Patients Now Returned To Charlottetown Hospital

Interior Repairs Which Have Been Carried on Steadily Since the Removal of the Building to its Present Site are Now Completed. No Longer a Fire-Ravaged Building but a Handsome New Hospital.

Repair work on the Charlottetown Hospital, which, since the moving of the building a few months ago, after the fire, has been steadily carried on is now practically completed. On Monday the patients, who were removed at the time of the fire to the Convalescent Home, were brought back to the hospital and are now very comfortably housed. All the beds have been set up and the operating equipment installed. The Convalescent Home was closed on Tuesday. It served during the winter very effectively as a temporary hospital.

While the exterior of the hospital, in its new situation on the opposite side of Rochford Street presents altogether a different appearance since the fire, it is the interior of the building in which changes are most strikingly noticeable. The whole interior has in fact been remodelled and rebuilt upon the most modern lines and is throughout conveniently and handsomely furnished.

Fine Maternity Ward

A feature of the hospital is the splendidly equipped maternity ward, which has a capacity of sixty beds. Adjoining it is the nursery, separated just sufficient from the ward to prevent the cries of the infants disturbing the patients. Through the hospital run two dumb waiters, which take food to all the wards and rooms. Smaller wards, as a more convenient system of hospital management, have been provided for.

Basement Remodelled.

The basement of the building in which it will be remembered the disastrous fire started last year, has been entirely remodelled. The large kitchen provided with a splendid range is on this floor, also two dining rooms, one for the use of the nursing sister; a recreation room, laundry room, sewing room and a very large store-room. Two in addition to the plumbing system, which is almost entirely new. There are eight chimneys connected with fire-places throughout the building, ensuring warmth and cheerfulness.

The Connolly House, in which many of the patients were placed at the time of the fire, is now the administration building and will be conducted as before in connection with the hospital. The second story of this building is taken up principally with clergyman's private rooms, containing such accessories as fire-places, baths, toilet etc.

Beds for Sixty Patients

At the present time there are about thirty patients in the hospital. Under the new arrangement about thirty more can be provided for. This is an increase in capacity of ten patients over the old arrangement and in addition the new plan of the wards and rooms which will provide for very efficient service.

The remodeling of the hospital has been done by Messrs. Morrison & Son, Summerside; the heating by Currie & Murnaghan; the plumbing by Fred Trahan; and the attractive painting and decorating by Austin Trainor.

A formal opening of the hospital will take place within a few days, the date not yet having been decided upon.

Rev. Dr. Sedgewick Resigns from Board

(Special to The Guardian)
WINNIPEG, June 13—Regret was expressed at this afternoon's meeting of the general assembly of the Presbyterian church in Canada that the board of home missions had been unable to implement the agreement of last year and pay minimum stipends of \$1,800 to all ministers at mission centres and the assembly went on record as favoring payment of such stipends as from April 1, in preference to Oct. 1, the date mentioned in conditional proposals submitted by the board.

Following this decision, Dr. W. H. Sedgewick, Hamilton, convenor of the board, tendered his resignation. Dr. Sedgewick complained that while the assembly placed the responsibility of paying minimum stipends of \$1,800 on the board, it did not direct how it could be done.

Though the assembly reached this decision the question is likely to be reopened. Dr. Ephraim Scott, Montreal, gave notice of motion that the whole matter should be reconsidered.

(Dr. Sedgewick is well known in this city having at one time been pastor of Zion Church.

British Warship Fires On German Vessel

An Alleged Gun Runner in Irish Waters Was Stopped and Searched by British Man-of-War. The Election Promises to be a Stormy One.

(Special to The Guardian.)

LONDON, June 14—Fire was opened ten minutes after midnight last night by a British warship on a German steamer carrying Queenstown harbor. Armed marines thereafter boarded the incoming vessel and made a thorough search for arms throughout the vessel. The Admiralty will await the report of the commander of the British war vessel before taking action and in the meanwhile the German ship is being held at Queenstown. A similar vessel was recently stopped and taken over by the British Admiralty and these drastic measures exemplify the vigilance of the British navy to prevent arms and ammunition reaching the brigands and bandits who abound in various parts of the country, especially in the rock and unsheltered country of the west.

Details of cases of intimidation of farmers' candidates are in the hands of the officials of the Provisional Government which also show that sixty irregulars yesterday waged a four-hour fight in an attack on the

house of Geoffrey Green of Rathgore. Green barricaded his windows and fired continuously with a sporting rifle he had in the house and when that ammunition was exhausted, with a shot gun. The attacking parties eventually brought two machine guns into action. Green's condition is declared by attending physicians to be extremely critical as he has no less than five serious wounds in his body.

The farmers' candidates for Kilmalee declares that men who have pledged their support to him at the coming election have been prevented from reaching their homes for eight days past. He stated that this case is a mild one compared with other examples of intimidation in Waterford and Tipperary.

The polling takes place all day Saturday and the result will be made known on Monday. The defeat of at least two Republican candidates, the notorious Erskine Children and Miss McSwiney, the sister of the Lord Mayor who starved himself to death, are practically assured.

P. E. I. Light Horse Will Camp June 20-28

Arrangements have been completed for the training of the P. E. I. Light Horse in Charlottetown from June 20th to June 28th inclusive, which will be held in the Exhibition Grounds as last year. The regiment is now up to strength and commanded by a captain of twenty years unimpeachable reputation as a trader in this province; overall and trample his cargo of potatoes in search for two missing punch-coins of rum in his absence from the ship, and depart without so much as a verbal apology to the mate for the trouble and damage caused, is the question which Capt. William Dicks of the schooner Madeline D. intends to have very definitely answered upon his return to this port. Capt. Dicks sailed with his cargo of Island produce for Sydney yesterday and has left the particulars of the rum raid in the hands of his lawyers.

Capt. Dicks, who is a Georgian town man residing at New Harris, Bras O'ar Lakes is indignant over the raid inasmuch as his vessel, which is probably the finest trading schooner seen in Charlottetown for many years, has been the victim of the rascals by the officers. The Madeline D. is a former racing yacht, built in South Boston for a southern millionaire at a cost of \$60,000 and was purchased by its present owner this spring from parties at Halifax for the coasting trade between the Island and Sydney. She is 100 tons register, 150 tons cargo, built of oak and southern pine and finished in teak wood and mahogany. The captain's reputation and character is quite in keeping with the quality of vessel he commands and, as he declares himself, "two casks of rum would buy my main top-mast!"

The vessel was raided two or three hours after she had returned to Connolly's wharf Monday afternoon after loading potatoes at West River and Montague. She had already been cleared by the Customs. The mate was in charge at the time, the captain being ashore. Information against her, it is understood, had been laid by a local detective, and two prohibition inspectors, taking with them three Custom House officials, boarded the ship, showed the mate in charge a badge on their coat as authority, and began their search, which they kept for some time tramping on and bruising considerably 1500 bushels of potatoes which formed the cargo in their efforts to locate the rum.

The captain on his return was

Canada at the Hague Conference

(Special to The Guardian.)
LONDON, June 14—Professor Edouard Montpetit left London yesterday to represent Canada at the preliminary discussions of the Hague conference. Sir Charles Gordon of Montreal, is to follow later, if it appears to be worth while. The Times in an editorial describes the Hague conference as the dull, formal liquidation of Geneva, which will have no direct history. The Times indicates the British ministerial determination that the Bolsheviks must cease to be Bolsheviks before normal economic relations can be established with the outside world.

Insurance Agents Hold a Meeting

Convention of Agents Held at Branch Office of The Great-West Life Assurance Co. And Visit to Charlottetown of Four Leading Officials of the Company. Prince Edward Island Branch Leads the Whole of Canada.

A most successful Meeting of Representatives of the Great-West Life from all parts of the Province was held Wednesday night in the Hyndman Building, Queen Street, to meet the following Officials of the Company who are making a tour of Eastern Canada, Mr. A. Jardine, Secretary, Mr. W. McQuaker, Treasurer, Mr. F. D. MacCharles, Actuary of Winnipeg and Mr. C. H. Carpenter, Eastern Superintendent of Toronto.

All the Agents were greatly impressed with the Report of the splendid progress of their Company throughout Canada and more particularly so as regards the excellent record attained by the Prince Edward Island Branch in having led every Branch of the Company for the five months ending May 31st, for percentage of new business written over Head Office allotment.

During the month of May, the Island Branch had the biggest month in its history and almost four times the volume written in May 1921, which speaks highly of the popularity and efficient service rendered by this fine Company and its Representatives during a period of business depression. As a result of the recent Contest, the Agents were all highly complimented and valuable Prizes awarded the following:

Harold M. Stewart, Agent at Charlottetown.
W. W. Smith, Agent at Kinkora.
S. M. Hicks, Agent at Summerside.
R. K. Clements, Agent at Montague.

The outlook for the Great-West Life Assurance Company in this Province, as elsewhere, is exceedingly bright and the Branch Manager, Mr. J. O. Hyndman, informs as they have had plans prepared to enlarge their Office spaces and have recently increased their Staff, which is pretty good evidence that business conditions are fast improving.

amazed to learn that he was a "suspect." His ship had been several miles from the city at the time of the robbery. He claims that as a British subject, master of a British ship in a British port he had no right to be subjected to this treatment.

VARSIITY TROUPE AGAIN APPEAR AT PRINCE EDWARD

King's College Players Warmly Received Last Night in Their Entertaining Comedy "Anne."

The King's College Varsity Troupe were well received at the Prince Edward Theatre last night when their bright comedy "Anne" proved highly entertaining and afforded a continuous number of laughable situations which were all carefully and artistically depicted.

The costumes were up-to-date and the scenery effective; the munction of the actors clear and the acting just sufficiently amateur to be in some respects more charming than professional.

The reappearance here of Wilbert Avery, the boy violinist, on another vacation trip from New York was welcomed with great applause and his performance on that wonderful old Anati violin of his (which he

accidentally discovered a few years ago in Chicago) brought enthusiastic curtain calls.

All the performers did well last night and may confidently look forward to a good house this evening on their last performance.

The cast included: Edward Hargreaves (Willard F. McCulloch); 28-year-old author who doesn't understand women; Ann (Miss Hazel Stevens); an American newspaper reporter who successfully falls in love with her; Evangelina (Miss Reina Lavers); who doesn't; his mother (Miss G. Jones); his father (A. Solwyn Coster); a dear old limited sort; and his friend (M. G. Teed) a good fellow and college chum, besides Miss Ellen O'Brien musical director.

Voluntarily Wheat Board Recommended By Government

(Special to The Guardian.)
OTTAWA, June 14—The House discussed the wheat marketing question this afternoon as the first order of business. Mr. Fred Kay, Chairman of the Committee, moved concurrence in the report of the committee which recommends the creation of a wheat board for collective wheat marketing. Concurrent Federal and provincial legislation will be necessary. Mr. Kay explained that the compulsory powers vested in the board would be supplied by the provinces which also would accept the financial responsibility for profit or loss. The proposed board would handle this season's crop. Its authority does not extend to the milling interests.

Mr. Meighen considered it strange that the motion should be presented with no statement of the government's position. He wanted to know the excuse for waiting a month after the Committee had reached its conclusion before moving it in the House when it was known that to give effect to it Provincial legislatures must be summoned and enact legislation.

Differences About Irish Cabinet Ranks

(Special to The Guardian.)
LONDON, June 14—A despatch to the Times from Dublin, says difficulty has arisen regarding the allotment of seats in the new Dail Eireann cabinet in which, under the Collins-De Valera pact, the Republicans are entitled to four seats and those in favor of the treaty to five. It seems, says the despatch, that De Valera insists that he be the Minister of Defence, Richard Mulcahy, the present holder does not object. Michael Collins is willing but Arthur Griffith resolutely opposes any attempt to place De Valera in supreme control of the army, freeing him from responsibility as an elected representative of the people.

Steel and Iron On Up Grade

(Special to The Guardian.)
NEW YORK, June 14—The Iron Age tomorrow will say the steel output is still growing, though but slightly, and the demand for delivery in the near future continues on a scale that puts increasing pressure upon the mills. This, with rising fuel costs and the prospect of higher labor, has caused advances in a number of steel products. No decisive gain has been made in coal production. But the net change is on that side, a Pittsburg Steel Company having been able to start 100 cask ovens, while the Steel Corporation, by-products, coke plants have increased their output somewhat.

Rev. Mr. Glendenning Appointed to Moncton

SACKVILLE, N. B., June 14.—The ministerial sessions in connection with the N. B. and P. E. I. Methodist Conference began today. During the morning the stationing committee was in session and while not completing its work there has been a few changes in the ministerial supply in the circuits in and around Moncton. Wesley Memorial Church will be supplied by Rev. G. W. F. Glendenning, M. A., appointed as successor to Rev. Hammond Johnson.

Sackville Circuit is to be filled by the appointment of Rev. L. J. Laird. Sunny Brae will be served by Rev. John L. Lund. Shediac has not yet been supplied.

The other circuits in the district make no change in pastors except Sackville which has invited a gentleman from the Western Conference. But since the transfer committee has completed its work, he cannot be stationed until he intermission committee sits and decides his location, which will leave Sackville circuit for the present.

Collins is Satisfied

(Special to The Guardian.)
DUBLIN, June 14—Michael Collins returned to Dublin today after conferring with Winston Churchill at London regarding the border situation. Efforts at an agreement for permanent tranquillization met with considerable success, he indicated.

The Speaker ruled that those in their seats and not paired were obliged to vote.

"No loafing on the job," called out a voice from the Government side, the House roaring with laughter.

United States Government The Biggest Bootleggers

It Has Been Ruled That U. S. Vessels Can Sell Liquor Outside the Three Miles Limit and Some of the Government Ships are Taking Full Advantage of Their Opportunity.

(Special to The Guardian)

WASHINGTON, June 11—Sale of liquors outside the three mile zone on shipping, board steamers and other ships flying the American flag is legal, the Shipping Board has decided. Chairman Lasker made this known today in a letter to Adolphus Busch who transmitted a letter from his father, August A. Busch, President of Anheuser-Busch in which it was charged Shipping Board steamers were selling all kinds of liquors and that this was a violation of the Volstead Law, which made the United States

government incomparably the greatest bootlegger in the world. The Shipping Board steamers, Busch asserted "are the wettest on the ocean" and passage is being sold with the "positive money back guaranty" that the bars will be opened outside the three mile limit. The letter was written on board the S. S. "George Washington" and Busch claimed more liquor was sold on this vessel, which is the property of the Shipping Board, than on any vessel on which he has crossed the Atlantic. The letter was forwarded to President Harding.

Ancient Coins Recovered in Asia Minor

(Special to The Guardian.)
NEW YORK, June 14—Gold coins of the first series ever minted, bearing the stamp of Croesus, the first great international banker, have been unearthed in the ruins of an ancient Sardis in Asia Minor. The coins were minted some time before 561 B.C. and are bright as new gold dollars from the Treasury, although lighter in color, because pure gold was used. Fifteen of thirty coins discovered probably will come to the Metropolitan Museum of Art.

U. S. Senate To Fight Tariff

(Special to The Guardian.)
WASHINGTON, June 14—There is a fight impending in the Senate on the lumber schedule of the Tariff Bill. "All Canada has to do if she wants free logs from this country is to take off her duty," interjected Senator Smoot. "I know," replied Mr. Underwood, "but American consumers are not interested in what Canada wants. What they want is cheaper building materials, without regard to what Canada wants. At the proper time there will be a motion to put logs on the free list."

Faction Fight in Italian Theatre

(Special to The Guardian.)
VENICE, ITALY, June 14—Shout lustily "We want God" a hundred members of the Popolari party in the audience at the theatre Malibran attempted to break up a performance of the French opera "Fifi" on the grounds that it was immoral. Fascists in the audience led a flying wedge against the disturbers and when the free-for-all fight was over, the Popolari were outside and the Fascists, amid the broken furnishings enjoyed, the rest of the performance.

P. E. I. Heavy Battery Inspection Today at Victoria Park

The inspection of the P. E. I. Heavy Brigade will take place this afternoon at Victoria Park at 2.30. The Brigade will leave the drill shed at a few minutes to two, headed by the Brigade band, and will be photographed before inspection. At 2.35 Lieut. Col. Elkins, D. S. O., Inspector of Artillery will arrive at the park and will receive the general salute. The Brigade will then go through brigade exercises, battery exercises and signalling tests. In the evening the non-commissioned officers and officers will answer artillery questions. At 8 o'clock Brigade Muster will be held in the drill shed, the entire batteries being mustered by Capt. Strum of the Pay office, Halifax, on Friday night the batteries will be inspected in gun drill by Lieut. Col. Elkins.

Ontario Indians In Revolt

(Special to The Guardian.)
LEAMINGTON, ONT., June 14—Defence of Pelee Island claimed by an advancing tribe of Potawatomi was made by the pale faces of this little border town today. Many men of Leamington, through which the oncoming Indians will pass on the warpath to the point they claim down to the foreland to prepare for the invasion, but there was no disorder.

Excited citizens thronged the streets last night, while many inhabitants prepared to board up their houses in the event the Indians becoming fractions on their way through the town. The Royal Canadian Mounted Police have left for Walpole Island to intercept the advancing tribe. The Indians were reported to have halted their advance at Alvinton to await the arrival of the son of Moses Caldwell, Grand Chief of the Ojibways, who died in Mexico recently which will be taken with them to Pelee point.

CALF, SIZE OF FARM DOG, BORN NEAR BROCKVILLE

BROCKVILLE, June 14—A calf scarcely as large as the average farm dog has been born to a cow owned by W. H. Whyte, Mountain township, and is attracting much attention. It measures only 3 inches at the front shoulder and is only 35 inches long. Perfectly formed, the animal will apparently survive.
