Sharp Division On Place Of Gov't In Business

By FORBES RHUDE
Canadian Press Business Editor
HALIFAX (CP)—Delegates differed sharply Tuesday over the government's place in business as the Canadian Chamber of Commerce dug into the first day of its annual meeting.

The opposed views were part of a panel question-and-answer discussion on "the future relationship of business and government."

Said C. P. Fraser, economic consultant, Canadian Pacific Railway, Montreal:

"Co-operation conveys a note of equality which is not consistent with the concept that the government is the servant of the people. Any erosion of relations between business and government is due to a misunderstanding on the part of both groups as to which is servant and which is master."

"CAN'T DEAL AS EQUALS"

D. B. Mansur, president, Central Mortgage and Housing Corporation Ottawa, a crown corporation, replied:

"Business and government can't deal as equals because government is the servant of the people."

"Even Mr. Fraser wouldn't argue that the government is the servant of the big corporations in Canada."

Other panel members were Marcel Faribault, secretary - general, University of Montreal; Capt. Joseph Jeffery, president, London Life Insurance Company, London, Ont.; Maurice Lamontagne, assistant deputy minister, department of northern affairs and natural resources, Ottawa.

R. M. Fowler, president of the Canadian Pulp and Paper Association, Montreal, and also chairman of the chamber's executive council, was panel chairman, and comments of the various speakers were in reply to a series of prepared questions read by him.

CO-OPERATED DURING WAR
Mr. Fowler said there had been unique co-operation between busi-

Predicts Return Of Labor Gov't

NEW YORK (AP) — Herbert Morrison, former Labor foreign secretary of Britain, said Tuesday on his arrival from London he foresees the possible return of his party to power.

"As things are going, I think there is a very real chance for the return of the Labor party after the next parliamentary elections," he said. "Things are moving in our direction."

Coming Events

- **Barn dance St. Andrew's hall, Mt. Stewart at 7.
- **Regular Dance Crapaud Rink, Wednesday night.
- **Dance, Kozly Hall, Georgetown, Wednesday, October 6th.
- **Cardigan Chicken Supper, Oct. 11th. Dance after.
- **Hot Chicken Supper and Bazaar South Rustico Hall, October 27th.
- **Buying and cleaning timothy dally, McQuigan & Boyle.
- **Lot 65 Hall, dance Thursday, Oct. 7. Dolor's Orchestra. Canteen.
- **Barn Dance at Clair Dunphy's, Peakes Station, Friday, October 8th.
- **We are buying Island grain dally. Paying market prices. E. J. MacDougall, Vernon.
- **Lam Paquet Jamboree in St. George's Hall, Thursday, October 7th.
- **Concert and Dance in St. Peter's Bay Hall, Thursday night, October 7th. Don Messers Island-ers.
- **Dance, West Royalty Hall, Wednesday. Rolfe MacKenzie's Orchestra. Canteen Service. 9.30 to 12.30 Standard Time.
- **Dance, Howatt's Warehouse, North Wiltshire, Friday, October 8th. Music by Rolfe MacKenzie Orchestra.
- **Hear Colonel Johnstone talk and show slides on his old world tour in Long River hall Monday evening Oct. 11.
- **Attention Farmers your second crop of red clover is valuable for seed. For information contact E. W. Johnstone, Kensington.
- **Notice — Custom Grinding, Tuesday, 5th and Friday 8th October. Following week shut down for repairs. Signed P. L. Morris, Feed Service, Kinkora.
- **Texas Ralph and his Augustine Cove Skyliners will be at Bonshaw Inn Thursday, Oct. 7 at 8.30 p.m. Dance after. Admission 40c and 25c.
- **Abegweit R. B. P. Kingstone, Thursday, October 7th, change of date to enable Rev. J. R. Skinner to attend a cordial invitation extended to Plinette and Bedeque Preceptions.

ness and government in Canada during the war. He wondered, as the country grew larger, if this relationship were weakening.

He wondered, too, whether business men got their thinking "a little twisted" when they spoke of "government intervention."

(Continued on Page 5 col. 1)

Is Re-elected

Sir Brian Dunfield (above), chairman of the planning commission at St. John's, Nfld., Tuesday was re-elected president of the Community Planning Association of Canada. Two vice-presidents completed the executive elected at the association's fifth annual conference here.

They are J. L. McVittie, Halifax, director of the institute of public affairs at Dalhousie University, and Charles E. Campeau, assistant director of the planning department of Montreal. It is Mr. McVittie's first term on the national executive. Mr. Campeau was re-elected.

Dr. Albert Rose, Toronto, chairman of the Ontario division of CPAC, said as nomination chairman that this was the first time the national council of the association has had two official delegates from each of the 10 provincial CPAC divisions.

With a full national complement, Dr. Rose said the 75 conference members, CPAC no longer has the right to select its council members at large from the country. This was the way it first obtained the services of Sir Brian, a Newfoundland Supreme Court justice.

MONTREAL (CP) — The long-awaited judgment in Montreal's sensational wage inquiry will be handed down Friday morning, it was announced Tuesday night.

Cheers of 10,000 Citizens Proclaim Trieste Once More Italian City

By WEBB MCKINLEY
TRIESTE (AP) — The cheers of 10,000 citizens massed in a great waterfront square proclaimed Tuesday that Trieste is Italian again.

The citizens gathered in Unity Square of this port city to rejoice over the announcement in London that Italian and Yugoslav diplomats had initiated an agreement dividing the disputed free territory of Trieste between the two countries. The emotional outburst here carried a note of relief that the long quarrel which sometimes threatened to draw Italians and Yugoslavs into a shooting war was over.

In Rome, the Italian Senate stood solemnly as Premier Mario Scelba announced with deep feeling: "After 10 years, the Italian flag again flies over the tower of the city of Trieste."

A singing, flag-waving crowd of young Italians paraded down Rome's main street Tuesday night, celebrating the settlement. Otherwise, Italy remained surprisingly calm.

REASONABLE COMPROMISE

In Belgrade, President Marshal Tito's Communist government termed its agreement with Italy "a reasonable compromise" in the interests of improved Italian-Yugoslav relations and world peace. The Yugoslav people generally—as the semi-official news agency Yugo-press put it—received the settlement "without enthusiasm."

But the rejoicing among Trieste's 280,000 residents, mostly Italian, was not restrained. Green, white and red Italian flags, including one 60-foot banner, decked the city in preparation for the arrival today of Maj. Gen. Edmondo de Renzi, the new Italian military governor.

A message from Maj. Gen. Sir John Winterton, commander of the British-U. S. occupied zone A of the Trieste territory, announced to the citizens in Unity Square that the diplomats in London had finally agreed. Their compromise gives Italy virtually all of zone A, including this strategic city, while the Yugoslavs get zone B which they have been occupying.

Winterton said there would be a "short period" before the 3,000 American and 2,000 British occu-

More Generous Tax Agreements With Provinces Believed Likely

LICENSING ON LAST YEAR'S BASIS BUT MARKETING PLAN IN ABEYANCE

The Guardian was advised last evening by Mr. D. A. MacDonald, chairman and manager of the P. E. I. Potato Marketing Board, that at a meeting of Board members yesterday it was agreed that the Board's proposed marketing plan for this season shall be held in abeyance until such time as the result of the Government's proposed plebiscite on the matter shall be determined.

"It was also agreed," Mr. Mac-

Donald stated, "no price control of any kind would be exercised by the Board until the declared wishes of a majority of Island producers becomes known, because in the opinion of most of the Board members their proposed marketing plan is the only alternative to no market price control at all.

"In the meantime," he added, "the Board's licensing programme on a similar basis to last year's will be proceeded with without further delay."

BECOME FULL PARTNERS IN COLOMBO GROUP

Japan, Thailand Join Plan

By HAROLD MORRISON
Canadian Press Staff Writer
OTTAWA (CP) — The 14 Asian and Western Colombo Plan powers Tuesday granted full membership to Japan and Thailand, extending the economic plan's influence into a broad geographic area facing the belly of Communist Asia.

"Opposition to Japan's entry as a donor country disappeared when Indonesia's foreign minister, Dr. Sunario, announced his government would not oppose the move "because we like to show our good will in international relations."

Thailand, nestled between Cambodia and Burma, has been an observer country since the six-year \$5,000,000 plan to industrialize South and Southeast Asia was conceived four years ago. As an observer country she neither receives nor extended aid to her neighbors. What she is to get has yet to be decided. The Philippines is the only other observer country.

TECHNICAL AID ONLY

It may all boil down to a need for increasing Western contributions since Japan, as a donor country, will initially grant only technical aid, but no money. Canada provides a \$25,400,000-a-year allocation used mainly to aid Ceylon, Pakistan and India.

The whole issue of Canada's aid and whether it should be increased likely will be taken up by the cabinet today.

Dr. Sunario, who gave his con-

sent to Japan's admission after speaking to his prime minister in Indonesia by long-distance telephone, said he will urge the Colombo Plan countries to support a further reduction in restrictions on trade with the Communist countries.

Satisfactory Progress On P.E.I. Highway Projects

The three sub-grading jobs on the Trans-Canada Highway between the Queen's Arms and a point just west of Bonshaw, which are rapidly nearing completion, constitute the heaviest earth movement ever undertaken in this Province and mark an achievement which reflects much credit on the firms involved.

The leveling of hills and the building up of deep hollows, with the widening of the highway to standard, as required on this important route of travel, has changed portions of the highway almost beyond recognition.

In many places buildings have been moved back to new locations in order to make room for the broadened new highway and to eliminate turns which would otherwise be a menace to safety.

All the curves and contours have been taken out in the Queen's Arms area along with the bottleneck small bridge arrangement and the whole brought to level open space where the roads converge. Although the North River Road has been paved from Douses' bridge to the Arms, a by-pass road through the east side of the Beach Grove area is being widened in preparation for the traffic which will be diverted at this point while the new highway is being paved early next summer.

This road enters left at Douses' bridge and skirts the new Drive-In Theatre, striking the highway again at the entrance thereto.

Indicted For
Manslaughter

NEWCASTLE, N.B. (CP) — A grand jury in the Northumberland circuit court Tuesday freed Aylmer Glidden, 50, of a murder charge but indicted him on a manslaughter count. He was arrested after his 40-year-old sister, Mrs. Archibald Russell, mother of 11 children, died of a knife wound last June.

Glidden escaped from the county jail here July 22 and was captured after a two-day search. He was then held in jail at Saint John and brought back to Newcastle Saturday.

TORONTO (CP) — The 19th biennial convention of the United Lutheran Church in Canada starts an eight-day session here today. It will be the first time the group has met here.

Hope For End Of NY Dock Strike

NEW YORK (AP) — The International Longshoremen's Association, which pulled its 25,000 longshoremen off the docks Tuesday in an old-time display of power, Tuesday night agreed to consider a new offer by the employers.

But the strike, which caught 71 ships in the world's busiest port, was not ended, although I.L.A. president Capt. William V. Bradley said he hoped for a quick settlement.

Federal mediator John Andrew Burks called an emergency meeting between I.L.A. officials and representatives of the New York Shipping Association in an effort to halt the second strike in New York's waterfront in six months.

He made it clear when the meeting broke up that the walkout wasn't over, but there were plenty of indications that a speedy agreement was in the offing.

INCLUDES WAGE INCREASE
The new employer offer, which included an eight-cent-a-

hour wage increase retroactive to Oct. 1, 1953, appeared to go a long way toward meeting the union's objections.

But the employer offer was pegged to this condition: The men must go back to work immediately if the wage scale committee approves the offer, while further negotiations—at least for 30 days if necessary—continue.

In addition to their retroactive pay increase offer, the shippers agreed to consider future adjustment of welfare fund payment scales, another key bone of contention in the dispute. In the meantime, the employers will continue to pay the seven-cent-an-hour welfare contribution they have been making for the last several months.

NO SIGN OF DISCORD
There was no violence as the union began its strike Monday night. Although it was split in two by bitter rivalry with the AFL, less than five months ago, the

dockers responded to the sudden call with the smooth, shoulder-to-shoulder precision that was an I.L.A. trademark during the union's heyday.

Tugs were not affected at the outset and the huge liners Queen Mary and Independence were docked routinely. However, waterborne picket lines were being organized to try to turn back the tugs.

There is a strong possibility that the men in other ports from Portland, Me., to Hampton Roads, Va., will also strike," said I.L.A. President William V. Bradley.

GESTURE OF DEFIANCE
Federal mediators were striving for a truce as customs tabulators said practically the whole port was at a standstill. Fifteen ships were being worked at army piers or docks where longshoremen are not needed.

On the face of it, a contract dispute over retroactivity and arbitration touched off the strike.

(By John LeBlanc, Canadian Press Staff Writer)
MONTREAL, (CP)—Federal proposals for more generous fiscal agreements with the provinces emerged Tuesday as likely from a meeting between Prime Minister St. Laurent and Premier Duplessis which revealed a newly-modified Quebec attitude on its controversial income tax.

From the closed conference came also an evident easing of Ottawa-Quebec hostility on the tax issue and the likelihood of an early federal-provincial conference to deal with federal suggestions expected to follow expected changes in the recently-enacted Quebec personal income tax statute.

A possibility, the prime minister indicated after the meeting, is that the federal government would collect for the provinces income taxes levied by them, though this would not necessarily mean the taxpayer would be called on to pay more.

This developed, Mr. St. Laurent said, from Mr. Duplessis' statement at the two-man conference that he intends to propose amendments to the 1954 enactment imposing a provincial income tax amounting to about 15 per cent of the federal tax.

Up to now, the province has sought unsuccessfully to have the federal government allow the levy to be fully deductible from the taxpayer's federal liability. Mr. St. Laurent suggested Tuesday's meeting founded the basis for a compromise solution that could be extended to the other provinces.

The prime minister told reporters he thought Mr. Duplessis' planned amendments would let the federal government propose some modifications in the tax-rental agreements generally, which now are in effect with all provinces except Quebec.

Any terms reached with Quebec, he said, would have to be extended to all other provinces that wanted them. Mr. Duplessis had agreed to that.

Premier Duplessis would not give details of his discussion, saying he would report to his cabinet today—but he called the meeting "cordial and very satisfying" and said it could lead to a federal-provincial tax conference.

Probably the most advanced step in modern highway construction is to be seen in the North River Causeway and the effect its successful completion will have on.

FEUDING FOR YEARS
"Friendly and cordial," was the description of Mr. St. Laurent, whose administration has been at odds with the Union Nationale government for years on tax and other matters and who opened fire on the Duplessis administration with an unexpected blast Sept. 18.

As unexpected as that attack was the sudden Sept. 30 decision of the feuding leaders to get together personally after a lengthy period of long range sparring.

Hurricane Hazel
Reported Tuesday

MIAMI, Fla. (AP) — Hurricane Hazel, eighth of the season, blew up Tuesday near where the Caribbean meets the Atlantic, some 1,800 miles southeast by east of Miami.

Reconnaissance aircraft located the hurricane about 30 miles east of Grenada and 90 miles north of Trinidad.

The storm had winds of 95 miles an hour within 25 miles of the north and east of centre and gales about 75 miles outward.

If the hurricane continues its present course, a weather bureau spokesman said, it would pass near Puerto Rico, but at its present rate would not reach there until late Thursday or Friday. It now is some 600 miles southeast of Puerto Rico.

Killed En Route To
Brother's Funeral

HOULTON, Me. (AP) — A 70-year-old Houlton woman was killed Tuesday on the way to her brother's funeral when her car plunged off a ferry into the St. John river at Fredericton, N.B.

Officials here said they learned of Mrs. Emma Boone's death from the RCMP at Fredericton.

She drove onto the Kedgewick ferry at Fredericton and a few seconds later her vehicle shot overboard. Her body was recovered.

Finds Quebec Potatoes In PEI Stamped Bags

Charges that Quebec potatoes are being offered for sale in "Prince Edward Island" stamped bags have been made by Mr. E. B. Ellis, senior fruit and vegetable inspector, Department of Agriculture, Charlottetown.

Mr. Ellis, who for the past two months has been posted on "destination inspection" at Montreal, states that he saw truckloads of allegedly Island potatoes being distributed to the retail stores of that city, when no potatoes had as yet been shipped from the Province. Mr. Ellis explains that the law calling for the use of new bags which applies in Prince Edward Island and New Brunswick does not apply in Quebec and that buyers there are quick to take advantage of this situation.

As a solution to the problem, Mr. Ellis makes an alternative of two suggestions: (1) That shippers refrain from using stamped bags for potatoes destined to Quebec points and substitute plain bags with tags only attached, (2) That the potato agencies in the Province employ a man who would be responsible for seeing that the Island product is not misrepresented in other Canadian centres.

Another practice which met with the disapproval of the Island inspector was the manner in which potatoes from P.E.I. were handled in regard to "condition" defects developed in transit.

"Potatoes," he says, "shipped to Montreal from the Ontario or British Columbia market are consigned F.O.B. the shipping point, while the general rule here is to ship them F.O.B. the destination."

Another practice which met with the disapproval of the Island inspector was the manner in which potatoes from P.E.I. were handled in regard to "condition" defects developed in transit.

Kaiser To Open
Argentina Plants

BUENOS AIRES, (AP) — Henry J. Kaiser signed a contract early Tuesday to manufacture cars, trucks and jeeps in Argentina in partnership with President Juan D. Peron's government.

The American industrialist will invest \$10,000,000 worth of machinery representing about one-third of the capital in the new company. He will manage the manufacturing for the company, to be owned by and Argentine private investors.

For Kaiser, the deal permits him to manufacture automotive equipment in Argentina, which is starved for cars and trucks—and with machinery he owns in the United States. This machinery is useless to him in the U. S. where the auto market is over-supplied and the independents are being squeezed by Ford and General Motors.

For Peron, the agreement represents the first big industrial investment under his plan to attract foreign capital, make Argentina industrially self-sufficient and the country's lagging economy.

Bob Hope To Quit
Paramount Studio

HOLLYWOOD, (AP) — One of Hollywood's biggest money-making combinations is about to split up. Paramount Studio said Tuesday Bob Hope's exclusive contract will end with the more film.

Bob Hope's exclusive contract will end with the more film. Louis Shurr, said the comic would not sign exclusively again.

During most of his 17 years at Paramount, Hope shared with his pal Bing Crosby the position of the studio's big theatre draw. His "Pale-Face" and two of his "Road" pictures with Bing grossed \$4,500,000 apiece in the U. S.

SHIP CHARTERED FOR TRADE WITH SEVEN ISLANDS & LABRADOR AREA

A potential market for Island farm products has been tapped in the Seven Islands and the iron ore area of Labrador, when during a visit of Hon. Eugene Cullen, Minister of Industry and Natural Resources to that area, he was able to contact several firms who will require Island potatoes this fall along with goods which this Province has to sell.

To carry out the Island's commitments, Mr. Cullen's department has chartered for the Minas

Transport Company of Nova Scotia, the general cargo ship "Charles MacLean" which will load 8,000 bags of potatoes for Seven Islands next week. Mr. Cullen stated that three firms located in Seven Islands, The Hudson Bay Company; D. A. Vignault et Fils; and the Labrador Fisheries will each require 3,000 bags of potatoes this fall.

Seven Islands has a population of about 5,000 people and the iron ore area about 4,470 and, while the Minister admits this is a small market compared to such large centres as Montreal, he points out that they are completely isolated from any farming area and all their supplies have to come from outside. Because of this, Mr. Cullen is of the belief that Prince Edward Island with a direct shipping route to these points should be able to compete favorably with any farming area within reasonable distance.

"I would not call this fall's operation an experiment," said Mr. Cullen, "but we do hope to learn something and it is hoped that with the future development of this area, a considerable market will have been realized."

In addition to making two trips to Seven Islands, the "Charles MacLean" expects to make a trip to Cornerbrook, Nfld.

The difference in invoicing has the effect that potatoes which show "condition" shipping effects F.O.B. the shipping point, are the responsibility of the receiver while in the other instance it is the dealer who is responsible and he in turn may pass this on to the producer.

"Many terminal buyers," said Mr. Ellis, "knowing that they can take advantage of this situation are quick to do so and quite often the local dealer has been assessed with losses which he would prefer to pay than to oppose in court."

BOARD CHAIRMAN COMMENTS
"The disclosure by an official of the fruit and vegetable inspection service that potatoes not produced in this Province have been sold in Prince Edward Island brand bags should give cause for grave concern," stated Mr. D. A. MacDonald, chairman of the Potato

(Continued on Page 5 col. 2)

No Plans To Invite Princess To Visit Canada

OTTAWA (CP) — No plans have been made to invite Princess Margaret to Canada during her visit to the British West Indies next spring.

Officials of government departments concerned with such visits Tuesday they have no knowledge of any plans to invite the Queen's alster to Canada.

A spokesman at Government House, through which invitations would be issued, said any plans to issue an invitation from the government would be discussed with the Queen's alster to Canada.

The external affairs department, usually informed when distinguished visitors from outside the country are invited to Canada, said it has heard of no plan to invite Princess Margaret.

The state secretary's department said it had nothing to report on a visit by the princess.

The external affairs department, usually informed when distinguished visitors from outside the country are invited to Canada, said it has heard of no plan to invite Princess Margaret.
