

### FIREMEN WORK AT REAR OF BUILDING

Firemen pour water on the morning. The fire broke out rear of the building on 85d Richmond Street on Sunday shortly after midnight. The fire was on 85d Richmond Street.

## U.S. Aircrew To Fly Soviet Planes With N. Z. Delegates

WASHINGTON (AP) — The state department said Thursday the two Russian jet airliners carrying the Soviet delegation to the UN General Assembly meeting next month will land at Maguire air force base near Trenton, N.J. Press officer Lincoln White said the first of the TU104s will arrive about Sept. 4 and the second will come in some days later at a date yet to be determined. At Gander, Nfld., the Russian planes will take aboard an American navigator, a radio operator and a pilot to complete the trip to Maguire. This assignment of American personnel to the Soviet planes duplicates Russian practice on American planes flying to the Soviet Union. White said the U.S. military air transport service will provide the navigators, operators and pilots assigned to the Soviet aircraft and that all will be men qualified for jet flying and with long experience on the North Atlantic air route. The Soviet Embassy has been informed of the arrangements for the landing at Maguire, about 60 miles from New York, and has raised no questions, White said. The decision to bring the planes in at that base, despite its distance from United Nations head-

### Ontario Paper Joins Thomsons

BARRIE, Ont. (CP)—The Barrie Examiner, published three times a week since 1951, has been sold to the Thomson newspaper organization and will become a daily, next year. W.K. Walls, president and managing editor of the Examiner, announced to the staff Friday that negotiations have been completed for the sale and added: "Joining the Thomson group will make it possible to expand the Examiner to daily publication next year." Kenneth R. Thomson, president of the Thomson Company Limited, said: "It is our intention to make available necessary facilities for daily publication of the Examiner at the earliest possible date." The Examiner was founded in

1864 and continued weekly publication until 1948 when it started twice-weekly publication. In 1951 it started publishing three times a week. The paper has six times won the Mason Trophy as the best all-round weekly in Canada.

### LONG CREEK W.I.

Mrs. Arnold MacDonald was hostess to the members of the Long Creek W.I. on August 1st, 1957. The vice-president, Mrs. Jack MacPhee presided and opened the meeting by repeating the Creed in unison. Seven members answered roll call by a "favourite recipe". Minutes of previous meeting were read and approved. On motion all bills were voted paid. Correspondence was read and discussed. T. B. League collection was taken. Next meeting to be held at the home of Mrs. Earl MacEachern, roll call to be answered by an article for grab bag to the value of 25 cents. Meeting adjourned.

### WESTERN EXPLORER

David Thompson in 1807 was the first white man to cross Howse Pass on the B.C. Alberta boundary in the Rockies.

### HALL COMPLETELY GUTTED

The Odd Fellows Hall on the 900 fire which struck the building (left) and Morley Smith are on the third floor of the building was on Richmond Street early shown sifting through some of the completely gutted by the 250-; Sunday morning. Forrest Clow the debris after the blaze.

## 75 Million Development Is Planned For Montreal

MONTREAL (CP)—A multi-million-dollar project, described by its sponsor, as probably one of the largest and most important developments on the North American continent, will transform 21 acres of valuable Montreal real estate into an ultra-modern business, commercial and entertainment centre. Details of the vast and long-planned project, to start "at an early date," were announced jointly at a press conference Friday by president Donald Gordon of the CNR and President William Zeckendorf of Webb and Knapp (Canada) Ltd. The most striking feature of the centre will be a 40-storey metal and glass skyscraper, the largest and tallest in Canada. It will be in the shape of a cruciform and provide 1,500,000 square feet of office space. The highest building in Canada now is the 34-storey Canadian Bank of Commerce building in Toronto; the largest is the 26-storey Sun Life building here, adjacent to the new development.

### Scotland Gets Commercial TV

LONDON (CP)—Commercial television opened in Scotland last week. Scottish Television Ltd., controlled by publisher Roy Thomson-described here as the "first Canadian to rule the British airways"—introduces the sponsored version with a program produced by Rai Purdy, formerly of Toronto. The program, of a type known to British show business as a "spectacular," will be opened by the state secretary for Scotland, John MacLay, and will include such stars as David Niven, Moira Shearer, Deborah Kerr, Jack Buchanan and Alistair Sim. The studios are at the Theatre Royal, Glasgow. Programs will emanate from the most powerful transmitter in Europe, and roughly four-fifths of Scotland will come within the station area. An estimated 250,000 television sets are equipped to receive the commercial programs. In an article published in World's Press News under his byline, Thomson says Scottish TV will have two big assets—a careful study of independent TV in England and experience of commercial TV in Canada.

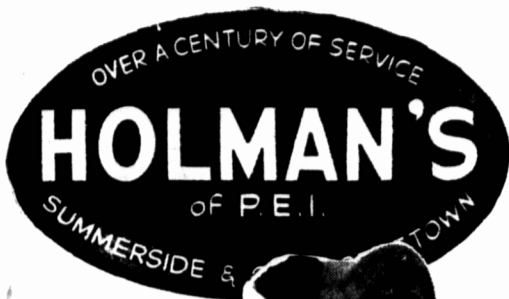

### SEARLETON W.I.

The regular monthly meeting of Searleton W.I. met at the home of Mrs. Edward Leard on Tuesday evening, August 6th. The president, Mrs. Lloyd Bell, presided. Meeting opened in the usual way, followed by roll call. One visitor and a former member, Mrs. Percy Allen were heartily welcomed. Minutes of the previous meeting were read and discussed, also some correspondence. Some bills were handed in and paid. It was decided to leave the donation to the Cancer Campaign until the September meeting. Reports of committees were heard and the following new ones appointed: School, Mrs. A. Robinson; Sick, Mrs. L. Waugh and Mrs. K. Muttart; Program, Mrs. George Affleck; Mrs. Fred Platts and Mrs. Frank Bell; Lunch, Mrs. Ken Muttart and Mrs. Archie Robinson. New business included plans for quilting a quilt in the hall, for a party sale on September 6th at Smallman's, Ltd., and for a showing of colored slides in the hall on the following Saturday evening. A pleasing feature of the meeting was the presenting of an electric kitchen clock to Mrs. Frank Bell who has recently moved to another district, also a jewel case to Mrs. Allen. Both these ladies replied and expressed their appreciation. The next meeting will be held at the home of Mrs. Neil Bradshaw and the roll call will be answered with a pickle recipe. There will also be a Grab-bag auction at this meeting. Meeting closed with a contest put on by Dorothy Lord and "The Queen". Lunch was served by the committee in charge.

### CENTRAL STATION AREA

The master plan calls for development of the CNR's Central Station area bounded by Cathcart, St. Antoine, University and Mansfield Streets in the centre of Montreal. Of the 21 acres, seven are earmarked for immediate development to become the focal plaza known as Place Ville-Marie, a name chosen by the CNR to commemorate the first settlement founded on the site of what now is Montreal. The railway's acceptance of the master plan, formulated by Webb and Knapp, provides for leasing by Webb and Knapp of that seven acres with construction of the block to be "substantially" completed within five years.

Mr. Zeckendorf said development of the first seven acres, including the 40-storey building would cost between \$75,000,000 and \$100,000,000. Development of the 21 acres could cost twice that amount. He emphasized that "the first opportunity to participate in the project will be given Canadians since Webb and Knapp (Canada) is a Canadian company in every sense of the word." He said the development would tie Montreal's "downtown avenues together, take advantage of its vistas and bring to its core structures within a master plan inviting comparison with capital cities of the world."

HERE'S WHERE YOU SAVE ON THAT NEW

# FALL SUIT!

YOU GET  
EXTRA TROUSERS

for **32**¢

with every  
TAILORED-TO-MEASURE SUIT

from  
**\$39.75**

OTHERS AT \$49.75 AND \$59.75  
TWO-PIECE SUITS, PLUS EXTRA PANTS AT 32¢

Just when it's time to order your new fall suit, Bond brings you a better buy for your money to celebrate our 32nd Anniversary. Bond's special anniversary sale offers you:

- The fabric you want
- The color that suits you best
- The style you prefer
- Extra trousers for only 32¢
- The custom-tailored suit of a price you can afford
- And Bond's guarantee of "Total satisfaction or total refund."

...because it's  
**BOND'S**

**32**<sup>nd</sup>  
**ANNIVERSARY**

For this eagerly-awaited occasion, Bond introduces a fresh new idea in made-to-measure wear... PLUS™ — the suit coat with shirt-sleeve ease and comfort... a designing achievement unequalled in Bond's 32 years of custom tailoring.

Budget terms  
to suit your needs

## WARNING!

### INTERRUPTION NOTICE
