Charlottetown - The Liberal policy on potatoes

is far-reaching in its importance to farmers all over the Province.

has hit the Tory Government like a blockbuster bomb!

The Shaw Government was stunned by the blow and is now trying desperately to gather its scattered wits.

As it looks now they are bringing to bear all the devices and objections their propaganda forces can muster in order to rob the farmers of the benefits of far-sighted Liberal planning.

It is quite evident the Tories are against the Liberal offer of \$1.00 per bag for potatoes in the face of its wide spread approval by our farmers.

It remains to be seen whether the Tories will continue to oppose this policy.

It is almost unbelievable that Tories would wish to deprive the farmers of the chance to dispose of their potatoes at an increased price, but they appear to be trapped by their own lack of foresight. While they were holding inspection of school buses and indulging in other costly propaganda manoeuvres at the taxpayers expense the Liberals were active to give a boost to agriculture. They did so in a manner which left no doubt that thousands of farmers in the Province would benefit almost immediately. No wonder it was a shattering blow to one that caught the Conservative Government off guard.

making its whole election platform look weak and without substance. At one stroke the boys were separated from the boys and once again the Liberals proved their high administrative ability.

The opposite opinions held by the parties on the floor price for potatoes, show in sharp relief the difference in thinking between the Liberal and the Tory. The Tory stand reveals that they are floundering badly and seem unable to come up with any ideas which would help materially our hard hit farmers. On the other hand the Liberals have shown initiative and statesmanship of the highest order.
