EAST PRINCE.

ABOUT two years ago Hon. John Yeo was elected the representative of East Prince in the House of Commons. He accepted the duty. But now, three years before his term is up, he has been appointed to the Senate, and has left the Commons without saying to the people so much as "by your leave." The sturdy British idea of "duty" seems to have vanished in the thin air of this Canada of ours. More than that, there seems to be among the Liberals, as a party, an almost total disregard for principle. So late as 1895 it was laid down as a Liberal principle that the appointment of a member of the House of Commons to an office is an abuse that ought not to be tolerated. It was declared that "it destroys the independence of Parliament and the usefulness of the representatives of the people." The clamor the Liberals raised over this "principle" brought them a good many votes at the general election. But in the short space of a little more than two years, eleven appointments of members of the House of Commons have been made; and that of the Hon. John Yeo is one of them. So East Prince is now without its Liberal representative; and the masters of the Administration at Ottawa,—expect that the electors of East Prince will put another Liberal in his place. It is possible that this expectation may be realized; for the influences wielded by both Dominion and Provincial governments are supplemented in this case by special and definite promises which may sway some persons, for the nonce, from their purpose of intimating to the government that they have been "weighed in the balance and found wanting." But the selection of Mr. J. H. Bell as the Liberal candidate is not an angry of their success. Mr. Bell is a member of the Legislative Assembly. But not content with performing the duty of an Assembly man, Mr. Bell wants to go to Ottawa; and he, too, has said to the people, to whom he owes the duty of a representative, not so much as "by your leave." We have no doubt that he will readily be excused; for with all his verbosity he is of little use in the Provincial Legislature. Of course he will be equally useless in the House of Commons. His withdrawal from Provincial politics at the present juncture will only necessitate another election in the third electoral district of Prince and make Mr. Farquharson's deficit of next year the bigger. We are convinced that despite all the influences in his favor he will easily be defeated by a popular Conservative if it should be deemed worth while to put one into the field under existing conditions.

NOTES AND COMMENTS.

—A Bathurst despatch states that "the lobster fishery commission met at McNally's hotel, Shippegan, on Friday last, the 15th inst. Several experts from Ottawa were present." So the public money is being frittered away on government favorites and politicians who have the pull. The lobster commission is a costly farce.

—The total corn crop of the United States for the current year is 1,926,000,000 bushels, against 1,902,600,000 in 1897, an increase of 24,000,000 bushels. For the purpose of estimating the wealth of this product the bushel of corn may be estimated to be worth forty cents. This would make a corn product of the value of \$770,400,000. There has been a great increase in the corn product of such States as Texas, Mississippi, Alabama, Kentucky, Virginia. In fact it may be stated in a general way that the corn crop in fourteen States of the south and southwest increased over one hundred millions of bushels; in other States which raise considerable corn the product decreased.

A LUMPY MATTRESS

is not very comfortable to sleep on, is it? Plenty of people are sleeping on old "lumpy mattresses", just because they think they can't afford a new one. Our factory is fitted with new machinery, specially for remaking "old lumpy mattresses" and when we have finished with it—well, we can guarantee that you'll find it just as soft and comfortable to sleep on as when you bought it new. Come in and tell us about your mattress, and we'll tell you how much it will cost to remake it.

THANKSGIVING IN THE WEST.

The Methodist church at Alberton, was well filled at the service held on the evening of Thanksgiving Day, conducted by the pastor, Rev. John Goldsmith. The programme, a somewhat lengthy and varied one, was very effectively carried out and evidently interested the congregation who responded with a liberal collection.

After devotional exercises "The Song of the Fruits" was very nicely given by six little girls, Winnie Weeks, Jessie Weeks, Rhoda Gard, Annie Metherall, Bessie Wilkinson and Annie Bell; a solo appropriate to the occasion and given by Mr M R Leard, leader of the choir, choir, was greatly enjoyed by the audience. A duet was given by Misses Rattie Leard and Bessie Gard, and was highly appreciated. An exercise entitled "The Song of the Grain" was given by the Misses Blanch Leard, Florrie Bell and Carrie Leard. The recitations in this exercise were interspersed by singing by the choir, and were extremely interesting. A recitation, "Deacon Campbell's Dream," was effectively given by Miss Hattie Chapell. The anthem, "The Earth is the Lord's," was finely rendered by the choir. The pastor then gave a lantern service on "So Great Salvation," using as illustrations a number of very fine views and throwing passages of scripture and hymns upon the screen.

In spite of the unfavorable weather and the exceptionally bad state of the roads, there was a large and evidently interested congregation present, and a substantial collection was taken up.

On Friday evening, Nov. 25th, the pastor repeated the lantern service at West Devon, another of the churches on the Alberton circuit. Here, too, a large congregation had gathered, and paid the closest attention while the pastor spoke from and illustrated the passage, "How shall we escape if we neglect so great salvation?"

At the close of this service a chapter of the Epworth League was organized: Hon. President—Rev John Goldsmith. President—Mr Hy Ritchey. Sec'y—Benjamin Deacon.

—Lord Mount Stephen has furnished a good precedent for wealthy persons who have poor relations. Better to divide a portion of that which they do not need before they die and the sooner bring comfort to those of their heirs who may be in straitened circumstances.

—President Schurman, in his recent address at the opening of the fall semester at Cornell University, makes the statement that the age of freshmen at entrance has been falling continuously for three years, although the standard of requirements for admission was at the same time continuously rising. "The average age of Cornell freshmen was nineteen years and eleven months in 1895-96, nineteen years and eight months in 1896-97, and nineteen years and seven months in 1897-98. This seems to show," continues Dr. Schurman, "that the high schools of the country are quite rapidly increasing in efficiency." It would be interesting and valuable to know also the relative physical condition of these youths compared with their predecessors.
