LONDON, the delegate to the Irish National Conference, who was hoisted on attempting to speak, writes to the Freeman's Journal that he knows that he has drawn upon himself the hatred of the Irish members of Parliament, particularly of Thomas Power O'Connor. London says he always maintained that the Americans subscribed to assist the victims of the tyranny of the landlords, not to give bloated salaries to Irish members of Parliament.

By advertisement in another column it will be seen that we are to have yet another newspaper. We are not aware that their is a popular demand for another newspaper. In fact we have heard people say that "there are already too many newspapers," and we are very sure that, for merely financial or commercial considerations, no man living would be so insane as to start another newspaper in this Province. The new paper will, however, have at least one advantage. Its business manager is a practical printer, who has long been connected with THE EXAMINER. If it should not prove successful, the fault, we feel sure, will not be his.

THE Charlottetown Engineer Company, on Monday, filed the allowance of ammunition annually granted by Government, at Kensington Rifle Range. The ranges were 200, 400, and 500 yards. The highest score—50 points—was made by Sapper D. L. Hooper. A medal, presented to the Company by Lieutenant Horne, was competed for on the same day. The ranges were 200, 500, and 600 yards. A large number took part in the competition, and the result was a tie between Sergeant Major McDougall and Sergeant B. Hooper. Firing of took place yesterday, and the medal was carried off by the Sergeant Major, who scored one point above his opponent.

PATENT BUTTER TUB.—Mr. H. Coombs, of Charlottetown, was last week showing in town the model of a patent butter tub of his own invention. Mr. Coombs was looking about with a view to the possible manufacture of the article in Moncton. The principal advantages claimed for it are the safety of butter by retention of brine, and exclusion of foreign odors, especially in shipment abroad. The tub is water tight and air tight. The staves are bevelled, and the head of the tub fastened similar to that of a flour barrel. Mr. Coombs claims the tub can be manufactured almost as cheaply as common butter tubs, while the advantages make it of several times the value when shipments are made any distance.—Moncton Times.

A BAD drowning accident occurred at Campbellton, N. B., on Sunday afternoon by which a lady, Mrs Ryan and her brother, a young man named Malcolm, were drowned. It appears that Mr. Ryan, his wife and brother-in-law and a man named Cole left Campbellton in a canoe to cross the river to the Indian point. When about midway the canoe upset, but Ryan and Cole still clung to it, while Malcolm threw off his coat and endeavored to swim to the shore, but sank before assistance reached him. The two men were rescued from the canoe, and although Mrs. Ryan's body was found almost immediately, every effort to restore life proved unsuccessful. Malcolm's body has not yet been found.

THE Postmaster-General has taken vigorous action to remedy the long-standing and crying evils that have given such an unenviable reputation to the post-office at Montreal. The inhabitants feel deeply indebted to the Postmaster-General for initiating a reform and selecting two of the best qualified men in the service for the responsible duty which they will have to perform. The citizens, who have so long been the victims of the peculiarities and other irregularities which have been carried on, and who were unable to get any redress, will rejoice that a sweeping change for the better is now in prospect. In a great commercial city like Montreal there is nothing more absolutely necessary for the public welfare than honesty and efficiency in the post-office.

Egypt Again in Trouble.

March of the False Prophet.

SEVEN SANGUINARY BATTLES

8000 Egyptians Killed and Wounded.

El Medhi Marching on Cairo

Special Despatch to the Examiner.

ALAXAMDEIA, Oct. 25.

A general feeling of leniency towards Arabi Pasha exists in the Cabinet, and the Egyptian Ministers are disposed to abandon his prosecution.

Despatches from Khartoum, Upper Egypt, report that the False Prophet, El Medhi, has utterly defeated the Egyptian Governors of Abdel-Kaber and Giegler. Seven sanguinary battles were fought. The Prophet led the whole fighting population of the Soudan in the field, and accomplished easy victories. He was reinforced by the Cannibal tribes of Central Africa, who terribly tortured, and actually devoured some of the prisoners. The Egyptian loss is reported to be 8000 killed and wounded, and the remnant of the army is besieged in Khartoum. The prophet animated by his easy victories at Khartoum is now marching on Cairo.

[\*It will be remembered that early in July El Medhi, the Soudan Prophet, commenced his march through the Province of Upper Egypt. He has arrived at Khartoum, the real capital of Central Africa, and is reported marching towards Cairo. The extent of his army is roughly estimated at from 80,000 to 100,000 soldiers drawn from the hardy races of the Soudan. These soldiers it is said are many times superior to the troops of Lower Egypt. On every occasion of a revolt, the Central African Arabs and the negro races annexed by conquest have shown their utter indifference to their adversaries from the delta region. The mixed races of the Soudan are also deeply imbued with the spirit of religious fervor—those inhabitants descended from Arab fathers and mothers. Some of these bastard races are as fine specimens of physique as can be found anywhere—notably the Dongolowee, who come from the Great Bend of the Nile, and are employed by the slave traders as soldiers on their expeditions for "black ivory" into the interior. Their average height is over six feet. They are fearless in the water among crocodiles and in the jungle among beasts of prey; they can handle the elephant gun and spear, and understand the art of strangling. This race some years ago endeavored to establish an independent kingdom. The march of El Medhi to Cairo will be watched with interest.]

[The Soudan is a general term applied to that vast and vaguely defined region of Central Africa lying between the Equator on the south and the Great Desert on the north, and stretching from east to west nearly across the continent. The Egyptian Soudan is generally supposed to begin at Assoum or the first cataract of the Nile on the north, but perhaps might more properly be said to commence at the point where the Nile makes its great westward bend. It extends to the great lakes on the south, and from Abyssinia on the east to and inclusive of Darfur and the provinces of the Bahr El Guazal on the west. This extensive region, many times larger than Egypt itself, was not conquered by the Egyptians all at once, but has been annexed piecemeal, and at no time can it be said to have been thoroughly subdued or fully occupied.]

BELGRADE, Oct. 23.

The King Milan's assailant, is the widow of Col. Jofrew Markowitch, who was executed with several other rioters in May, 1878, by the orders of Milan. It is suspected the attempt is not merely attributable to revenge, but partly to political motives.

After the attempt Queen Natilie, who was with the King in the Cathedral, fainted, and was carried in an unconscious condition to the palace. The King accompanied her thither and then returned to the church unattended and remained till the end of the services. The crowd attempted to lynch the assassin.

The men attempted to go ashore in a boat, but were drawn out to sea.

IN THE SUPREME COURT.

In the matter of An Act of the Parliament of Canada, passed in the forty-fifth year of Her present Majesty's reign, Chapter 23, intitled, "An Act respecting Insolvent Banks, Insurance Companies, Loan Companies, Building Societies, and Trading Corporations, and of the President, Directors, and Company of the Bank of Prince Edward Island, an Insolvent Banking Company.
