

NO CHARGE FOR DELIVERY

Corporal M. M. (Marsh) Pyke, right, of 1386 Botsford Ave., Ottawa, "hangs a shingle" on the nose of a CP-100 bound for Germany while Flying Officer E.M. (Eric) Sinclair, of London, Ont., enjoys the humor of it all. Both men are connected with Operation Jump Moat V, an RCAF operation in which 15 CP-100 jet

interceptors are being ferried overseas to augment the four all-weather squadrons of 1 Air Division. The trans-Atlantic flight started this morning (October 22nd) from Uplands airport, Ottawa. Destination is the RCAF airfield in Germany, via Goose Bay, 4 Fighter Wing at Baden Soel-Labrador and Keflavik, Iceland.

AMONG THE FARMERS

Federation of Agriculture Newsletter

FIRST FROST

Tuesday night of this week produced the first general frost with the fields being coated white, a crust on the bare ground and some ice on the small ponds. Potatoes which were peeping through the ground would very likely suffer field frost and become a nuisance later on. So far this fall has produced a longer frost free period than average, usually mid-September has been the deadline for cutting corn but this year an extra month of grace has been allowed.

Quite large acreages of potatoes are still to be harvested and an unusually large amount of harvest for this time of the year remains to be salvaged. Considerable ploughing has been done but the greater part of this operation now appears to be left for the month of November.

REVOLVING FUND

A shipment of seed potatoes presently being assembled in Summerside for export to Venezuela has been the means of providing extra business for a variety of industries. The wooden crates in which these potatoes are being shipped have cost well over \$40.00 and used over \$30,000 worth of Maritime lumber, 200 kegs of nails, \$1500 worth of wire, \$3,500 in wages for putting the crates together and an equal sum for loading them. An export order of this kind is a valuable one and reflects very considerable credit on the initiative of the farmers which went out and got the business.

FARM FORUM

A week from Monday evening Farm Forum will get underway with a discussion on the topic, "What Price Freedom?" The farmer's freedom has always been a cherished possession. Has he forsaken it for economic security? Which is the most important? On the night of the 10th, the topic will be, "Orderly Marketing of Maritime Farm Products." This is a regional topic

and has been chosen as one of considerable interest to Maritime farm people.

Planning is now underway for the holding in each County of one Farm Forum Workshop for Secretaries and other interested persons who may be expected to provide support and encouragement for the project. On November 17 the Forums will be taking a searching look at our standards for evaluating livestock and the effect of exhibitions on them.

MARITIME MEETING

On Monday in Moncton, Maritime farm Organization people will be meeting with the ministers of Agriculture and their deputies prior to the Dominion-Provincial Agricultural Conferences in Ottawa. The purpose of this gathering is of course obvious and the fact that it is repeated from year to year indicates the value attached to it by those concerned.

DIARY PRESIDENT

In speaking to the National Dairy Council in Montreal recently Mr. W.B. Rettie the President of the Dairy Farmers of Canada had some very pertinent things to say. We are quoting some of these from the text of Mr. Rettie's remarks.

"In this matter of efficiency, I would like to point out that according to the Gordon Commission report between 1946 and 1953 the physical volume of output per farm had increased 30 per

cent and gross physical output per man hour by almost 75 per cent. The increase yield per acre and increased production per cow, also marks of efficiency, have greatly increased in recent years. In one area where surveys have been made, the average production per cow was found to have increased from 6,650 lbs. in 1924 to 8,530 in 1954. Increases along this line are constantly being achieved.

"One criticism of price supports is that it tends to create surpluses. In reality, a surplus of food is a national asset, and who has a greater responsibility to carry this asset than the people of Canada, through their gov-

ernment. The storage of food for future use is not new. We are all familiar with the story of Joseph storing corn in Egypt, which later saves his people from the ravages of famine. The producer is not in a position to carry extra supplies of foodstuffs, and it is certainly not the job of the operator, whose function is to take the raw material, process it, and

place it within reach of the consumer. "Some people have a tendency to look on price supports as charitable gifts to farmers, which very little attention is paid to millions of dollars worth of subsidies that provide a foundation for other sections of the Canadian economy. Millions of dollars are paid every year to support the gold and coal industries, to mention only two. The contribution of the Federal government to the administration of Unemployment Insurance amounts to about \$69,000,000 annually and is a direct benefit to labor and industry, but who makes any fuss about it?"

If the car industry sees an excessive inventory looming, they lay off workers who in turn are protected by Unemployment Insurance.

Some people without a full knowledge of the producer's problems suggest that the price of dairy products (particularly butter) should be lowered to the price at which butter could be imported, or to be price-wise competitive with substitute products. If either of these policies were adopted, then it would only be logical that those producing milk for any of the manufacturing branches of the industry should sell their cows and seek their "bread and butter" in the industries where the worker is guaranteed a minimum wage, a short work week holidays with pay, and unemployment insurance if he is out of a job.

CONSERVATION To ask agriculture to supply Canadians with their daily fare at world prices and buy their supplies under the protected conditions under which other branches of the economy operate is rank discrimination and can only be advocated by someone who is ignorant of the facts or has an unfair mind. The farmer has been accused of not conserving his land. If he has not conserved his soil as he should, it is only because over the years consumers

have been so insistent in their demand for cheap food that national policies were followed which compelled the farmer to mine his land in order to make a living.

UNITED NATIONS DAY

"Today the world of humanity is in need of international unity and conciliation. It is self-evident that unity of the human world and the Most Great Peace cannot be accomplished through material means.

Therefore it is evidenced that the promotion of the oneness of humanity, which is the essence of the teachings of all the Prophets of God, is impossible except through the power and the breaths of the Holy Spirit."

What happened to newspaper reading with the advent of TV?

STOPPED? FELL OFF? INCREASED?

ANSWER: NEWSPAPER READING INCREASED. A 10-year study of "Vidiotown" (New Brunswick, N. J.) made by Cunningham & Walsh advertising agency shows that of all major media, newspapers alone remained unaffected by TV's arrival in the American home. As a matter of fact, the study revealed that newspaper reading actually gained in popularity among adults in the home! Newspapers' popularity with people is a big reason for its popularity with advertisers.

THE EVENING PATRIOT

54" PANEL BED... CHEST... SINGLE DRESSER

PLUS ALL THESE EXTRAS!

- ALL STRAP SPRING
- 2 FEATHER PILLOWS
- 2 PILLOW CASES
- CHENILLE BEDSPREAD
- SPRING-FILLED MATTRESS
- 2 QUALITY SHEETS
- 2 DRESSER LAMPS
- 2 SCATTER MATS

Now, you can furnish an entire bedroom at one low, low price! Just look at the quality of this beautiful bedroom suite. Finished in beautiful walnut, this suite includes a 54" panel bed... big roomy chest... and single dresser, with crystal clear, 26" x 26" ventian type mirror... plus... a good quality all strap spring... an extra comfortable, spring filled mattress... two soft feather pillows... two Tex-made pillow cases... two Tex-made sheets... one Chenille bedspread in a choice of plain backgrounds with contrasting colored designs... two dresser lamps complete with shades... two Barrymore "Smyrna" scatter mats in a choice of attractive colors.

This wonderful ensemble is yours for less than you'd expect to pay for the bedroom suite alone. HURRY! This offer lasts eight days ONLY!

NOTE... the above ensemble is also available with bookcase bed and double dresser... yours for only 189.00... just \$10.00 down and 23 monthly payments of \$9.00 carrying charges included.
