N. Y. Stocks

NEW YORK (AP)—A late sell-off knocked the props from under an early stock market rally Wednesday and the result was just one more decline.

Leading stocks took losses ranging from fractions to around 2 points. But the picture wasn't all black. Selected issues managed to hang on to sizable gains.

Nevertheless, the market on average reached its lowest point since last Feb. 29—the day President Eisenhower announced he would be available for re-election. On that day the market took profits on a previous anticipatory rise.

The Associated Press average of 60 stocks dipped $1.00 to $180.10 compared with 179.10 on Feb. 29. Industrials were down $2.00, rails down 70 cents and utilities were unchanged. There were 67 new lows for the year and 10 highs.

General Motors was the most active stock, off ¼ at 41⅛ on 40,100 shares. Second was Standard Oil (New Jersey) off ¼ at 54¾ on 34,000 shares.

On the American stock exchange prices declined in fairly active trading. Volume totalled 980,000 shares compared with 910,000 Tuesday.

Canadian stocks were lower. International Nickel dropped 2¼, Aluminium Ltd. 1¼. Hudson Bay Mining ¾ and Granby Mining ⅛. Walker-Gooderham gained ⅛.

Among Canadian issues on the American stock exchange, Eureka advanced ⅛ and Preston East Dome, Jupiter Oils and Sapphire Petroleums each fell 116.
