County of Kennebec, SS.

ZINA N. WITHAM
vs.
GLADYS DALZIEL, ET ALS

To the Superior Court in and for the County of Kennebec and State of Maine:

Zina N. Witham of Augusta in the County of Kennebec and State of Maine respectfully petitions and gives this Honorable Court to be informed:

FIRST: That he is the owner and in possession of a certain lot or parcel of land with the buildings thereon, situated in said Augusta on the corner of Western Avenue and Amherst Street and bounded and described as follows:

Beginning at a stone post on the southerly line of Western Avenue and the easterly line of Amherst Street and running southerly on said easterly line of Amherst Street one hundred (100) feet to a stone post; thence easterly seventy-five (75) feet to a stone post; thence northerly one hundred (100) feet to Western Avenue; thence on the south line of said Avenue seventy-five (75) feet to the first mentioned bounds.

SECOND: That your petitioner claims an estate of freehold in the whole of said real estate above described and claims to be absolute owner in fee simple thereof.

THIRD: That the source of title of your petitioner is as follows: Deed of Elizabeth S. Haynes to Manley D. Farnham, recorded in Kennebec County Registry of Deeds, Book 509, Page 36; George H. Wadleigh, Administrator, to Annie Farnham, recorded in said Registry of Deeds, Book 639, Page 144; Annie Farnham to George Wadleigh and Charles West, recorded in said Registry of Deeds, Book 746, Page 96; George H. Wadleigh to Charles H. West, recorded in said Registry of Deeds, Book 750, Page 299; and deed of Charles H. West to Zina N. Witham.

FOURTH: That your petitioner and those under whom he claims have been in open notorious, adverse and uninterrupted possession of said property for more than twenty-one years preceding the date of this petition, viz: July 8, 1926.

FIFTH: That an apprehension exists that said Gladys Dalziel, whose present whereabouts is unknown to your petitioner, and persons unknown claiming as heirs, devisees or assignees, or in any other way, by, through or under said Gladys Dalziel, claim or may claim some right, title or interest in the premises hereinbefore described, adverse to the estate of your petitioner, and your said petitioner alleges and avers under oath that said claimant and her residence is unknown to your petitioner.

SIXTH: That the aforesaid apprehension creates a cloud upon the title of your petitioner to said premises and depreciates the market value thereof and prevents an easy sale of the same.

WHEREFORE, your petitioner respectfully prays that the said Gladys Dalziel, her heirs or other unknown persons as aforesaid, may be summoned to show cause why they should not bring an action to try title to the above described premises and set up their claim therein, if any they have.

Dated at Augusta, Maine, this 14th day of April, A.D. 1954.

Toronto Stocks

western oils had weak spots during the session. Base metals enjoyed all-day strength. Bathurst issues were off, uraniums were steady and Manitouwadge issues higher.

In western oils Canadian Devonian, which countered the losing trend Wednesday, dropped 20 cents Thursday. Peace River Gas lost 50 cents after a more-than-$1 drop Wednesday.

Report Vacuum Tubes In Radio To Be Replaced

QUEBEC, (CP) — Two Canadian scientists said Wednesday little gadgets the size of a man's thumb are going to replace vacuum tubes familiar to all radio set owners.

E. L. R. Webb, in charge of electronic equipment for Canada's air defence group, and P. A. Redhead, in charge of electronic tube development at the National Research Council, described applications of these "mighty midgets" of the electronics industry in a paper presented to the 68th annual meeting of the Engineering Institute of Canada.

The gadgets, called transistors, are capable of controlling large amounts of electrical power and will find their use in industry and defence, the two scientists said.

Transistors have found wide use already in telephone equipment and hearing aids. Other industrial applications have not generally been worked out because transistors have just recently become available in some quantity and because circuit designers must be "reeducated" to their use.

Naval Officers Open Conference

OTTAWA, (CP) — The 11th annual conference of senior officers of the Canadian Navy opened Wednesday at naval headquarters.

Naval policy during the coming months will be reviewed at the conference, which will continue through Friday.

An address by Defence Minister Claxton started the meeting. Vice-Admiral E. R. Mainguy, chief of naval staff, is conferente chairman.

Represented at the meeting are the naval board, the three naval commands—Atlantic, Pacific and naval divisions—and the Canadian joint staffs in Washington and London.

Out-of-town officers include: Rear-Admiral R. E. S. Bidwell, flag officer Atlantic coast, Halifax; Rear-Admiral J. C. Hibbard, flag officer Pacific coast, Esquimalt, B. C.; Commodore K. F. Adams, commander of naval divisions, Hamilton; Commodore M. A. Medland, naval member of the Canadian joint staff, Washington; Commodore H. S. Rayner, commander of the aircraft carrier Magnificent; Commodore Keneth L. Dyer, Commodore, RCN barracks, Esquimalt; and Capt. J. V. Brock, naval member of the Canadian joint staff, London.

Fire Marshals Hold Convention At Montreal

MONTREAL, (CP) — Canadians have inherited buildings designed and built to burn, R.A.W. Switzer, Saskatchewan's fire commissioner and president of the Association of Canadian Fire Marshals, said Tuesday.

Addressing a joint convention of the Fire Marshals Association and the Dominion Fire Prevention Association, Mr. Switzer said, "The new chemical age has created many new fire hazards.

"There are buildings today, stacked high with inflammable merchandise, made of products which 10 years ago were unknown". He referred, he said, "to synthetics and plastics."

W. J. Scott, Ontario's fire marshal, said Britain and Italy are spending millions of dollars on fire fighting schools and formulating new techniques. Canada lagged far behind in such planning.

R. F. Legget, director of building research for the National Research Council, told the meeting of a new revised national building code which will be released June 1. The new code would make it possible to caltulate the fire hazards in any building.

Luncheon guest speaker George S. Mooney, executive director of the Canadian Federation of Mayors and Municipalities, said the twin factors of industrial decentralization and threat of the atomic bomb brings a new dimension to the role of municipal fire departments. He advocated maximum standardization in equipment and training.

Three-Year Term For Drug Offense

MONTREAL, (CP) — Moe Gallagher, 54, convicted five times for drug offences since 1952, was sentenced Tuesday to three years in penitentiary and fined $200. In default of payment he will serve an additional year.

Gallagher pleaded guilty to possession of narcotics.

In the case of Robert Castonguay, 40, who faced two charges of peddling drugs and two charges of possession, Roger Ouimet, federal prosecutor, said he would apply to the minister of justice to have Castonguay charged with being an habitual criminal.

Mr. Ouimet said Castonguay had been convicted 21 times for various offences in Montreal, Quebec and other centres. Preliminary hearing was set for May 18 and Castonguay was refused bail.

Maurice Dubuc, 32, third of the trio arrested following undercover work by an RCMP officer, was arraigned on two charges of peddling narcotics and two charges of possession. He was granted bail of $2,000 and preliminary hearing also set for May 18.

18-Month Term For Counterfeiting

QUEBEC, (CP)—Gerard Gagnon, 36-year-old Quebec City exporter, Wednesday was sentenced to 18 months in jail for conspiring to produce counterfeit Canadian banknotes. He was found guilty Tuesday.

Gagnon and Paul and Andre de Chavigny de La Chevrotiere, who are awaiting trial on the same charge, were arrested in March, 1953 in a Quebec provincial police raid on a home at nearby St. Gabriel de Valcartier. A large quantity of printing material was seized.

Judge Achille Petticrew of Court of Queen's Bench told Gagnon it was only as a result of the pleas of his wife that he wasn't handed a stiffer sentence.

Top British Oil, Gas Producer

LONDON, (Reuters) — Canada was the top British Commonwealth producer of oil and natural gas during the first three months of this year, the Petroleum Information Bureau said Monday.

Of 5,200,000 tons produced in the Commonwealth, Canada accounted for 2,980,000. The Canadian figure was 1,040,000 tons more than in the same period a year ago. The Commonwealth total was up 1,200,000 tons.

Can. Civil Defence Ahead Of U. S. Says College Head

MONTREAL, (CP)—The head of Canada's new civil defence college said Tuesday he thinks civil defence planning in this country is further advanced "in many respects" than in the United States.

Maj.-Gen. M. H. S. Penhale, commandant of the Canadian Civil Defence College at Arnprior, Ont., did not elaborate but added that "the civil defence setup in both countries is still very patchy."

Gen. Penhale was interviewed before addressing the Association of Canadian Fire Marshals. He said the Civil Defence College, set up two months ago, has already enrolled 600 volunteers from all parts of the country.

Second World War veterans from Britain are among the instructors lecturing on 15 different courses of civil defence.
