

shallow bigot Tilley, and the band of rapacious mercenaries who assisted him in the Legislature in depriving his native Province of his liberty. What a tableau of corruption and rascality would be presented to the world! In the same gallery might be interspersed a few of the editors who performed such wonderful summersaults as characterized Livingstone, for example, of the St. John Telegraph. Next to seeing Tupper and Tilley defeated at the polls, the overthrow of the corrupt Government to which they look for reward, would afford us the greatest pleasure. Of the "Reformers" of Upper Canada we cannot say much; but we think that a Government formed by a prism of Reformers and gentlemen like Messrs. Anglin, Howe, Smith and others from the Lower Provinces, would prove the strongest and most desirable for the Dominion. From every point of view, we are inclined to this opinion, and especially so from a Prince Edward Island stand point. We know that these gentlemen from their past history to be incorruptible patriots and economical politicians, and we conclude from thence that they, at all events, will not stoop to any mean coercive measures to force this Colony into the Dominion; whereas the existing Dominion Government have proclaimed more than one of their supporters and mouthpieces that the whole of British North America shall, by fair means or foul, become part and parcel of the Dominion. For these reasons we hope that the forthcoming election will result in the return of a majority opposed to the McDonald-Conservative-Combination Party and Government.

THE TWELFTH OF JULY IN UPPER CANADA.

THE advantages resulting from Orange processions, in which blind enthusiasts and ignorant men of the most excitable dispositions form the principal part, and who, as a matter of fact, are most liable to be worked upon by the inflammable oratory of demagogues, and the exciting influence of party times, are finely illustrated in the following particulars of an Orange celebration in Kingston, C. W., on the last 12th of July. We take this extract from the Kingston Whig, and trust it will not be thrown away upon the friends of order and good feeling in this Colony, who suggest Confederation as the only means of escaping from such scenes in Charlottetown:—

"After the proceedings in the cricket ground had ended, the procession returned and marched down Union street, along Wellington street, and met a string of flags containing the English rose, the French tri-color, flags of Turkish and Morocco designs, and English national flags, which Capt. Gaskin had extended across the street in front of his residence, in honor of the Grand Lodge of Masons, now in session here, as well as in honor of the day. About two-thirds of the procession had passed under these flags when it was pointed out to the sensitive country brethren that the ground-work on the oriental flags were green, and that they were lowering themselves and the Order in passing under the Green. At the corner of Gore street one of the Pittsburgh Lodges moved out of the procession, and began to play itself down the street. It was induced again to join the procession, but it only proceeded a few paces when, headed by its banner and the fife and drums, it again wheeled out and proceeded down Gore street. The standard bearer having become excited, drew a revolver and fired it off as an intimation that he was not to be interfered with. The other Lodges now marched on, filling the vacancy in the ranks, but several of the country lodges refused to pass under the flags. The city lodges and the more respectable country lodges joined the main procession, which walked quietly through the city and dispersed.

The excited Orangemen now assembled in a riotous way in front of Capt. Gaskin's house, and demanded that the flags be hauled down, and they were allowed to proceed, as they would not walk under the flags. Some of the more ignorant members mistook the large rose for the shamrock, and no argument could induce them to alter their opinion of the design. Brother Phillips and Assistant Marshal Livingston used every exertion to quiet the Brethren, but their efforts were found to be useless, the great cry being "down with the flags." Capt. Gaskin, who is a consistent Protestant, was present, but very properly refused to lower the flags, which were not in any way objectionable, and had every right to fly. The scene soon became one of danger. Stones were hurled at Capt. Gaskin's house, and two large missiles crashed through his windows, nearly striking his niece, who was standing in one of them. Stones were also fired at the flags, and persons in the crowd had narrow escapes from being struck. One man received a cut in the head with one of the missiles, and Capt. Gaskin was struck a heavy blow on the knee. The sword bearers in many instances flourished their weapons. At last the infuriated crowd resolved to tear down the flags, but not daring to trespass on private property, they found this a matter of difficulty; but, procuring a rope, they put a stone at the end of it, and after two or three unsuccessful attempts, got it over the rope, and about twenty of the excited mob hauled down the flags, amid the sturdier cheers of the rest. During the whole of the operation the cheering was kept up with spirit. The flags down, they were indelicately trampled on, and in the grasp of the mob were soon rendered into shreds. The Turkish flag and one or two nondescripts alone escaped their fury. In hauling down the rope suspending the flags, a portion of the chimney of the Misses Rice, to which one end was attached, was pulled down, and the bricks came tumbling down from the roof, through the shade trees, and dropped into a crowd of women and children, none of whom, strange to say, were seriously hurt. The demand of the Orangemen being now satisfied, they marched off in procession, headed by the fife and drums, which all along had done a great deal to excite the crowd by playing their party tunes. At the City Hall, before they were dispersed, they were addressed by Mr. A. Dawson, who endeavored to justify the outrageous act, denouncing the flags, we are told, as treasonable."

Messrs Layton and Bouchette of the Finance and Customs Departments, respectively, are about leaving to arrange some details in New Brunswick and Nova Scotia in these departments. The small pox is committing fearful ravages in some parts of Montreal.

The Halifax British Colonist, of the 17th July, inst., refers to the great reduction in the price of Flour, and the extra importations into that Port since the 1st of July, all of which the Colonist attributes to the happy effects of the "New Dominion." The state of the weather and the prospect of the grain crops in North America have not for many years been more favourable than this summer.—Why has the Editor of the Colonist been so obtuse as not to attribute this also to the magical effects of the first seventeen days under the atmosphere of the "New Dominion?"

In the Toronto Weekly Leader of the 19th July, inst, the Hon George Brown is referred to in no less than twenty-six editorial articles most of which are original, a few copied from other papers. In all of these articles Mr Brown's politics on his proceedings are disapproved of, and most of them bitterly commented on. Verily, the Editor of the Toronto Leader has a skeleton in his house. How it comes there may be thus accounted for.

We perceive by late New Brunswick papers that a railway accident occurred on the Shediac line last week by one of the freight cars running off the track. An Engineer was badly hurt and considerable damage sustained by the freight train. The Passenger car ran a narrow risk of being thrown down an embankment, but Providentially escaped.

Medical Notices.

Allow me to say a word for myself. I have been using Mrs. Winslow's Soothing Syrup in my family since it first introduced in this city. I think it an excellent article, and would not be without it on any consideration.—Extract from J. D. Adams' letter to Chicago Times.

Holloway's Ointment and Pills.—Unseemly Eruptions.—No means heretofore discovered are so apt to cope with and conquer all blemishes, boils, eruptions, redness and roughness of the skin, as these celebrated medicaments, which, to be praised, need only to be known. Holloway's remedies cool the system, regulate the circulation, and thoroughly purify the whole body, that whatever is hurtful must inevitably be swept away, and be succeeded by healthy structures, which alone can be derived from rich and pure blood. The cosmetic virtues of this unguent have been long appreciated; no toilet-table is well appointed which lacks its presence. It soothes and cleanses the most fine and tender skins, and when assailed by Holloway's Pills is the most valuable beautifier.

A Cough, Cold, or Sore Throat, requires immediate attention, as neglect oftentimes results in some incurable Lung Disease "Brown's Bronchial Troches" are a simple remedy and will almost invariably give immediate relief.

Perry Davis' Pain Killer.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS!

At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a stimulant, they know but little of its power in exciting pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

Ayer's Cathartic Pills

Are the most perfect purgative we are able to produce, and, as we think, has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or floundered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent Clergymen and physicians certify to the public the reliability of our medicine, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use of these medicines and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from bowels, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia, Gout, and other kindred disorders arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations on which they make more profit. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Wholesale and Retail Dealers in Medicines everywhere.
