

LOCAL AND OTHER MATTERS.

A fine half-length portrait of the late Chief Justice Jarvis, by Mr. R. Harris, is on exhibition at Harris's Bookstore.

COUNCIL ELECTION.—Finlay McNeill, Esq., is at present the only candidate for the vacant seat in the Legislative Council.

THE TEA AND ENTERTAINMENT in aid of Zion Church—held in Market Hall, on Thursday last—was a very successful affair. The net amount realized was upwards of \$250.

SLEIGH DRIVE.—"Sleigh Drives" are becoming popular here as well as in Halifax. A large party of ladies and gentlemen drove to Milton on Saturday afternoon.

CUSTOMS RECEIPTS at Charlottetown for the eight months ending 29th February, 1876, amounted to \$221,807, as against \$186,061, in 1875, and 101,033 in 1874.

DISSENTIONS IN BRITISH COLUMBIA.—A letter from Victoria, B. C., says that dissatisfaction at the treatment of British Columbia is daily increasing, and a separate government is openly advocated.

A CENTENARIAN.—Today we publish a notice of the death—in the hundredth year of her age—of Mrs. Thomas Robertson. The old lady enjoyed good health almost up to the time of her death.

CHARLTONA.—Hillsborough Curling Club assembled at the Citizens' Skating rink on Friday evening last, and played a match game for a ton of coal, to be given to the poor. The following is the result:—

Table with 2 columns: Name and Score. W. McKechnie 12 points, Geo. McLeod 29 points.

Dr. Strickland acted as umpire, and Messrs. Alex. Devine and W. C. Brunell as scorers.

THE COMING ELECTION.—We learn that the information we received last week, to the effect that the Hon. Wm. Richards would be a candidate for the representation of the First District of this County in the Legislative Council, was not well founded.

Richard Hunt, Esq., of this town, has been solicited by influential electors from both ends of the district to allow himself to be put in nomination. Owing to Mr. Hunt's absence at present from town, we are unable to ascertain his intentions.

SHREDDING AT MOUNT STEWART.—The Times reports that the following gentlemen are now erecting vessels of various sizes at Mount Stewart:

Mr. Edwin Coffin has two on the stocks, one of 400 tons and one of 250 tons, for Messrs. Peake Bros. & Co. of Charlottetown, as which he employs about 40 men.

Messrs. Coffin & Glover have also two under construction, one of 800 tons and the other of 300 tons for the same firm, giving employment to about 60 men.

Mr. James White has two in course of erection, one of 350 tons and one of 200 tons for Messrs. Longworth & Co. White, employing about 50 men.

Mr. J. R. Bourke is building two vessels of 200 tons each, and has about 40 men at work.

Mr. David Egan is also putting up one of 250 tons, where about 30 men are employed.

Mr. J. J. Fletcher is erecting one of 200 tons for Hyndman Bros. of Charlottetown, and one of the same size for himself, giving employment to about 25 men.

Building materials are being collected for more extensive operations during the coming season by the following persons, viz:—

Mr. Edwin Coffin, for a vessel of 300 tons to be built for Messrs. Peake Bros. & Co.

Messrs. Coffin & Glover for one of 300 tons for the same firm.

Mr. James White for a schooner of 100 tons for Messrs. Longworth & White.

Mr. J. R. Bourke for a juniper vessel of 200 tons.

Mr. David Egan for one of 130 tons for F. Newbery, of Charlottetown.

Mr. J. J. Fletcher for a vessel of 200 tons.

Mr. James Ross for one of 500 tons.

Mr. Duncan Coffin for a 250 ton vessel for Messrs. Duncan & Co.

Mr. Wm. Coffin for a 250 ton vessel.

Mr. Elisha Coffin for a juniper vessel of 200 tons for Messrs. Welsh & Owen.

A Montreal despatch of the 28th February states that M. S. Foley, editor and proprietor of the Montreal Journal of Commerce, was arrested to-day on a charge of attempted murder, the facts being as follows:—G. J. Brown, architect, boarded the St. Lawrence Hall, with his family, Foley and his wife also boarded there. Brown insulted Foley's wife by calling her ugly names which any other husband would have resented. An apology was demanded, which was refused. This refusal was given in Brown's room. There is no evidence as to who struck first. Each party accuses the other. Brown seized a hot poker lying on the sofa to strike Foley with it. The latter seized it, drawing it through Brown's hand, burning it to the bone. Brown's head was laid open. Other boards came in and prevented further violence. Foley appeared before the Magistrate and some evidence was taken, but the prosecution did not appear. In consequence of the serious nature of the charge, and the state of the prosecutor, bail was refused, but accepted in the case of Mrs. Foley, charged with complicity. Both parties are well known here. The affair creates considerable excitement. There is little or no sympathy for Brown, but much for Foley. The latter is respected, but the former is thought little of.

CORRESPONDENCE.

To the Editor of the Examiner.

The Summertime Progress undertakes to dilate on our civic affairs. Granting that there is a large amount of debt on the hands of the finance committee of our corporation, I believe they are but temporarily embarrassed, for a large proportion of the city taxes are yet uncollected, owing to the depressed condition of the labor market and the scant circulation of cash. The market revenue is also below the usual standard, for the same reasons. Charlotte-town city council, no matter how economically it may work, must of a necessity incur debts from time to time, for which its sources of revenue leaves it unprovided, and the probability is that the city will be often temporarily embarrassed so long as the Legislature limits its powers of raising sufficient by taxation or assessment for its current necessities. The loan to which reference is made is not so much required to liquidate immediate demands as to provide for future requirements for which the law makes no present provision. Let our Summertime baby grow in wisdom, and learn not to deride others before it has fairly donned its own 'swaddling clothes.' Its birth was scarcely announced, before, as I learn, it was a beggar to the government; and if it should be compelled to sue again, the better course would be to encourage its representatives to aid ours in obtaining a loan, in the safe hope that it might itself fall in a slice.

Summertime, perhaps, hardly realizes the fact that we are one-tenth of the population of the province, more wealthy, numerically, than an equal number over any given area of the same, using our full quota of the luxuries which the place affords, and contributing, consequently, more than any equal number of our fellow-colonists, to the general revenue. We are empowered by law to raise a limited amount by assessment, while at the same time we pay the ordinary taxes which make the revenue of the province, and have therefore aided our Summertime friends to build their jail and courts, to repair and make county roads and bridges, while the eighty cents a head, distributed for general purposes, is dealt over the province, save and excepting Charlottetown. The railway traffic cuts up our streets, and country produce travels over our roads in the common; and not a penny of the \$24,000 due us can we obtain. Country members of the Legislature are in arms against us for our just demands, and not only do they say they will prescribe our means, but they will whine and say we are behind the rate of progress of our Dominion sisters if we do not give them plank sidewalks and pavements to enable them to get cleanly to their hotels.

The increased police force has cost over \$1200, and the fire department has expended on sundry kinds of property, within the last three years, over \$800 more than were expended in the three previous years. As much has been expended within the last three years on macadamizing, in excess of the income for that purpose, as would pay the present liabilities.

The fire department is a continual drain on the revenues of the city, while there are no provisions whatever made for its increasing demands. Nevertheless, if we were to say to our chief engineer: 'You must restrain your zeal towards improvements in your department demanding outlay, and be content with what has saved us for the last ten years,' he would be, in my opinion, justified in saying: 'Supposing I resign, or permit disorganization in the department, what lesson may the next fire not teach you?' This department must therefore be made efficient, even should it materially increase the corporation. The present committee are accused, unfairly, of expending \$2,400 which were given the city on account of railroad damages. A larger amount than this has been expended on the streets, within the last two seasons, over and above the amount realized by the city for a macadamizing fund, as may at any moment be seen by referring to the accounts, while this same \$2,400 properly belongs to the street fund. But there is one fact overlooked in connection with all the discussions relating to civic expenditure, and it is this: the city has been improving, permanently-purchasing some necessary lands and buildings, and erecting other buildings, till the assets are over \$58,000—a financial condition of which very few cities can boast—while a baby in 'swaddling clothes,' and a few disappointed old ladies in *sortouts* whine over a state of civic affairs which they probably lack the ability to amend. Meantime let our younger sister contain herself till the publication of the civic balance sheet, when she may be better informed than she is at present.

CARDIGAN BRANCH

OF THE NONPAREIL CARRIAGE FACTRY AND AGRICULTURAL WORKS!

Good Work Triumphant!

NOTWITHSTANDING the Doll Times, the demand for my make of Carriages, Sleighs, Threshing Machines, Farmers, &c., in King's County, has rendered it necessary, in order to supply the rapidly increasing demand, that I should extend my business into that County. I have, therefore, at the request of a large number of my friends and patrons, opened a BRANCH FACTORY AT CARDIGAN BRIDGE, which is conducted by a competent mechanic, who serves his time in the "Nonpareil," and has since worked for several years in the United States—a mechanic who knows his business, and has such an interest in the work as to allow nothing but a faithful job to pass. He and several competent workmen will attend to the wants of the public in that County.

The stock used in the construction of the work will be of the best imported, viz:—American Hickory, Oak, Ash, Elm, Bass, Whiteoak, etc., etc. The iron will be of the best English refined; and Norway and Swedish iron will be used for the parts requiring extra strength and durability.

Also, in connection with the said branch is a PAINTSHOP, which is conducted by a first-class carriage-painter, who will attend to the painting of new and second hand work for the public.

N. B.—Persons wishing work done in the Carriage, Sleigh, or Farming Implement line, will please call and they will be treated courteously and fairly dealt with. All kinds of REPAIRING, including Mowing Machines, done. Prices Moderate; Terms Easy.
