

1964 Theme Highlight Of AYPA Stage Show

KENSINGTON - A show of high entertainment value was staged before a large audience on Monday night at St. Mark's Hall, Kensington, by the AYPA groups of the Island.

The tastefully decorated stage featured the colors of the AYPA blue and white. With Clair Sudbury as master of ceremonies, the two-and-a-half hour program opened with a solo, "Early in the Morning" by Julie Campbell of Kensington.

presively, and Norma Harrington also of Kensington, was heard in several solo numbers, self-accompanied on the guitar. The Summerdance group put on an unusual number, purporting to be a surgical operation performed by a thin curtain, and made effective by the lighting arrangement. The accompanying narrative was given by one of the group.

The "Fire Bugs" of St. Eleanor's entertained with song selections and Gwendy Campbell and Kathryn Campbell put on a skit, "The Fishing Pond". "The Court in Session" was a playette presented by Kensington and the final number was a humorous skit, entitled "The D. N. 1.1.1. S. e. e. n."

OIL WORKERS HOLD CONVENTION

Over 100 employees of the Irving Oil Ltd. of Prince Edward Island attended a one-day convention in Charlottetown yesterday and last night attended a company banquet

at the Basilea recreation Centre. Shown above are some of the convention delegates prior to the banquet. From the row are: Frank Daley, Summerside; W.R. Connolly, district

superintendent of P.E.I. and speakers at the banquet: and L.S. Mackenzie, Saint John, N.B., main speaker at the day session of the convention and Fleet Supervisor of the Irving Oil Company.

ROSSITER

(Continued From Page 1) resources; Daniel Wernlein, secretary - general, and Robert Lederman, administrative secretary.

Mr. Williston succeeds Wilfrid Spooner, Ontario municipal affairs minister, whose term has expired under the rotation system.

The letters patent give the council the authority to: "Advise governments on the most efficient policy for the development of natural resources; give counsel to governments on proposals relating to programs to be adopted, agreements to be reached and co-ordination of their policy with respect to natural resources; stimulate the social development of these resources."

WILL STUDY TRENDS

"Promote the inventory of production capabilities; study the way of suggestions for establishing priorities and, for this purpose, to ensure with regard to trade, tariff, fiscal, monetary or other policies which may have a bearing on the development of natural resources."

"Suggest specific studies and recommend their applications, and form study groups from among its members, its employees or outside experts."

A council spokesman said a review of federal - provincial co-ordinating programs involving renewable resources now is in the stage of being processed and assessed and the first part of it is expected to be ready for the annual meeting.

The spokesman said it is hoped the review will lead to "recommendations on new arrangements" in cost - sharing which do not require additional reported accumulation exceeding two inches.

A slight acceleration in its eastward trend is expected to carry this disturbance entirely out of the forecast district by this evening.

One-half inch of rain may be added to that already fallen in eastern New Brunswick while up to one-inch can still be expected in eastern Nova Scotia and Prince Edward Island.

Regional forecasts: Halifax and vicinity, Northern Nova Scotia, Eastern Shore, Prince Edward Island, Eastern N.B. Counties: Rain ending late in morning; cloudy with a few showers in afternoon, clearing by evening; continuing mild; southerly winds 15 shifting in afternoon to westerly 20.

Suggestions Are Given To Improve Community

ALBERTON - Claude Smith, director of town planning, addressed a group of West Prince citizens in Alberton District Regional High School Tuesday evening.

Speaking out of 12 years of experience in this type of work, Mr. Smith had much to offer the way of suggestions for community improvement a d beautification. He also knew the answers to many questions which were asked at the conclusion of his address.

Among suggestions for rural areas were the placing of name signs at the boundaries of districts, the placing of names of all churches, schools and halls and the landscaping of grounds on which they stand; and the placing of names on all mail boxes.

Those present expressed considerable concern regarding the destruction of trees and the leaving of unsightly excavations along highways following construction and the dumping of old car bodies and other refuse on roadsides and shores.

There was also reference to the number of dilapidated, unused buildings in sight of roadways.

Mr. Smith indicated that good work is being accomplished in some parts of the province through the efforts of community improvement committees.

He also spoke with enthusiasm of what improvements have been made as a result of the rural beautification contest each year and encouraged more people to enter them.

Mr. Smith was introduced by Mrs. Lloyd Wilkie and thanked by Mrs. James Gaud, Mrs. W. R. Oulton and Mrs. Burton Ste-

Former Islander Dies In Mass.

ALBERTON - Mrs. Fred Leavitt, Alberton, has received news of the death of her cousin, Arthur Larkin, a former resident of this town.

A son of the late Captain William Larkin and his wife, Barbara Proffitt, Mr. Larkin was born in Alberton some 31 years ago.

The greater part of his life was spent in the United States and his death took place in Roxbury, Mass. His wife predeceased him.

He is survived by three sons: a brother, Wellington, in Vancouver, and a sister, Mrs. Chester Partridge, (Ellis), in Roxbury.

Mr. Larkin was a member of the United States Army and served in World War I.

He was also a member of the United States Navy and served in World War II.

He was a member of the United States Air Force and served in World War II.

He was a member of the United States Marine Corps and served in World War II.

ARDA OFFICIAL ARRIVES IN CITY

Atter Sim, of Ottawa, who is attached to the rural development section of ARDA addressed a meeting in the Queen's Society Resources Development committee last night at the National P.I.I. Board's theatre in the Dominion Building. Any differences which may have existed between the P.E.I. Government and ARDA have been cleared up, said Mr. Sim, who went

on to show the extent of ARDA's work in the province. Mr. Sim is shown, left, as he was greeted at the airport by Reid Sangster, Director of Marketing for the province. (See story on page one.)

COMMIT SUICIDE

LONDON (CP)—A leading article in the British Medical Journal says that an average one doctor in Britain kills himself each month. It says that six per cent of all doctors' deaths under the age of 65 are from suicide.

MacRae Claims Educated Away From The Farm

Through addresses by special speakers and a series of panel discussions, the P.E.I. Federation of Agriculture yesterday explored and examined the subject of Agriculture Education. The one-day conference was held at the Vocational Institute.

One of the main points to come out of the many questions raised was "how to improve the image of the farmer" in order to stimulate more interest in the young in choosing farming as a career, or "way of life".

Agriculture Minister Andrew MacRae expressed when he was that young people today were being educated away from the farm, and Education Minister I.G. MacIsaac felt that pupils at the elementary school level might be encouraged in farming by being taught the curriculum through the use of "ways of life".

Dr. Dewar was of the opinion that the high school curriculum leading to matriculation was already crowded, but perhaps some agricultural subjects could be made optional with a diploma award.

One who may have a different view is J. C. MacDonald, principal of the vocational school at Summerside, stated it was planned to have agricultural courses available next year at both Charlottetown and Summerside vocational centres.

A panel headed by Mr. MacDonald stressed the need for suggestions and advice from farmers themselves and expressed the belief that an organization like the Farmers' Federation could do much to stimulate interest in many districts.

Farm management was considered a subject of major importance but panel members felt strongly that the farmers of the future required some form of change in their education, poultry, welding and motor mechanics as well the theory of farming.

It was the feeling, too, that some farmers should rid themselves of the idea that because they made successful farmers with a limited education.

S'port Resident Assessed A Fine

In city police court yesterday before Magistrate H.J. Handman, Q.C. Lowell Hollis Jenkins, Southport, was fined \$10 and costs or five days for speeding.

Three men appeared on charges of being drunk and incapable, one was fined \$10 and costs or five days and the other two were remanded to court for a later date.

Three men charged with failing to stop at a red traffic light was fined \$10 and costs or five days.

Suspension Case Is Adjourned

Charged with operating a motor vehicle while his operator's license was under suspension, Thomas Leamy Reid, Hunter River, had his case adjourned to April 29.

Another case charged with failing to stop at a red traffic light was fined \$10 and costs or five days.

Others Change Prices

"They know that the barbers can get together and change the price of operations, that dentists can get together and change the price of fillings, that the packers already agree on the price of meat, that the caterers set the price of the price of clothing, and that the dentists set the price of X-rays. The farmer buys at prices set by somebody else."

Dr. Dewar was of the opinion that the high school curriculum leading to matriculation was already crowded, but perhaps some agricultural subjects could be made optional with a diploma award.

One who may have a different view is J. C. MacDonald, principal of the vocational school at Summerside, stated it was planned to have agricultural courses available next year at both Charlottetown and Summerside vocational centres.
