J. H. BELL

The Bargain Boot and Shoe Store.

IMITATION IS THE SINCEREST FORM OF FLATTERY.

The best proof that

MINARD'S LINIMENT

has extraordinary merits, and is in good repute with the public, is, that it is EXTENSIVELY Imitated. The imitations resemble the genuine article in appearance only. They lack the general excellence of Genuine

This notice is necessary, as injurious and dangerous imitations, called WHITE LINIMENT, &c., liable to produce chronic inflammation of the skin, are often substituted for MINARD'S LINIMENT by Dealers, because they pay a larger profit.

They all Sell on the Merits and Advertising of MINARD'S.

One in particular claiming to be made by a former proprietor of MINARD'S LINIMENT, which simply is a lie.

Queen St. Opp. Prowse's.

FROM THE FRONT.

Wm. Harris of "G" Company Writes.

Mrs. William Harris has received two letters from her husband, who is serving with the First Canadian Contingent. The first is dated Orange River Colony, May 28th, and the other Kroonstadt, June 1st. He writes:

I am about to leave from here, Bloemfontein, for Kroonstadt. I have had a hard rub of enteric fever and am just getting better. It has stayed with me ever since the Zand River fight. I could have gone to England if I had wished to, but have decided to go to the front again.

The regiment is at Johannesburg and I am on my way to join it. When you receive this I hope the fighting will be over. It is no snap. The marching is one of the worst features of the campaign. My feet were so sore that I had to take off my boots and march barefoot. But that was nothing compared with some of the boys' sufferings.

The nights are very cold, more so than ever I felt; it is because the days are so warm.

I have had the great pleasure of speaking to Lord Roberts' daughter and wife in the Red Cross depot. They are not very conspicuous persons. Lord Roberts is the very picture of the plates we see of him. He is very short and has a very wrinkled face.

There is very little to tell. You will hardly believe me when I state that at the Zand River fight I fell asleep behind an ant hill and in the thickest of the fray. The shells were screaming above us and the rifles cracking around us. One of the boys raised his waterbottle to drink and a shot struck the ground where his body had lain. But I will tell you all about it when I get home.

Accompanying the letters are two cards with the following inscribed upon them:

IN REMEMBRANCE OF

CRONJE

who succumbed to an attack of "Bobs" on Majuba Day, Feb. 27th, 1900.

"Not lost, but gone before" — to St. Helena.

No more will Cronje roam the veldt,
In exile he doth yearn;
For justice unto him is dealt
As many more will learn.

Tho' taken away from a world of strife,
He leaves a "Steyn" behind him.

SUGAR BEET CULTURE.

Mr. Editor,—Referring to a letter which you were kind enough to publish in an issue of your paper last April, in which I directed the attention of the farmers of P. E. Island to the success attending the cultivation of the sugar beet in Michigan and other parts of the United States, I may say that according to the offer that I then made I distributed 130 lbs. of seed among some of our leading farmers—in all about 120 packages. This seed, which I procured through Mr. McMullen, of Watertown, New York, was grown in Michigan, and was of the most improved variety.

I take this means of asking those to whom packages were sent to cultivate for a good crop, and give me a sample of the weight grown from the seed sown, and to forward here, as early in the fall as possible, a sample for testing at the Experimental Farm. This is necessary in order to test the success of the experiment, and I trust that a sufficient number will be public-spirited enough to have those tests made so that the result will be published for general information.

I have some confidence in the possibility of P. E. I. being suitable for the growth of sugar beets containing a fair share of saccharine. One or two factories in P. E. I. would give a new impetus to agriculture. With a scheme of railway extension such as was proposed by the late Minister of Railways in 1896, and which is now strongly advocated, facilities for transport would be had equal to any in the United States, for an equal territory, which would be a strong factory, contributing to the success of a sugar beet factory, as it would also in the butter and cheese industry, which is now one of the most successful and important in the province. Everyone will admit that the growing of oats, with the prevailing low prices, makes its growing unprofitable for export, and that some change is necessary. Railway extension would not only provide the large section known as Belfast and Murray Harbor with transportation facilities, but Covehead, Rustico, New London, Victoria, West Cape, Elmira, etc., would be provided for, and a substantial benefit would be conferred on the whole province at a comparatively small cost.

I may say that the seed furnished by me is the variety most successfully cultivated in Germany. Prof. Saunders, of the Experimental Farm, to whom I sent a parcel for trial, writes me that "the seed germinated well and at present very promising." Again expressing the hope that those experiments may be successful, and that those to whom trial packages were sent will co-operate with me in having proper tests made of the quality, etc., of crop.

Yours very truly,

A. MARTIN.

P. S.—I trust that newspapers which so kindly published my first letter will further favor me by publishing above for general information.

A. M.

TEMPERANCE.—Victoria Division 8. of T. meets every Monday at 8 o'clock. Visitors always welcome.

NOTES AND COMMENTS.

—In the event of war with China it is probable that British troops will be sent by way of Canada.

—It is evident, from the result of the last vote in Parliament, that the Liberal Government made a bad break when it set about white-washing a fraud upon our soldiers. Honest Liberals, however strong the party tie, cannot be led beyond a certain point. They will not tolerate either the valine fraud or the Pineau Government.

—One of the Tammany delegations, starting from New York for the Kansas City convention, took fifty bottles of beer a head, besides other more potent provender, to last the members through a two days' trip. There are not many prohibitionists among the New York Democrats.

—The Mad and Empire remarks that "the seventeen cabinet ministers at Ottawa have just dismissed the caretaker of the Dominion buildings at Fredericton and the inspector of gas at Charlottetown. No cause is assigned. The only irregularity of which they have been guilty is that of having sons fighting for the Queen in South Africa.

Germany's Navy.

BERLIN, July 5.—At a banquet at Wilhelmshaven of the officers of a club subsequent to the launching of the warship Wittelsback, Emperor William made some emphatic declarations upon the subject of Germany as a sea power, asserting that the ocean was indispensable to Germany's greatness and that no great decision could ever again be reached in respect to the sea without consulting with Germany and the German emperor.

"German people," said he, "did not conquer and shed blood years ago in order to be trust aside when great foreign problems are being settled. If that had happened then the position of the Germans as a world power would have been at an end. I am not inclined to allow matters to reach such a pass. It is the emperor's duty and highest privilege to employ suitable and even the sharpest methods to prevent it." The German emperor expressed it as his conviction that in this matter the princes of Germany and the entire people were closely arrayed behind him.

Situation in China

LONDON, July 5.—A despatch to the Daily Telegraph from Canton, dated July 1, says that business is almost at a standstill. The large Chinese steamship companies are applying for leave to transfer their vessels to the American flag. An attempt to demolish the Wesleyan Missionary hospital at Fatsion was defeated by Canadian, American, and English missionaries. Another reverse to the allied troops would precipitate a massacre of foreigners in the south, which Li-Hung-Chang would be utterly unable to avert. He recently outwitted the Sun-Yatsen party by buying thousands of Mauser rifles at Macao. He is increasing his troops, the correspondent says, adding another one thousand guards to those at Canton, and recruiting two divisions of 7,500 each.

SUICIDAL DYSPEPSIA.

Positively Averted by Using Dodd's Dyspepsia Tablets.

Does Dyspepsia kill?

Yes! In thousands of instances Dyspepsia has given the invitation to death. This may be a startling statement. But it is a true one.

Dyspepsia unchecked causes a melancholy, hopeless feeling. Soon this merges into dark and dreary despondency. Then follows insanity—which is the second stage of despondency.

The invariable tendency of all who suffer from melancholy insanity is to commit suicide. In nine cases out of ten they succeed.

Thus Dyspepsia leads to death. Now, there's not the least necessity for this. It need not be so, and can be prevented as easily as you can fall asleep. There's no secret about how it is done. Simply use Dodd's Dyspepsia Tablets—one or two for each meal—for a couple of weeks, and the thing is done.

Dodd's Dyspepsia Tablets are a perfectly perfect digestive. The digest the food themselves. They don't need help.

Sometimes Constipation accompanies Dyspepsia and Indigestion. In each box of Dodd's Dyspepsia Tablets is a supply of smaller tablets that are the most perfect bowel regulators ever made. Taken with Dodd's Dyspepsia Tablets they fit the bowels to perform their duty which is supplementary to the digestive process.

Dodd's Dyspepsia Tablets have never failed, never will fail, cannot fail, to cure any case of Indigestion, Dyspepsia or other stomach trouble. They digest the food, strengthen the stomach, and banish dyspepsia and indigestion, naturally and rapidly.

SUNDAY AFTERNOON.—The Railway men's Gospel meeting in Prowse's, block to-morrow will have suitable reference to the death of Mr. John McLean, Fireman. Song service at 3.45. Strangers always welcome.

If you have no money wherewith to take advantage of these snaps Saturday, borrow it; it will pay good interest for one year.

PROWSE BROS

What trade we have we'll hold, and what we haven't we're after.

Russians and Japs.

LONDON, July 5.—The action of the Russians and Japanese at Taku is strongly antagonistic. It seems that the Russians arbitrarily claim one of the captured Chinese torpedo boats, which the captain of the British torpedo boat Whiting left for the Japanese. It is said that serious trouble would have resulted except for the perfect discipline of the Japanese.

News From Ashanti.

FUMSU, July 5.—The road between here and Prahsu is in some places five feet under water. The headquarters staffs, with 150 men of the expedition for the relief of the Governor Sir Frederick Hodgson, of the Gold Coast Colony, and 1,000 carriers and one gun, is marching at the rate of 1 1/2 miles per hour. Nothing definite is known regarding the situation at Kumassi.

Airship Test.

FRIEDRICHSHAFEN, July 5.—Count von Zeppelin's air ship trial, which occurred yesterday evening, took place with the wind at a velocity of 25 feet per second. At the height of 1,260 feet the airship travelled 5 1/2 miles in 17 1/2 minutes. The apparatus for ascending and steering answered admirably until a rope became twisted in the car and necessitated the ending of the trip.

NEWS NOTES.

The oldest house in England stands near St. Alban's abbey. It is octagonal in shape, and the walls of its lower story are of great thickness. It is 1100 years old, and is still fit for habitation.

According to the ancient practice of oriental monarchs, the Chinese Emperor rewards those who bring him good news and punishes those who bring him bad news.

Dominion of Canada

PROVINCE OF

Prince Edward Island
City of Charlottetown.

Before Francis Longworth Hazard, Esq., the Stipendiary Magistrate for the City of Charlottetown.

Take notice that His Honor the Stipendiary Magistrate for the City of Charlottetown, has by virtue of the power and authority in him vested by the statute of the General Assembly of the Island, instituted,—

An Act to Consolidate and Amend the several Acts Incorporating the City of Charlottetown, ordered and appointed that Wednesday, 18th July, next, be the day set down for hearing all appeals made to him from the preceding Valuation Assessments of rates imposed or authorized by the City Council of the said City, and that on such day and daily thereafter, until all such appeals have been heard, at the hour of 10 o'clock in the forenoon, in the Police Court, in Charlottetown, aforesaid, all such appeals will be heard and finally determined by him.

Dated this 5th day of July, A. D., 1900.

ROBERT VAN DER STINE.

Collector for said City.
