

THE DAILY EXAMINER.

NOVEMBER 20, 1886.

Editorial Notes.

The oil men of Toronto have recently taken out a patent for treating Canadian petroleum and removing all objectionable features, such as small and smoke, making an article equal to the best American oil.

One of our exchanges, remarking upon the result of the Council elections says: "It is strange in this connection that while the opposition have so much fault to find with the Dominion senate, they favor the maintenance of the Legislative Councils, wherever they now exist.

Commenting upon the withdrawal of the advertisement regarding the transatlantic mail steamers of Canada, the Montreal Star says: "This is well. If St. John, N. B., is substituted for Portland, Me., the two leading Atlantic ports of Canada will be able to compete with each other on equal terms and the people of the Maritime Provinces will soon feel that they are really a part of the Canadian people and that anything that tends to develop the Western Provinces must help them.

The Patriot is nothing if not unfair. It is most unfair it is its remarks about the expenditures of the Dominion Government. Not one word does it say respecting the extraordinary expenditures of last year on account of the Riel rebellion; and it leaves out of sight altogether the fact that the normal expenditures of the Government show an increase simply and only as a result of the development of the country.

The expenditures in connection with them will remain at the same old figure! Common sense says it is not reasonable. Again the Government have opened up the Northwest, and dotted it all over with post offices, in order that it may be habitable for civilized men, while, at the same time, the business of post office all over Canada has largely increased. Can we expect the expenditure of the Post Office Department to be kept down to the old figure; and the sum total of the Government's expenditures not to show an increase?

New Publications.

The Casting Away of Mrs. Lock and Mrs. Aspinne, by Frank A. Stockton. This is a most interesting tale by the author of "Kudler Grange." The reader of it will have very pleasant employment, and will find it wholesome as well as lively. Its merits entitle it to a popular equal to that of any other work which Mr. Stockton has given to the public.

Brueton's Bayou, by John Haberton, author of "Helen's Babies," "The Earton Experiment," etc., etc. John Haberton's reputation as a novelist is steadily rising. This last effort of his is one of his best. The plot is laid by the shores of the great Mississippi, and is developed in the author's capital style. Some of the "situations" are in a high degree dramatic, and the work, as a whole, is well done.

The Real Estate Gazette and Record of the National and Industrial Resources of Nova Scotia and Prince Edward Island. This periodical is published at Halifax for circulation throughout Great Britain, with the view of inducing immigration to those Lower Provinces. It contains an excellent article descriptive of Prince Edward Island, based for the most part on the information supplied by Mr. W. C. DesBrisay's excellent pamphlet, issued under the auspices of the Local Government. We are pleased to state that the credit due to Mr. DesBrisay was omitted on account of oversight, but will be given in the next number. From this article we quote the following reference to the Subway Scheme: "Herbert's charming little Island has suffered somewhat during a portion of the winter by the isolation enforced through the blocking up of the Straits of Northumberland by ice, and the consequent stoppage of the usual steamship service; iceboats having to be substituted to make passage across the frozen deep from Cape Traverse on the Island to Cape Tormentine on the mainland of New Brunswick. But science, the conqueror of all difficulties, having been appealed to, it has been found by competent engineers that a submarine tunnel, or metallic subway, under the Straits of Northumberland, at their narrowest part, about 6 1/2 miles, is perfectly feasible; and, happily, it has also been found that the cost of the undertaking will be as nothing in comparison with the benefits to be derived from its achievement. We are happy to learn that there is every probability of the work being commenced next year, the jubilee of our Gracious Queen's reign of half a century, and assuredly no fitter time or more fitting object could have been chosen to render memorable in our provincial annals the initiation of so excellent a work."

What True Merit Will Do. The unprecedented sale of Boschee's German Syrup within a few years has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected, and leaves them in a purely healthy condition. A bottle kept in the house for use when these diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cents, large bottles.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little shrub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

to the emigrant, to the person who wants to sell his farm, and to the Province at large. Mr. K. Hunt, Summerside, is the agent here for the Real Estate Gazette; and orders for advertising may be sent to it through him.

Songs and Satires, by JAMES JEEFREY ROCHE: Boston, Ticknor & Company, 1887.

THE EXAMINER, some time ago, noticed this publication—the author being an "Island boy"—and quoted the favorable opinion of the Boston Pilot respecting it. We have now to acknowledge the receipt from the publishers of a copy of the work, and to add our meed, to the warm praise bestowed upon it by the Pilot. Most of the verses are very finely written, and abound in real poetry. The book is inscribed to "John Boyle O'Reilly—my very good friend, and an honorable gentleman"; and bears as its motto:

"The snow-flakes that dance on life's shallow Are wrung from life's deep."

To show the quality of the work we select at random two short poems:

THE WATER-LILY. In the slimy bed of a sluggish mere Its root had humble birth, And the slender stem that upward grew Was coarse of fibre and dull of hue, With nought of grace or worth.

The gold fish that floated near Saw only the vulgar stem, The clumsy turtle paddling by, The water snake with his lidless eye,— It was only a weed to them.

But the butterfly and the honey-bee, The sun and sky and air, They marked its heart of virgin gold In the satin leaves of spotless fold, And its odor rich and rare.

So the fragrant soul in its purity, To sordid life tied down, May bloom to Heaven, and no man know, Seeing the coarse vile stem below, How God hath seen the crown.

WHAT THE TELEGRAPH SAID. Gayly the wind sings through the wires, Touching the chords with fingers light; Singing of love and its sweet desires To the maid who listens with fond delight.

Sally it sways the trembling lines, Waking a plaintive song of woe; Breaking a heart that wearily pines For the music of hope that was long ago.

Singing to each a well-known strain Caught from the keynote in every mind; Oh, sings it for me of peace or pain, This harp that sways in the winter wind!

What message carries the lightning wand Over the mountains, under the sea? And this the answer the ticker gave: "Wheat is quiet at 8 1/2!"

The Football Match.

The Picton correspondent of the Halifax Herald gives the following account of the football match between the Wanderers of Halifax and the Abegweits of Charlottetown. The match was, in spite of the inclement weather, witnessed by a large number of spectators, among whom intense and furious excitement prevailed throughout the game. The ground was very soft during the first half. The Abegweits kept the ball dangerously near their opponents goal and compelled them to rouse it three times. The forward play of the Abegweits was very strong and they succeeded in making the ball ahead of them out of almost every scrimmage. Henry attempted several runs but was collared by Robinson, who tackled magnificently. In the second half the Wanderers compelled the Abegweits to rouse twice, and they in turn were forced to rouse once. No goals or tries were scored by either side, but the advantage was throughout with the Abegweits. Duffus made a kick from the field, which grazed his opponents goal post and was claimed by the Wanderers as a goal, but as it appeared clearly to the referees that this was not the case, it was ruled accordingly. Charlottetown is a hot town.

THE EXAMINER'S advice is to the effect that the Abegweits beat the Dalhousie Club yesterday, and this morning gave the Picton Club a bad drubbing. The Abegweits have thus scored three brilliant victories, defeating the Wanderers, the Dalhousie and the Picton Clubs, and we heartily congratulate them. The team are expected home to-night.

A Tribute to the Late Mr. DeBlois.

The following resolution was passed at a meeting of the Canadian Board, of the North British and Mercantile Insurance Company, held at Montreal on the 27th of August, 1886: "The directors of the Board in Canada, having been apprised of the terribly sudden death of Mr. George W. DeBlois and of his laughter, upon Saturday, the 14th instant, desire to express their heartfelt sympathy with the family in their bereavement. "The directors desire further to record their sense of the great loss sustained by the Company in the death of Mr. DeBlois, and his removal from the Branch of the Company's business in Prince Edward Island, in the able and conscientious management of which for twenty-two years, he justly earned the entire confidence of the Board of Directors at the Head Office and also of that in Canada."

What True Merit Will Do.

The unprecedented sale of Boschee's German Syrup within a few years has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected, and leaves them in a purely healthy condition. A bottle kept in the house for use when these diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cents, large bottles.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little shrub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

TELEGRAPHIC NEWS.

[SPECIAL DESPATCHES TO THE EXAMINER.]

The Riel Affair.

MONTREAL, Nov. 19.

The Rielites have received a bad slap in the face. On Wednesday, at a meeting of the leaders, it was resolved to hold a mass meeting in Camp de Mars, on Sunday next, to revive the protest made that day twelve months against the execution of Riel. Last night the Secretary of the Rielite party issued a notice, saying that the ordinary of the diocese, without disapproving of the meeting that was announced to take place on Sunday, the 21st inst., considers that it comes under the head of those which are mentioned in his circular letter of August 14th last as not being desirable to be held on Sunday. Under these circumstances we hasten to declare the meeting adjourned to a future date. This action of Archbishop Fabre is very significant, and though favorably worded by the Rielite manifesto, is regarded as a blow to the Rielite party.

Murderers Respited.

OTTAWA, Nov. 19.

Derose and J. Connolly, sentenced to be hanged in British Columbia on the 24th inst., have been respited to 22nd December pending an investigation into their sanity. Robt. Maxwell, who was to have been hanged at the same time, has had his sentence commuted to imprisonment for life. The prisoners were convicted of the murder of Wm. Dillman, formerly of Nova Scotia, and latterly of Minneapolis.

Pullman Cars Burned.

TORONTO, Nov. 19.

Two Pullman cars attached to the Grand Trunk express from Montreal was destroyed by fire while the train was running between Kingston and Napanee early this morning. Thirteen passengers who were asleep in the cars barely escaped with their lives. The cars were valued at \$32,000, and the loss to passengers will amount to about \$2,000.

The Ball Family in Luck.

HALIFAX, Nov. 19.

The American branch of the Ball family may rejoice. Several families of the Balls, living at Sydney, Cape Breton, have received letters from a firm of solicitors in London, that \$1,500,000 has been left them by some relative long since deceased. The Ball family here, were related to Sir Alexander Ball, at one time an Admiral in the British army.

A Palace on Fire.

LONDON, Nov. 19.

The bursting of an oil lamp set fire to Hampton Court Palace, in Middlesex, this afternoon. The fire raged fiercely through the various apartments of the Palace for three hours, when the flames were finally subdued.

The New York Boodlers.

NEW YORK, Nov. 19.

In the trial of ex-Alderman McQuaid today, ex-Alderman Pulgraf, also one of the board accused of bribery, testified that the Broadway Surface Railway paid \$500,000 for its franchise, each member of the board receiving \$22,000.

Condemned to Death.

SOPIA, Nov. 19.

Capt. Hobokoff, who led the revolt at Bourgas, and other persons who were implicated in the rising have been condemned to death. Several former officers, who took part in the revolt, were sentenced to imprisonment for life.

A Customs Officer Dead.

HALIFAX, Nov. 19.

Samuel Noble, cashier of the Customs Department in Halifax, is dead. He had been complaining of poor health for a year but his condition was not considered serious until within a few days of his death.

Proposals Declined.

LONDON, Nov. 19.

The White Star and Cunard Companies' proposal to carry the mails have been declined. Accordingly after the 30th inst. the steamers of these lines will sail from Liverpool for New York direct.

Barges Wrecked—Crews Lost.

FRANKFORT, Mich., Nov. 19.

Two barges in tow of a steam barge, broke loose yesterday morning, 20 miles off Manoloup Island. Both barges are total wrecks and the crews, numbering 15 men, were all lost.

General Kaulbar's Retirement.

LONDON, Nov. 19.

The retirement of Gen. Kaulbar's from Bulgaria, is spoken of in all European capitals as the retreat of Russia before the united force of Europe.

Ship Foundered.

LONDON, Nov. 19.

Advices received here state that a ship crowded with native laborers, returning from the Queensland plantations, foundered in the Pacific Ocean, and that 140 lives were lost.

Weather Bulletin.

TORONTO, November 20—10 a.m.

Fresh to strong west to southwest winds, mostly fair weather, not much change in temperature.

Scott's Emulsion of Pure

Cod Liver Oil, with Hypophosphites

Is prepared in a perfectly agreeable form, at the same time increasing the remedial potency of both of these specifics. It is acknowledged by leading physicians to be marvellous in its curative powers in consumption, Scrofula, chronic coughs and wasting diseases. Take no other.
