64,927,928 on new buildings and improvements in 1953.

Of this, 27.1 per cent came from provincial governments, 21.1 per cent from private grants, 20.9 per cent from debenture proceeds and mortgage loans, and 10.5 per cent from municipal governments.

The federal government's share was 7.6 per cent. The remainder came from "other" hospital funds.

# Most Modern Trucks on any job

with the most advanced truck features the industry has ever seen!

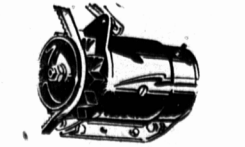

Only new Chevrolet TASK FORCE Trucks bring you all these truly modern design and engineering features today!

They're the marks of a modern truck, and they out-date any make without them!

And they're the money-making, money-saving advantages that ask this question: Can you really afford not to make your next new truck a Chevrolet? Judge for yourself!

more glass area all around. A new glass-guard molding completely surrounds the side windows, reducing possibility of breakage. A wide-view wrap-around rear window is available as an extra-cost option.

Fresh air in all kinds of weather. With Chevrolet's new High-Level ventilating system, air is drawn in through louvers at cowl level. That means air is constantly circulated through the cab, regardless of disagreeable weather conditions.

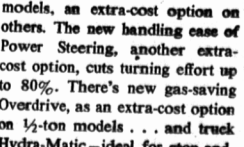

High-Voltage power starts you quicker. You really have it modern under the hood! All New Task-Force engines are sparked by a hefty 12-volt electrical system. Quicker starting, even on cold mornings, is one big advantage. Increased generator capacity is another. The high-compression power of these great valve-in-head engines keeps you running longer between gas stops. Here's perform-

ance that cuts operating costs and shaves valuable time from your schedule!

Tubeless tires standard on 1/2-ton models. Pickup, panels, Suburban Carry-alls — all models in the 1/2-ton class now come with new tubeless tires. Here's greater protection against blowouts.

Every Power Helper in the book. Power brakes, for example—a big help in reducing driver effort while increasing safety—are standard equipment on heavier models, an extra-cost option on others. The new handling ease of Power Steering, another extra-cost option, cuts turning effort to 80%. There's new gas-saving Overdrive, an extra-cost option on 1/2-ton models... and truck Hydra-Matic—ideal for stop-and-go city hauling—available at extra cost on 1/2, 3/4-, and 1-ton jobs. They're worthwhile extra-cost helpers that can save you a lot of time and money in the long run.

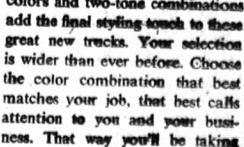

And the final touch. Color! New colors and two-tone combinations add the final styling touch to these great new trucks. Your selection is wider than ever before. Choose the color combination that best matches your job, that best catches attention to you and your business. That way you'll be taking full advantage of the advertising value of your new Task-Force model.

One final word. When the time comes to trade in '55 models, the man without a really modern truck stands to take a good-sized loss. Come in and see us soon.

The New Cameo Courier. Sports model of the truck field—designed with special jobs in mind! Long and low, with smooth, fleet lines, here's the Custom pickup that may well create a whole new class of truck owners!

CHEVROLET  
Year after Year  
Canada's best-selling truck!
