MISCELLANEOUS.

Woman and her Domestic Rights.—The genius of woman for every duty of a domestic character is so evidently superior to that of man, that a young girl of sixteeen, without any experience whatever, is better qualified to keep house than a man of forty or fifty, who has all the experience that a life of travel and activity can furnish. Man never can be housekeeper; and nature has very wisely ordained that his pride shall prevent him. There is a specious of silliness about a man who interferes minutely with domestic affairs; and a house is is never comfortable, either to inmates or visitors, where the woman does not rule and where the man does not submit. The proper duty of a man is to bring provision to the house, but once brought in, it is the woman's duty to distribute it. He resigns it to her charge, and so long as she knows herself worthy of confidence, her supremacy in the distributive department ought ever, for the sake of man's personal dignity and happiness, to be acknowledged and maintained. As home is woman's kingdom, so nature has qualified her for taking the lead in all the social enjoyments of life, of which home is the scene. At festivities of every description woman occupies the first place: she is the first to whom visitors pay their obeisance, her word is law, in the gay assembly even the husband must assume the appearance of submission—the law of etiquette requires it. The submission may not be real, but in the apparent submission lies strength of the argument in favour of woman's moral superiority. Society accords her unanimously this privilege, and though she may not herself always individually deserve it, her sex collectively is considered to be entitled to it.

An Ancient Paper Mill.—The old paper mill says the *Wet Chester Register*, in which the paper was manufactured used by Benjamin Franklin in his' printing office, is still in operation on Chester Creek, Delaware county, and owned by Mr. Wilcox, the son of the gentleman who held it during the lifetime of Franklin. The paper was made at that time and is still manufactured by hand. Scarcely any change has been made in the mill, and the same process of making rags into paper is in operation to day as was followed some odd hundred and forty years ago; the mill having been erected in the year 1713. Mills, alluded to above, have long been exclusively devoted to the manufacture of bank note and map paper, of course by hand. The paper for the notes of the old United States Bank, of which much was said at the time, was made at this establishment. The paper *Bandana* handkerchiefs were shreded and mixed with the pulp to produce a red streak, then for the first time adopted in bank note paper.

Use of the Nose.—We always thought the nose was meant for higher purposes than mere sneezing, and now the secret is out. So says an American paper:—"Important to nurses. We have been much amused by beholding one of the readiest modes of silencing squalling children we remember to have either read or heard of. So desirable a piece of knowledge is worthy of being universally known, and we therefore give it publicity. Take a child in its cross fits, and press your finger across the cartilage of the nose, and in less than a minute it will be asleep.

A fellow came to see his intended wife, and for a long time could think of nothing to say. At last a great snow falling, he took occasion to tell her that his father's sheep would be undone. "Well" said she, kindly taking him by the hand, "I'll keep one of them"

Spiritual Attraction.—A minister having occasion lately to visit one of his parishioners in the way of condolence regarding her husband, who, the worthy goodwife had too good cause to suppose was in a backsliding condition, remarked, after some conversation. "Well, Janet, could you think of any plan we could fall on to induce Andrew to attend the church again?" "Aweel," said Janet, after a pause, "I ken o' nane' sir unless you would set down a whisky bottle and a tobacco pipe in the top of the seat."

A Kind Husband.—The latest definition of a "kind husband" is one who sits and smokes after breakfast, while his wife with a child on one arm and a pail of water on the other, pursues her washing. Our chambermaid Sally, who expects to have a husband of her own when her time comes, says if that is a description of a "kind husband," it's a meaner "kind" than she wants anything to do with. She says her idea of a kind husband is "a nice young man, who will fetch the water, do the churning, shake the carpets, run on errands, and rock the cradle." Sally having forgotten something up stairs, suddenly departed, without finishing the list of qualifications.

Mechanics, Inventors & Manufacturers.

$450. IN SPLENDID PRIZES. $450.

VOLUME IX of the *SCIENTIFIC AMERICAN* commences on the 17th of September. It is chiefly devoted to the advancement of the interests of *Mechanics, Inventors, Manufacturers, and Farmers*, by the diffusion of useful knowledge upon these important branches. It is edited by men practically skilled in the arts and sciences, and is widely regarded as a standard and able journal. Reports of the Valuable Patents which issue weekly from the Patent Office are Illustrated with Engravings, and the Claims of all the Patents are published in full in the Journal; thus making the paper a perfect Scientific and Mechanical Encyclopedia for future as well as present reference. The Scientific American has a very extensive circulation—its circulation in the last Volume exceeding 18,000 copies per week. It is in form for binding; each volume contains Several Hundred Engravings and over Four Hundred Pages of Reading Matter, with an Index. The *practical receipts* alone are worth to any family much more than the subscription price.

The Publishers offer the following valuable prizes for the largest list of subscribers sent in by the 1st January next:—$100 will be given for the largest list; $75 for the second; $50 for the third; $45 for the fourth; $40 for the 5th; $35 for the 6th; $30 for the 7th; $25 for the 8th; $20 for the 9th; $15 for the 10th; $10 for the 11th; $5 for the 12th. The cash will be paid to the order of the successful competitor, immediate y after January 1st, 1854.

Terms.—One copy one year, $2; one copy six months, $1;

VETERINARY PRACTICE,

Under the Patronage of His Excellency Sir Alexander Bannerman, *Knight.*

GEORGE LORD, begs leave respectfully to intimate to his friends and the public in general, that he has resumed his practice in the Veterinary Line, under the Excellency his Patronage of Sir Alexander Bannerman, Knight.

After a successful practice of 27 years—14 in England and 13 in America—in the course of which he has been alternately employed, though his wish, in saving, for their owners, the lives of many valuable Horses and Cows; he hopes that, in now soliciting a renewal of Public Patronage, he may be permitted to say that he considers himself as not unqualified to prescribe Medicines and preform Operations, in the capacity of a Horse and Cow Doctor, as any individual who has ever practised in that line in this Colony; and he, therefore, presumes that he may confidently look forward to a renewal of that patronage which he formerly enjoyed in this Island.

Residence—Next door to the Victoria Hotel, Water Street, Charlottetown.

Reference—Messrs. DesBrisay & Co. Apothecaries' Hall. At the Depot of the Royal Agricultural Society.

June 13th, 1853.

The subjoined is a copy of the Certificate which Mr. Lord has received from His Excellency.

George Lord, has attended, and prescribed for some of my Cattle and Horses on the Farm, he has done so successfully, and I shall readily employ him again A. Bannerman, Lt. Governor.

BELLS! BELLS! BELLS!

THE Subscribers manufacture and keep constantly on hand, all sizes of Church, Factory, Steamboat, Ferry, Academy, School House, and Plantation Bells, with the best description of Hangings.

These Bells are made from the *best* stock, and the small size—the larger the same process in manufacturing as Church Bells. An experience of thirty years, with a great many *recent* improvements, and an entirely new method of casting, enables us to obtain the most melodious tone, combining also, in extraordinary vibration.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have fifteen Gold and Silver medals at our office, which were awarded for the "best Bells for sonorousness and purity of tone." We pay particular attention to the getting up of Chimes, and can refer to those furnished by us. Our establishment is contiguous to the Erie and Champlain Canals, and Railroads running in every direction, which brings us within four hours of New York. Cash paid for old Copper. Old Clocks. Levels, Compasses, Transits, Theodolites, &c., for sale, of superior workmanship. All communications must be post paid if thirty years will have immediate attention.

Leonard Scott & Cos.' LIST OF British Periodical Publications.

FORWARDED to order, under the provisions of the late Post Office Law, at merely nominal rates.

1. *The London Quarterly Review (Conservative).*
2. *The Edinburgh Review (Whig).*
3. *The North British Review (Free Church).*
4. *The Westminster Review (Liberal).*
5. *Blackwood's Edinburgh Magazine (Tory).*

These Reprints have been in successful operation in this country for *twenty years*, and their circulation is constantly on the increase, notwithstanding the competition that has sprung up, within that period, of similar class, and from the numerous *Eclectics* and Magazines made up of selections from foreign periodicals. The fact above clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption.

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents relate to political subjects. It is their *literary* character which gives them their chief value, and in that they stand confessedly far above all other journals of the class. *Blackwood*, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notabilities, which first appeared, and first appearing in its columns, both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," by Bulwer), "My Publisher Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by the publishers of the pages of Blackwood, after it has been issued by Messrs. Scott and Co., so that Subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

The "HORTICULTURIST," And Journal of Rural Art and Rural Taste.

THE Subscriber, who has long been connected with Mr. Barry, as one of the editors of the *Genesee Farmer*, has purchased the *Horticulturist*, so ably conducted by A. J. Downing, and after the conclusion of the present volume, PLATES will be published at Rochester, and Edited by P. Barry, assisted by many of the best Horticulturists of the country whose communications will very much add to its value. The ARCHITECTURAL DEPARTMENT will be conducted by gentlemen of ability and reputation.

To render the work accessible to a greater number, and consequently more beneficial, the price will be reduced to Two Dollars per year, *in advance*, and at the same time numerous improvements made. Each number will contain a full page engraving of some new, rare, and valuable fruit or flower, drawn from nature, and engraved in the best manner.

Still further to add to the value of the work, and meet the improving taste and increasing wants of the horticultural community, we shall also publish an edition with COLORED PLATES of each number containing a full page engraving of some new, rare, and valuable fruit or flower, correctly colored from nature, by the best artists we can employ in the line. This will be a new and important feature, in this country, and must command the attention and patronage of both professional and amateur Horticulturists. As the number of plates will be small, the finish will be limited, from the care and time required in their preparation, those who wish the *Colored Edition of the Horticulturist* for 1853, will do well to order immediately. Price with colored plates, Four Dollars, *in advance*.

All who cultivate fruit or flowers, should read the *Horticulturist*, as it is devoted entirely to Horticulture, and its kindred arts, Landscape Gardening and Rural Architecture, and will keep its readers advised of everything now on the subject, either in Europe or America.

It will be our aim not only to make the *Horticulturist* equal in style and matter to any work of the character in this country, but equal to any of the Horticultural Journals of Europe; and we confidently ask the aid and co-operation of the Horticulturists of the country. The work published monthly, and contains forty-eight large pages, without advertisements, stitched in a beautiful and appropriate cover.

A CARD.

MRS. WINSLOW TO THE LADIES.

MRS. WINSLOW, a regular educated nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for children teething, which greatly facilitates the process, relieves from pain, allay all spasmodic action, softens the gums, reduces inflammation, and is sure to regulate the Bowels. Depend upon it Mothers, it will give rest to yourselves and relief and health to your children.

Price, 25 cents per bottle.

We have used very large quantities of Mrs. Winslow's Soothing Syrup during several years, several thousand the last year. We believe, it the best medicine in the world for children teething or for the cure of Dysentery, which so frequently arises from teething or any other cause. It gives universal satisfaction—never never heard a complaint from any who have used it, but all concur in pronouncing it an successful in relieving pain and effecting cures—relief is *a absolutely sure*.

WONDER OF THE WORLD.

Gravel Cured of five years standing

Messrs. CURTIS & PERKINS, Bangor, Me.

Gentlemen,—I have much pleasure in informing you, by the us of your *Cramp and Pain Killer*. I commenced taking the Cramp and Pain Killer in the Spring of 1847. I had been afflicted with the Gravel five years previous; some four or five years of the time I suffered beyond all my powers to describe.

During this time, I have had medical aid, and tried various spe- cifics, but found very little relief until I obtained your Cramp and Pain Killer. In one month after I commenced using it, I began to grow better. I continued to use it for a year, all the time improving until I was entirely cured. Miles Staples.

Prospect Me., Jan. 29, 1851.

We, the undersigned, are well acquainted with the above case, and certify to the above statement of facts,

Charles Clifford,
Hannibal Clifford,
Stanton Ellis.

Doctor Toby, a regular practising Physician, of East Machias, writes us under date of March20, 1847.

"Please send me half a gallon of your Cramp and Pain Killer—it is the best medicine to cure what it is represented to, that I ever saw.

The Doctor first made use of it in his own case, for a severe sprain in the shoulder, caused by the upsetting of a stage, and found immediate relief, and has since used it in his practice.

Read the following. It speaks for itself.

RHEUMATISM CURED.

I certify, that I was afflicted with a violent Rheumatic pain in the small of my back, which entirely disabled me, so that I could not get up without the greatest pain and effort; and could not walk without a cane, and but very little with. I applied Doctor Johnson's Anodyne Liniment, or Liquid Opodeldoc, and several other remedies, without any relief. After suffering in this way about a week, I purchased a bottle of *Cramp and Pain Killer*, prepared by Curtis & Perkins, Bangor, and after *three applications* was entirely relieved, and from pain, and am now entirely well. I also cured a friend of mine, who had been suffering for a long time with a lame side, with the same bottle. I believe it the best liniment in the world, and am happy to add my testimony in its favor

Astonishing efficacy of the Oxygenated Bitters,

IN A CASE OF EIGHTEEN YEARS' STANDING.

From Fitzhenry Homer, Esq., of Boston, Mass.

Boston, September 28, 1848.

Dear Sir—It is now eighteen years since I was first troubled with the water-brash and derangement of the stomach. I have taken advice of the best Physicians in this city and New York, in London, Paris, Germany, and Italy, and tried their prescriptions, and visited the several sulphur and other springs in this country, the watering places of Germany, and elsewhere in Europe, and had found no relief. Since taking the Bitters I have never had a return of the Water-brash, which daily troubled me of late years to a very great degree. My appetite has returned; the extreme flatulence, severe constipation of the bowels, general debility, and sleepless nights under which I suffered, have entirely left me. Having found so great relief from this most discouraging disorder. I feel it incumbent on me, as a trial of your medicine to many of my friends, who are now using it to great advantage. And I cannot refrain from writing to you in its favour and praise, for the good you have bestowed upon the community; and trust that what little is in my scope to offer in extending the circulation of your "Oxygenated Bitters," will be done with grateful pleasure at all times.

Yours very respectfully,
FITZHENRY HOMER.

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Penny worth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad Washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, Colored PRINTS, MUSLIN and LACE.
