

Snowflakes

Snowflakes, snowflakes come right down
Come right down and hit the ground.
They come down hard,
They come down soft,
It's just like playing in a loft.
When snowflakes go a prancing
They usually do some dancing.
Snowflakes are very pretty and white.
They shine and sparkle in the night.

- Leslie Logan
Grade 5
Marshfield School

November

I think November is rather nice,
because it is snowy and blowy,
and the ice is frozen, nice and white and sparkly.
You can get on your snowmobile and go snowmobiling.
You can play in the snow and make a snowfort and
keep your enemies out.
When they go away, you can come out and get some
snowballs,
And when the enemies come back you can go out and fight.

- Chris Ling
Grade 5
Marshfield School

As Snow Falls

How does it feel to fall to the earth?
It must be fun, or is it sad?
Do you like to be packed like a snowball?
You are a big mystery!

- Andy Carmody
Grade 3
Marshfield School

Snowflakes

Snowflakes are soft as silk,
When they are in the sky.
They seem to say,
"Don't let me fall
I don't want to go down
And be made a snowman, or a snowball.
Oh! please catch me and
Throw me up again.
Then I will make Christmas the happiest day
Of your whole life,
Because I am a Magic snowflake."

- Andrea Scott
Grade 4
Marshfield School

How the Snowflakes Fall

The snowflakes fall so softly
As softly as they can.
They aren't very happy
Because they get squished on the ground.
When the sun comes,
It melts the sad snowflakes.

- Yvonne Burke
Grade 4
Marshfield School
