## HOW YOUR LIVER BILE BREAKS DOWN FAT

Laboratory tests have now proved that liver bile emulsifies fat... actually breaks it down. It is an established medical fact that when liver bile is added to fatty solids, the fat is broken down and forms a smooth, easy-flowing mix.

In your body, precious liver bile helps break down fat the same way. Many foods reach the digestive tract as undigested fatty solids. Your golden liver bile helps break down this fat... unblocks it... for easier and more complete digestion.

Carter's Little Liver Pills exclusive formula of natural, vegetable ingredients relieves irregularity gently and effectively. At the same time, it actually improves the flow of liver bile needed to break down fat in your body.

So when you feel sluggish, headachy, nervous and need a laxative, get Carter's Little Liver Pills. Remember, Carter's not only relieves irregularity, but actually improves the flow of liver bile needed to break down fat.

## ELLEN'S DIARY

### So Many Lovely Flowers Not Sure Which Favored

"Smell the white lilac, dear!" granddaughter smiled to Alex, bending down a spray within his reach this morning.

"I smell!" the youngster nodded happily burying his young nose in the bloom.

"And now" she said dropping her knees on the lawn beside "we'll try a lily of the valley!" I sometimes think she offered over his head "they're my favorite flowers. I can't be sure. There are so many I like. But the scent of the lily of the valley is lovely."

Exquisite fragrances June offers now in abundance—subtle sweet of garden flowerings, delight of orchard-bough, tang of tawny tree wispy scent of wilding. Ours to enjoy in their fleeting blossoming and feel more and less tragic when comes wind drift of petals.

"The countryside is beautiful, isn't it?" we commented to a farmer in the yard today, when we looked out on the valley lying sunnily fresh and clean and flower-bedecked about.

"Yes" he agreed, and added with a wry smile "though to tell you the truth, Ellen, I haven't had time to admire it."

"Then you'd better take a long look now before it goes!" we chuckled so you'll have something lovely to remember when days are bleak and the wintry winds blow!

"It's a pity the spring passes so soon" he said.

Now by dog, our stables are a mung these, if good fortune calves remain indoors. And among these, if good fortune

favours Mack, will be presently the little daughter or son of the tidy heifer he bought a fall or so ago. At Rob's this evening we looked in with Jamie on a company of calves dining in a row at a manger. The evening sights and sounds of the farm were all about then—the content of the day going out to its rest the gentle reminder of a mother-pig to her piglets to nurse; the soft rustle of hay where the team busied today in the field, now fed; the quiet which follows the milking, when cows have been re-led to pasture and the milker and cream-separator and pails have been washed and left ready for the coming of a new day. And time itself heaves a happy sigh in keeping with the peace of the occasion and the dusk, soft as kit-cat's fur, commences to touch the valley and steal into corners indoors.

Excursing pigeons made happy landings homing to their own dovecot. A cat lugged her kitten past us in the "aisle" where we stood, hastening through the shadows to some choice nook of mow. And here almost at our feet, wings so motherly over their dear ones, three wee bantam-bent privileged pets of that barn and farmyard, were settled snug for the night.

Nowhere is one more aware of dusk-fall and dawn-break and the turn of the seasons than folks of the farm. So good the mornings are, when our world of creatures meet their day. And peaceful and satisfying the evening shadows which takes all off to their rest. Until tomorrow—Diary—Good-night.

4th. Mr. Sinclair also announce that the 1959 camp outing for diabetic children would take place from August 2 to 15 at the campsite on the Belle Isle River, Kings County, to which it is planned to send ten children from Moncton and district. Moncton is allowing two of its quota to go to Prince Edward Island so that two children may be sent from this province.

Greetings from the Charlottetown branch, CDA, were conveyed to the assemblage by Mrs. W.H.V. Dunbar, president of the Prince Edward Island branch, and Miss Lorna Weeks, a member of the executive.

**DIETITIANS THANKED**

Clark, executive director, and Miss Doris Morton, chief dietitian, Moncton Hospital, for kindness extended in making possible the holding of the dinner meeting at the institution and for the excellent menu purveyed, also to the branch treasurer, Miss Marjorie Deakin who ably assisted in making the meeting a success.

The annual dinner meeting of Moncton branch, Canadian Diabetic Association, was held recently in the Moncton Hospital cafeteria, marking the close of the group's activities for the season. This was on all points a highly successful gathering.

Other members of the Moncton clergy attending were: Rev. Dr. Frank E. Archibald of St. John's United Church and Rev. M.A. MacMillan of Central United Church.

### TREASURER'S TALK

Afterwards, a brief welcoming speech was given by the branch president, Mrs. W.R. Sears. This was followed by an informative address by the treasurer, Miss Marjorie Deakin, outlining, in the main, the aims, objects and purposes of the Canadian Diabetic Association, also some features of the operation of the New Brunswick camp for diabetic children. The chairman for the evening, Earl Sinclair welcomed and introduced the representative of Moncton City Council, Alderman J. Russell Dickie, who brought the official greetings from the city. He congratulated the branch on its splendid efforts in the important phase of health work in which it

is engaged, paying especial compliment in regard to that part of its activities in providing a camp for diabetic children.

The special speaker of the evening was Mrs. E.S.A. Bell of Moncton, a graduate chiropodist of London, England, for several years a staff specialist in the diabetes division of a large London hospital before coming to Canada. She gave a most interesting and enlightening address on proper foot-care as well as some treatments for foot trouble, stressing strongly how essential it is for diabetics to be extremely careful of their feet so as to avoid the serious circumstances that can ensue if close attention is not given this important phase in the treatment of diabetes.

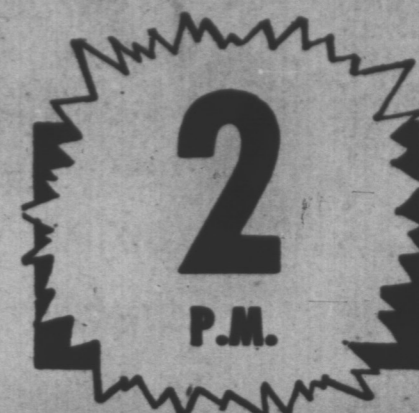

Mrs. Bell also dealt at some length with circulatory ailments that can result from laxity on the part of diabetic persons in not properly guarding against this problem to which most of those affected by the disease are subjected. On this point she also gave a number of hints as to the best methods to pursue in order to improve circulation in pedal the extremities of the body. At the conclusion of her very informative and helpful address, a hearty vote of thanks was tendered Mrs. Bell.
