The Guardian, Charlottetown, Thurs., Sept. 10, 1959. 5

Frank Costello Heads Rural Teachers Group

Frank Costello, principal of Parkdale School was named president of the Charlottetown district rural school teachers at the annual fall convention held yesterday at Prince of Wales College. Over 100 teachers were in attendance.

Mrs. Mary Rodd was named vice-president and Mrs. Ruth MacCallum, secretary.

Over 100 teachers attended the convention which was held at Prince of Wales College auditorium. Speakers included Deputy Minister of Education Malcolm MacKenzie, Miss Anna Riley, secretary of the P.E.I. Teachers' Federation, school supervisor Wilson Ross, and supervisor Claude Wood.

Speaking on the general subject of departmental affairs, Mr. MacKenzie stressed the benefits of free text books should the government see fit to institute

such a system. He said it would give the department a freer hand in choosing the curriculum when the cost of books was relieved from the parents.

Mr. MacKenzie told the teachers that the fostering of better public relations in their respective districts was the best way to improve the prestige of the profession in general.

The supervisors thanked the teachers for the interest they had shown in teaching citizenship and the effort they had made to impress upon the children the importance of highway safety rules.

Discussion group leaders for the convention were: Fred Driscoll, Mrs. Frank Ross, Weston Carmody, Wilson Ross, Frank Costello, Mrs. Marie Devlin gave an interesting talk on Junior Red Cross work.

ROTARY GOLF

Robert Giggey of the Charlottetown Rotary Club had the low net score in the annual tournament between that club and the Summerside club which was played at Summerside and Charlottetown. The Charlottetown club won the Brace, McKay and Co. Ltd., trophy with an average of 78.6 strokes for the 10-member team. Summerside's average was 80.2. Low scorer for Summerside was Frank Daley. At a dinner at the Rendezvous last evening the team and individual trophies were presented.

Southport Farmer Injured When Two Trucks Collide

Southport farmer, Sylvan Pippy, 67, suffered a broken left arm and several other injuries yesterday afternoon when his empty half-ton truck and a laden three-ton gravel truck were in collision on the Trans-Canada Highway about two miles east of Cross Roads.

Force of the impact threw the smaller vehicle over the adjoining embankment and it came to rest on its left side about 15 feet below the edge of the highway.

Apparently struck on the side, the half-ton, owned and driven by Mr. Perry was bent in a shallow semi-circle. The left front of the Doy's truck was extensively damaged.

The accident occurred at 1:00 p.m. immediately in front of the driveway leading to the farmstead where the accident victim was born and now occupied by his brother, Willard Pippy.

year-old Sylvan Pippy of Southport has been hospitalized with a fractured arm and other injuries. The Pippy truck can be seen above where it came to rest at the foot of the embankment.

After the new premier is sworn in, he will form his cabinet. Ministers will all have to be sworn in again.

They are now only administrators of their respective departments, and government business is going on normally as it did before cabinet meetings. It is not expected the new cabinet will differ much, if at all, from the present one.

520 Register For Snr. High

A total of 520 students were registered in the two senior high school grades at St. Dunstan's and Prince of Wales this past two days.

At St. Dunstan's 86 boys registered for the Grade XI course and 64 for Grade XII, while at Prince of Wales 177 students registered for the regular Grade XII academic course and 114 for the regular academic Grade XII course. In addition PWC also registered 39 in the Grade XI commerce section and 49 in the Grade XII commerce section.

College years at St. Dunstan's will register on the 15th and 17th of the current month, while college years at Prince of Wales will register next Monday and Tuesday.

United Church Conference For Men Opens Tomorrow

Stanhope Beach Inn tomorrow will be the scene of the fourth annual United Church Men's conference. Upwards of 100 men are expected to register for this week-end meeting which begins Friday evening and concludes Sunday after lunch.

The name "Stanhope" has become nationally known in the United Church. These meetings have resulted in increased and more dedicated service among the men of the church and in the first three years that the conference has been held, six men have made decisions to enter the Christian ministry.

The calibre of speakers at Stanhope has always been high maintained and this year will see one of Canada's top rated ministers of the United Church delivering the theme address. He is Rev. George Goh, D.D., Minister of Metropolitan Church, Hamilton, Ont.

The lay speaker will be A. Gibson Mackie of Toronto. Mr. Mackie is engaged as public relations manager for one of Canada's largest industrial organizations and is prominent in inter-faith groups in Ontario.

This year will mark a milestone in the short career of Stanhope conference when some 60 or 70 Baptist men will meet in joint session during Saturday evening. Representation from both denominations will come from all parts of the Island as well as from several mainland points.

Booming

(Continued from page 1) to Ottawa to have the marshalling and inspection of goods carried out in Maritime ports rather than have this part of the shipping procedure done in the port of Montreal. This letter, he said, was having the effect of preventing the Maritime producer from fully expanding his trade with the northern markets.

On the matter of research, Dr. MacKinnon pointed out that a great deal of this type of work was being carried with a view to aiding the Maritime producer, some of it of a very material nature.

BURIED MATERIAL In this field he declared that the Maritime provinces were the greatest royal commissioned area in Canada. He suggested that there was a tremendous amount of commission material which had been buried, a large amount of which if dug up would provide plenty of food for thought.

Dealing with two other programs carried out by APEC, Dr. MacKinnon said that the PIP (Product Identification Program) was beginning to have very good results and was receiving the full backing of almost every processor in the Atlantic provinces.

The speaker expressed pleasure at the progress being made in getting electrical power producers to work together in a sort of power pool. He expected the benefits to the consumers in the Atlantic area would be quite evident in the future.

The meeting was opened by chairman John S. Wright, Summerside, the vice-president for Prince Edward Island, who gave a brief review on the activities of the Island group during the past year.

Charles Yeo Sherbrooke reporting on the activities of the agricultural committee said that the poultry industry of the province provided them with the greatest concern, with the returns being far below what they should be to keep the industry in a healthy state.

FACTORY NEEDED Dwelling on the potato industry, Mr. Yeo said there was big need for the establishment of a starch factory in the province. This would do much to assist in resolving the problems

FAULTY MECHANISM A faculty cut-off located on a light pole on Queen Square opposite the Grafton Street Service Station blew out shortly after 8:30 o'clock last evening plunging the main business area fringing Grafton Street in darkness. Maritime Electric officials expected that the job of replacing the faulty mechanism would take approximately one-half hour.

ATTEND FUNERAL Mrs. Adèle LePage and Mrs. Howard Fowle, Halifax and Mrs. E.K. Biggar, New Glasgow, have arrived in the city to attend the funeral of the late Arthur Haslam.

PWC Pupils Are X-Rayed

As a public service, through the facilities of the P.E.I. Tuberculosis League, a mobile x-ray unit has been stationed at Prince of Wales College. All first year students were x-rayed Sept. 8 and second year students yesterday. Those attending third and fourth year will be done on Sept. 16.

This survey is under the direction of Miss Blanche Conway, seal sale secretary of the Tuberculosis League; Miss Hannah Turner, public health nurse, who is co-ordinating nurse tuberculosis and x-ray survey and Dr. F.M. Found, director of tuberculosis control.

The x-ray technician for this survey was Joseph MacKinnon. It is planned that a similar survey will be made at St. Dunstan's University.

of disposing of culled and diseased potatoes, he said. The provision of accommodation was one of the greatest problems of the tourist industry, said Lt. Col. E.W. Johnstone reporting for his committee. He suggested that those persons catering to tourist should start now in expanding their tourist accommodations and thus have them ready for the 1960 season.

Commenting on the conducted tours, he said that during the months of June and August a total of 48 of these tours had come to the province, a number which far exceeded that of previous years.

Col. Johnstone was of the opinion that with a little more effort on the promotional side this phase of the tourist industry could be greatly expanded.

These tours were fairly beneficial to the economy, he said, each tour generally included about 30 persons who spent one, two or three nights in the province, each spending a reasonable amount of money.

INDUSTRY DECLINING Eugene Gorman, chairman of the fisheries committee, stated that the lobster processing industry on the Island was gradually declining and to bring it back it might be necessary to induce the processors to employ some advanced methods which in most cases would mean the installation of more modern machinery.

He said that a plan for the establishment of a pilot plant for the processing of fish flour was being looked into. If it is established Mr. Gorman was certain that it would be a good shot-in-the-arm for the fishing industry.

Although the flour would be of no import to the diet of North America, it would be an important addition to the diet in some of the low diet countries.

Another speaker who spoke briefly on the wide and various fields of endeavour covered by APEC was Nelson Mann of Halifax, executive vice-president of the council.

New Quebec

(Continued from page 1) early Monday, is to be buried in Trois-Rivieres, Que., today and it appears certain that a new premier will be chosen shortly afterwards, possibly within a few hours, and sworn in Friday.

After the new premier is sworn in, he will form his cabinet. Ministers will all have to be sworn in again.

They are now only administrators of their respective departments, and government business is going on normally as it did before cabinet meetings. It is not expected the new cabinet will differ much, if at all, from the present one.

The new premier's most urgent immediate job will be to prepare the government program for next session, only about two months away.

What has already been done is not known. Mr. Duplessis, who usually did the bulk of session work himself, had been in ill health recently.

GENERAL ELECTION The prospect of a general election faces the new premier. It is expected that after the next session the legislature will be dissolved and an election called for the summer, probably in June.

Veteran observers here say it is unlikely a snap election will be called. They say no provincial election is physically possible for four months, and by this time it will be winter.

Union Nationale sources say there is no reason to move hastily and give an impression, by a winter election, that they are anxious to be re-elected securely for another term.

Mr. Sauve, 52-year-old right hand man of the late premier, increasingly took over important functions in the last few years. He has been taking things in hand since Mr. Duplessis' death.

ZSA ZSA IN FOLLIES PARIS (AP) — Zsa Zsa Gabor will be the star of the Follies Bergeres beginning next spring, the follies' artistic director said Wednesday.

City Schools Enrol 3,212

The total enrolment of students in the seven City public schools, as of Tuesday, was 3,212, it was reported by the Charlottetown School Board. Last year the total was 3,184.

A breakdown in the number attending each school is as follows: West Kent, 324; Queen Square, 630; Queen Charlotte, 525; Birchwood, 691; Rockford Square, 462; Spring Park, 274; Prince Street, 296.

It will be a few days before final figures can be determined.

Funeral Slated This Afternoon

The funeral of the late Arthur Haslam will be held from the Cuthbert Funeral Home this Thursday afternoon at 2 o'clock.

Mr. Haslam passed away in the P.E.I. Hospital after an illness of some months.

Those left to mourn his loss are his wife, the former Annie MacLennan; a son Louis, assistant manager, Metropolitan Stores, Sydney; daughters, Norma Lee, Mrs. Donald Holden, City, and Edna, Mrs. Lowell Watts, York; his mother, Mrs. Everett Haslam, Hunter River; and only brother, Hyatt, Fredrickton and two little grandchildren.

Interment will take place in Floral Hills Memorial Gardens.

Repair Work Is Underway

Considerable repair work is being done on the exterior of the Bishop's residence and the Old Custom's Building on Lower Great George Streets.

Scaffolding has been erected and both carpenters and painters are busy. The old Custom's building has long been the headquarters of the Provincial Government.
