

OUR NEWS BUDGET FOR OUR SATURDAY SUBSCRIBERS

MONDAY

An accident occurred late Saturday evening on Kensington Road when a truck, owned by Jenkins Transfer, engaged in moving equipment from the Exhibition Grounds to the Station collided with a parked truck. The glancing blow dislodged a heavy crate on the transfer. Mr. William Parsons, an employee of Bill Lynch's Shows, who was riding on the back of the truck, was thrown to the ground and was struck by the falling crate, sustaining a broken leg.

The driver of the transfer was unaware of the accident until he was informed on arriving at the Station.

The transfer truck was undamaged. The parked truck, owned by the Irving Oil Company received damage to the front fender.

Miss Isabel Hutton of Ottawa, national president of the Catholic Women's League arrived in Summerside by plane on Saturday evening to attend the Provincial C.W.L. Convention which opens here this evening. She was met at the airport by Mrs. James Pendergast, provincial president. Mrs. Carrol Delaney, President of Summerside sub-division and Mrs. Leo Wood, Vice-President.

On Saturday evening she was shown around the business houses and other points of interest and yesterday was taken to the National Park at Cavendish where she visited Green Gables and the Knights of Columbus Boys Camp at North Rustico. Today she will visit Charlottetown and will return to Summerside for the convention dinner this evening. She is registered at the Queen Hotel.

One of the most destructive fires experienced in Charlottetown in many years mushroomed up on the garage property of F. R. McLaine Ltd., auto dealers, Grafton Street, Saturday afternoon and cut a wide swath through the entire centre section of the block to Kent Street.

In its path the fire consumed the buildings of Horne Motors Ltd., Kent Street, Batt & MacRae, and the Whelan Memorial Building and Hall, Grafton Street, as well as several smaller structures in the rear. No official estimate of the total damage could be obtained yesterday, but it is believed to run well over \$500,000. This makes it the most costly fire since the Canada Packers plant on East Grafton Street burned in 1946. That same year serious fires destroyed the establishments of Bruce Stewart and Company the Island Fertilizer Company and the Sterns Laundry.

Still smoking yesterday morning with City firemen maintaining a 24-hour watch, the burned-out area included Wilson's Barber Shop, Mary's Beauty Salon and the office of Dr. J. D. MacGuigan. In addition several private apartments, including that of Mr. and Mrs. Rankine McLaine were completely destroyed. The couple saved nothing but the clothing they were wearing. Mr. McLaine was away from the Province at the time of the fire, but returned on receiving word of the blaze.

The cooperation of the Summerside Fire Department and the hard work of a group of neighbors saved a large barn owned by Mr. Ernest Callbeck, Linkletter Road from destruction after it had been struck by lightning about 6:30 Saturday evening. A member of the bucket brigade, Mr. Earl Cole, was overcome by smoke in the loft and was taken to the Prince County Hospital where he was reported as resting comfortably last evening.

The lightning struck the peak of the building at one end and followed down to the floor where it set fire to a quantity of straw. A few boards and shingles were dislodged by the bolt but it was a few minutes before it was noted that a fire had been started. The same bolt blew out a transformer on the electric line causing the lights to go out.

When it was noted that the straw was on fire a call was sent in for the Summerside Fire Department which sent a pumper. A bucket brigade was hastily organized and it took the combined efforts of all concerned till after midnight before it was considered that the building was safe.

TUESDAY

After thirty-three years of service in the Health of Animals Division, Dominion Department of Agriculture, Major Errol S. Nottingham, V. S., B. V. Sc., D. V. M., senior officer in the Division for this Province, has retired due to ill health. At present no appointment to his position has been made.

The 29th annual convention of the Catholic Women's League of Prince Edward Island opened with a dinner at Robson's Restaurant, Summerside, last evening and will continue today and Wednesday with sessions held at the Knights of Columbus Home here. The dinner meeting was addressed by Rt. Rev. Mgr. G. J. MacLellan, V.G. and by the national C. W. L. president, Miss Isabel Hutton of Ottawa, both of whom exhorted the women present that, while not neglecting their primary duties in the home they should become more active in public life.

Mr. Norman MacLeod, secretary of the Prince County Fish and Game Association announced last evening the winners of the second crow competition which opened on July 18th and closed on August 15th. There were 16 entrants in the competition and approximately 150 crows were destroyed. Prizes to the winners will be officially presented at the next meeting of the association to be held at Borden on Friday, August 31st.

The winners are as follows: First—B. I. Rayner, Summerside, \$25.00 cash; second—Paul Hansen, Summerside, \$15.00 cash and one flash light; third—Ken Bell, Summerside, \$6.00 sport shirt and one flash light; consolation prize—Norman MacLeod, Summerside, box of 12 gauge shells.

A new market for Island growers of green beans is opening up this season as one of the Annapolis Valley canning plants, the Canadian Cannery is currently buying heavily in this Province.

Although details are not complete it is believed that approximately 100 tons may leave here before the Fall. The first shipment moved out on Friday via the Wood Islands Ferry. Generally plans call for picking the beans in the early morning, packing them into bushel hampers and moving them by truck.

If weather conditions are good it is planned to ship three truckloads a week from the King's County area. They would cross the Strait on the 5 P. M. sailing of the ferry and be trucked to the plant that night for processing the following morning.

While City firemen kept a watch yesterday morning to prevent any last minute outbreak, workmen began the big task of clearing away the debris left by Saturday's disastrous fire in the block between Grafton and Kent Streets. In the meantime owners of businesses in the immediate neighbourhood started taking stock of their losses and preparing to reopen their establishments.

Their first big job was re-assembling their stock, such of it as remained, and sorting out the damaged and undamaged goods. At Adella's Millinery and The City many of the hats and dresses were victims of water damage. At Redmond's Electric Shop much of the equipment located is rusted or battered, and a quantity is unaccounted for. That is a condition experienced by many of the firms who report that a certain amount of goods is missing and believed stolen.

"It was simply wonderful and I enjoyed the trip immensely" was the brief remark made by Prince Edward Island's sharp-shooting school teacher, Lieut. Mary MacLennan of Alexandria, as she stepped off the late train at Charlottetown this morning at 12:40 a. m. in the van of returning marksmen from this Province who competed in the Dominion of Canada Rifle Association meet held at Ottawa all last week.

"It was a wonderful year to be at Bisley and I am very proud to have been a part of it," continued Miss MacLennan as she smilingly made her way along the platform. "but it is nice to be home again." Wearing her blue jacket and Bisley crest of the Canadian team, the lady marksman who has brought so much credit to this Province with her fine display of shooting ability, was looking tanned and the picture of good health on her arrival here.

Other members of the Island

team arrived on the late train, while still others were on their way home by car. Some had already returned home over the week-end.

WEDNESDAY

At the concluding hearing into the death of Edward MacEachern, New Glasgow, N. S., held at Belle River last evening, the coroner's jury found that Mr. MacEachern came to his death on July 30th, at Belle River, as a result of injuries sustained in an automobile accident.

The jury also found that no blame was attached to either driver, and recommended that proper highway markers should be placed at all such points to prevent future accidents.

At twenty minutes to seven last evening the winner was decided. He is a new son for Mr. and Mrs. Arnold McDonald of O'Leary and he has an honor and distinction that he will carry through life in being the first baby to be born in the New Prince County Hospital. He weighed in at 8 pounds 3 ounces. He is a lucky boy because not only did he come into the world with distinction but he had waiting for him many wonderful gifts given by the merchants and business houses of the town to mark this important event.

Firemen were called out again yesterday to the scene of Saturday's big fire when flames were seen coming from what had been the basement of Horne Motors Ltd. The blaze was in a small pile of coal and had flared up when fanned by the light breeze blowing yesterday.

The call to the Fire Department was received at 5 p. m. as the smoldering pile threatened to start another fire in the blackened timbers above and nearby. However it was easily controlled.

Workmen were busy all day at the big task of cleaning up the debris left by the fire. A job which will probably take several weeks to complete.

Mrs. James Pendergast of Kensington was re-elected provincial president of the Catholic Women's League at the closing sessions of the 29th annual convention held in Summerside during the past three days.

Other provincial officers elected are as follows: 1st vice president, Mrs. Philip Ross, Iona; 2nd vice president, Mrs. D. F. McNeill, Summerside (re-elected); 3rd vice president, Mrs. J. A. Murphy, Summerside; recording secretary, Mrs. Frank Murray, Charlottetown (re-elected); corresponding secretary, Miss Iphigene Arsenault, Charlottetown (re-elected); treasurer, Mrs. Lorne Noonan, Charlottetown.

Sessions were held all day yesterday and last evening at the Knights of Columbus Home, Summerside, in connection with the 29th annual convention of the Catholic Women's League of Prince Edward Island. His Excellency Bishop James Boyle celebrated the convention Mass in the Chapel of St. Mary's Convent at eight o'clock. Rev. Joseph MacLeod and Rev. Francis MacDonald assisted His Excellency.

Bishop Boyle spoke most earnestly to the large assemblage on the intention for which he had offered Mass, "Increase of religious vocations in the diocese."

Mrs. James Pendergast, provincial president, presided at the business meetings which followed. The national president, Miss Isabel Hutton of Ottawa, was present.

Yesterday afternoon under a warm summer sun and in a beautiful setting provided by newly landscaped grounds, the ceremonies were carried out in connection with the laying of the corner stone and the official opening of the new Prince County Hospital. His Honor Lieutenant-Governor T.W.L. Prowse using a silver trowel that was presented by the architect, Mr. Leslie R. Fair, applied the mortar that welded the stone into position. By coincidence the mason on the job, Mr. Gerald McQuaid, had laid the first brick when construction started.

The official opening of the building was performed by the provincial Minister of Health, the Hon. A. W. Matheson who cut a ribbon permitting the doors to be opened and the main entrance to be used. Prior to the official opening Mr. M. F. Schurman, President of M.F.

Schurman Co. Ltd., the building contractors, officially turned over the building to the president of the board of trustees, Mr. J. F. Arret, by presenting him with a large key which was a replica of the key to the main door.

THURSDAY

A further step in the proceedings instituted by writ of mandamus on Aug. 8 calling an election for the office of Mayor of the City of Charlottetown was taken this week, when the plaintiff, Mr. M. Alban Farmer, filed his statement of claim in the Supreme Court. The defendants in the suit, as set forth in the preamble, are the respective members of the City Council and City Clerk.

An increase of over on hundred per cent in the number of carloads exported from this Province in July, 1951 over July, 1950, is the highlight of the July report of railway shipments as issued by the Charlottetown office of the Canadian National Railway Superintendent.

The number of carloads of pulpwood, 481, accounts for approximately 87% of the total cars moved out during July. This compares with a total of only four carloads in July, 1950.

Charlottetown can boast of having produced at least one archaeologist—Dr. Cedric Boulter, who lectures in the subject at the University of Cincinnati. Dr. Boulter, son of Mrs. J. W. Boulter and the late Mr. Boulter who was well known as manager of the Potato Grower's Association and secretary of the Exhibition Commission, is vacationing at his mother's home in Charlottetown prior to departure in September for a year's work in Athens, Greece.

On Wednesday, Aug. 22, the P.E.I. Lay Association of the United Church of Canada held a special session in the Montrose United Church with morning, afternoon and evening sessions. The reason for the special meeting was to give the delegates a change of meat and hear the special evangelist, Rev. Elmer Crockett of Worthington, Minnesota, who this week is conducting special meetings in the Montrose United Church, the following week in the Elmsdale Church, and the final week in the Bloomfield Church. Later, in September, he will conduct meetings in Montague. There was a fine attendance with people present from Montague to Montrose, including Charlottetown.

An experiment in the preschool age training of children will be undertaken this season for the first time when a class for five-year olds will be formed at West Kent School. It is strictly an experiment for the first year, but if successful it is considered likely that the idea may be expanded later.

The public view on the changing of text books used in the schools is disturbing to the Department of Education which explains that over the years there have been few drastic changes. With other provinces using advanced methods, publishers of books would object to smaller printings to supply this Province alone and as a result prices would be noticeably higher.

FRIDAY

The Rt. Hon. Arthur Henderson, British Secretary of State for Air made a brief visit to R. C. A. F. Station Summerside yesterday to inspect Royal Air Force cadets who are undergoing training here as part of the N. A. T. O. training scheme. Mr. Henderson and his party which included Air Chief Marshal Sir Leslie Hollinghurst, arrived at Summerside from Goose Bay on an R.C.A.F. Dakota aircraft at 11:30 Atlantic Standard time. He was met by the commanding officer of the station, Wing Commander D. A. Willis, D.F.C., and he inspected a guard of honor of flight cadets which was drawn up on the runway.

After inspecting the guard he spoke to them briefly congratulating them on their smart appearance. After lunch in the Officers Mess the airminister talked to the R.A.F. trainees in the flight cadets lounge and at 3:20 p. m. he was airborne again on his way to Ottawa.—S.

A relatively recent method of shipping fresh lobster meat to

United States and Upper Canadian markets was mentioned yesterday at the meeting of the P. E. I. Fisheries Development Committee. Mr. R. E. S. Homans, of the Fisheries Department Inspection Service, Halifax, told how such shipments had mushroomed in volume in New Brunswick factories recently. The fresh meat is simply extracted from the lobsters and dumped into large cans for shipment. It is less trouble than processing as the latter requires very careful washing.

However, he said, there was some danger of contamination because of the lack of thorough washing. But it was thought that with greater care being taken by the packers this method of shipping eventually could become a big business.

Discussion and explanation of the recently instituted progeny testing programme featured the annual field day of the Ayrshire Breeders Association of the Province held at the Experimental Farm yesterday.

One of the breeding projects being carried out at the farm, this programme, using a bull of known qualities as a check against other selected purebred Ayrshire bulls, is planned to compare the ability of the various animals to raise the production of daughters over dams. Full co-operation with the purebred breeders was stressed, and the hope was expressed that other outstanding bulls from among the herds of the breeders would enter the tests.

Present prospects are for a steadily expanding market for Irish moss due to the wide variety of uses to which it is being put by industry. The P. E. I. Fisheries Development Committee was told at the closing meeting of its present session yesterday afternoon. The Committee will meet again either Sept. 28 or 29 depending on the arrival here of Dr. Stewart Bates, Deputy Minister of Fisheries, Ottawa.

It was stated at the meeting that topsoil manufacturers are the biggest individual users of other moss at present, although there are several other national business houses using large quantities. The quality of Island moss had improved and as a result commercial users were now more favorably inclined towards buying here. The improvement had come through inspection, which is entirely voluntary.

Possibilities of improving the value of Prince Edward Island's fishery industry by some form of general grading and more direct marketing of the major products, such as canned fish and fresh lobsters, through a Government sponsored agency, co-operative or other method, are discussed in a comprehensive preliminary report presented yesterday to the P. E. I. Fisheries Development Committee by Mr. H. Scott Gordon.

Assistant Professor of Economics at Carleton College, Ottawa, Mr. Gordon has been employed by the Federal Department of Fisheries to make an economic survey for the Committee. His report, presented in the form of a brief, preliminary outline of the industry, deals with the various phases of production, processing and marketing, with comments on the general outlook which, it is emphasized, are not to be taken as final conclusions.

A National Film Board camera man was in Summerside yesterday making a news reel of the process of packing live lobsters at the cannery of Jenkins Bros. Ltd. This is the only place in the world that lobsters are packed commercially. It is a very interesting process and has been developed by the Live-Pak Corporation of Boston, Mass., who have granted a franchise to the Island Trading Company, a registered partnership composed of Messrs. G. F. Cameron, W. E. Jenkins and J. B. Jenkins. They in turn granted a licence to Jenkins Bros. Ltd.

Lobsters are found naturally only in North Atlantic waters and they breathe in air from the water so the general idea is to reproduce North Atlantic sea water synthetically. This is done by means of a substance, for which the Live-Pak Corporation holds the patents, which they call lobster conditioner. This, when added to water, dissolves the waste product of the lobster and provides the lobster with food.

BIRTHS
FRASER—At Souris Hospital, August 15th, 1951, to Mr and Mrs. Kenneth Fraser, North Lake, P.E.I., a daughter, Judy Carol, 7 lbs. 2 oz.
RODD—At the Prince Edward Island Hospital, August 21st, 1951, to Mr. and Mrs. John A. Rodd, Milton, a son, Kenneth Malcolm. BAKKER—At the home of Mrs. Neil W. MacKinnon, Southport, on August 16th, 1951, to Mr. and Mrs. Dick Bakker, Tea Hill, a daughter, Maria, 8 lbs.
MICKARD—At the Prince Edward Island Hospital, Monday, August 20th, 1951, to Mr. and Mrs. W. W. Pickard, Charlottetown, a son.
CRAWFORD—At the Charlottetown Hospital August 18th, 1951, to Cpl. and Mrs. Devis Crawford, R. C. A. F. Summerside, a son, Joseph Kent.

DEATHS
TAYLOR—At the Prince County Hospital on August 4th, 1951, to Mr. and Mrs. Earl Taylor, Norbro, a son, Clarence Benjamin.
MACFADYEN—At the Charlottetown Hospital on Aug. 22, to Mr. and Mrs. Charles MacFadyen City, a son.
ROBERTS—At the Prince County Hospital, on August 20th, 1951, to Mr. and Mrs. G. Louis Roberts (nee Kathleen Picketts) Kelvin, a daughter, Florie Kathleen, 7 lbs. 5 ozs.
