Island, to confirm the Award, will not be submitted for Her Majesty's approval. Now, we suppose there can no longer be any doubt that the Great Humbug has now been set at rest for ever. We shall publish in our next No. the despatch from the Duke, with, perhaps, some remarks on the suggestions offered by his Grace for settling the Land Question by other means than the Commissioners' Award.

What a comment on all the boasting, promising and nonsense uttered by the Government party, from His Excellency the Lieut. Governor down, respecting the Award and the Arbitration!! All other schemes were denounced as "visionary" excepting this famous Land Commission, which called forth the most extravagant plaudits from Mr. Dundas, in his speeches to the Legislature, and in his replies to addresses from the country, and which Messrs. Gray & Co. boasted, a thousand times, that they could carry through the British Cabinet, with the greatest possible ease, as they had such tremendous influence there. Let Professor Brenan look to his laurels. He is said—however justly we don't pretend to assert—to be one of the great humbugs of the day; but he is as a farthing rush light compared to the blaze of genius exhibited in the practice of the ancient art of humbug by Messrs. Gray & Co.

Mr. Secretary Pope, in the *Islander* of Friday last, premises to "speak freely" in his next editorial about the Duke's cruel destruction of the Award. We have no doubt he will; and it is pleasant to know that he will be aided in his exercise of the freedom of speech by his having been relieved from all his Land Agency business, so that we may expect to find him "pitching" into the Proprietors with a hearty good will.

INTERCOLONIAL AFFAIRS.

The late President of the Canadian Executive, the Hon. D'Arcy McGee, has just been visiting our neighbours of Nova Scotia and New Brunswick in the interest, manifestly, of intercolonial affairs; and some few of our Continental contemporaries are of opinion that he has "lost the grace of his mission" by too long association with the *Sandfield* administration. Now what are the facts. The two provinces of United Canada had until lately but two political parties; but now there is a third one in Canada East. "John A. McDonald *versus* John Sandfield McDonald and George Brown," represent the present state of things in Canada West; whilst "George Cartier *versus* Dorion and Sicotte *et al*," expressed the state of parties in Canada East until very recently.

John A. McDonald, who is a Protestant and representative of the Orangemen, co-operates in politics, on the part of Canada West, with George Cartier, who is the representative of the "church party" so called, on the part of Canada East.

On the other hand, John Sandfield McDonald, who is a Catholic, and George Brown, a "broad Protestant," represent jointly the liberals of Canada West, and co-operate with the *Reds* or liberals of Canada East, who until lately have been led by Dorion and Sicotte. But Dorion deserted his party on the Intercolonial Railway, leaving behind him in the Cabinet, Sicotte, McGee and others who were in favour of the project. Things continued in this state until it pleased Sandfield McDonald to resume official ties with Dorion at the expense of Sicotte and the Railway. Now, McGee having followed Sicotte into office and out of it again on this very Railway question, seems to us to have fairly and fully established his right to be considered the "representative man" of this very interest; and if successful in this and the federal question, we shall not be unwilling to regard him as deserving the first federal premiership of these Colonies. Some of our very loyal folk find in McGee's Irish antecedents a certain disqualification; but rather should they regard these as the most honorable that could be adduced; for, why should not the man who perils his life for Representative Institutions and a Local Legislature in Ireland, be true to these when he finds them before him in the Colonies.

And now with regard to this Railway. In Canada they seem to think that £3,000,000 would not complete it; and they feel that six per cent. on $16,000,000 of a Railway debt, in the shape of interest, is quite enough for the resources of the country without any further addition. But why will not the provinces interested invite England to recur to her original proposition of a guarantee for £7,000,000, and by her aid convert their present and prospective *six per cents.* into "threes" or *three and a half*, and thus enable them to borrow the required sum for completing the road without any sensible increase to their present liabilities, but with manifold increase in the shape of general advantage to the provinces and to the empire. The unsupported Bonds of the provinces sell at par or even at premium when bearing interest at six per cent. Now, why might not other Bonds, if bearing the Imperial guarantee, sell equally well at 3½ per cent. *Let these, then, "retire" those*, and the saving effected by the operation would be fully sufficient to cover the extra loan for completing this most important work.

If England were sincere at first in offering to guarantee £7,000,000 for the work, why should she hesitate now to make good her assurances. Or was it for saving her from them that she conferred a governorship upon the man (Hincks) who, in doing so, left the country which trusted him involved in insuperable difficulties, and unable today to complete this connection which promises so tempting a future to B. N. America.

Our friends of the *Vindicator* betray rather more spleen than good sense in the following extract which we take from their No. of Friday last:—

"We must, however, say, that although the literary contributions of the unprincipled "professor" will doubtless add to Mr. Whelan's finances, yet they will add but little to the character of the paper in which they appear, or to that of its proprietor. We may also state that we thoroughly understand and appreciate the motives which induce our friend to devote so much of his valuable space to the undisguised blackguardism of the self-styled "medicine man." The combined attacks of notorious quacks, of open and avowed enemies, and of base and double dealing friends, on the VINDICATOR and its publishers, merely convince us that we have pursued an independent and straightforward course while conducting this journal."

"Professor" Brenan's advertising business is the matter referred to. We can see nothing legally, morally, or professionally wrong in publishing this person's advertisements, any more than it would be wrong to publish the advertisements of other enterprising Professors whose wonderful achievements in the world of science, but particularly medical science, are every day announced to an admiring world. We can see no reason for joining in a hue and cry against any stranger who comes to push his fortunes here, without violating any law of the land, merely on the ground of two or three unsupported statements which have been circulated prejudicial to his character. If "Professor Brenan" be a humbug, and a quack, and all that sort of thing, we have no substantial proof of it; and in the absence of any safeguards against the practice of quackery, such as a legally constituted Medical Society might supply, the community, we think, should be left to form their own opinions of him by experience. If quackery is to be put down, let it be done in a legal way; and let the innumerable nostrums advertised by foreign pretenders be subjected to scientific tests, before a competent body, and approved of, before they are allowed to pass over an apothecary's counter. It is a most invidious thing for a newspaper publisher to decide arbitrarily on the merits of any particular class of advertisers. Cases might often occur in which great injustice would be done to individuals and to the community, if all editors should set themselves up as judges to decide that one advertiser was a greater humbug than another. We have no interest in "Professor's Brenan's" affairs any more than we have in those of "Professor" Barnum, the Prince of Humbugs; and if the latter were to come here to-morrow, we really believe that the *Vindicator* would not require much pressing to participate with us in his advertising patronage.

We are sorry for having incurred the displeasure of the *Vindicator*, for we did express the hope, at the commencement of its career, that it might be a useful ally of ours in political controversy; and we have written nothing yet to shew that we have abandoned the hope. We certainly did not suppose that the new-born spite, or some other feeling in the breasts of our friends, would have carried them so far as to prompt the insinuations in the second and third sentences of the above extract. In publishing Professor Brenan's advertisements, we were actuated by no other "motives" than a desire to profit, in an honest way, by our advertising space, and to give the "Professor" the same chance that we would give to any of his fellow citizens of the United States who come here frequently, personally or by agent, to advertise their unparelled skill and their wonderfully renowned specifics, which never fail to cure all the ills that flesh is heir to; and we assure the publishers of the *Vindicator* that we cherish none but the most friendly feelings towards them, strengthened by an admiration of the "independent and straightforward course" they have pursued as journalists. If the spite, which so ill-becomes them, cannot be removed in any other way, we would suggest that they should write a terribly severe advertisement on Professor Brenan, and we promise to publish it, in a conspicuous place, at a very handsome discount on our usual rates.

The Mayor and City Council of Charlottetown have forwarded a lengthy Address to the Queen, praying that Her Majesty will be pleased to withhold Her Royal assent to the Act passed in the last session of the General Assembly, to authorize the Government to sell the Military Barracks in Charlottetown. It seems that some of the citizens wish to have the Barracks and Battery placed in the custody and under the care of the Mayor and City Council, in order to form a place of healthful recreation for the citizens and their families, and a parade ground for the Volunteer Force. This may be all very well, but if said people were very anxious about the health of the citizens they would certainly endeavour to remove without delay that nuisance, the old Market House, from our principal square.—PROTESTANT.

By Telegram, received on Thursday night, we learn that Mrs. Young, the widow of the late Hon. John Young, and mother of the Hon. Dr. Young, of this City, died very suddenly at Halifax.

MELANCHOLY ACCIDENT.—We regret to learn that a young man named John Taylor, aged about 18 years, clerk to Mr. Charles Owen, Merchant, of Georgetown, was accidently drowned while bathing in that port, on Wednesday evening last.

STRAINING IS HURTFUL.
STRAINING IS HURTFUL.
STRAINING IS HURTFUL.

Cramps, Spasms, wrenching pains attending an evacuation from the bowels, from a dose of medicine, is a proof that the medicine thus taken is injurious. It is not the quantity of faeces expelled that insures a cure. Pills and purgative medicines made of aloes and other drastic cathartics are injurious, inasmuch as purgation from these obnoxious drugs is induced only from the irritation they produce on the muscuous membrane. They have no influence on the liver or chyle, but are carried to the lower bowels, and by their irritation evoke an evacuation. Dr. Radway's Pills are the only safe purgative to take. These pills act on the liver and other secretions; hence in their operation no straining or wrenching pains follow; the stools, instead of being thin and watery, are natural; it is the absence of the diseased humors which these imperfect pills fail to eliminate from the blood, that causes thin watery discharges; and hence when the patient has an evacuation he has to strain without affecting the desired result. A dose of Radway's Pills will insure a thorough evacuation; this accomplished, no further physic is reqiured.

Holloway's Pills.—Nervousness and want of energy—When first the nerves feel unstrung, and listlessness supplants energy, it is the right time to take some alterative, as Holloway's Pills, to prevent disorder running into disease. These excellent Pills correct all irregularities and weaknesses. They act so kindly, yet so energetically, on the functions of digestion and assimilation, that the whole body is revived, the blood is rendered richer and purer, the muscles become firmer and stronger, and the nervous and absorbent systems are invigorated. These Pills are suitable for all classes and all ages. They have a most marvellous effect on persons who are "out of condition;" they soon rectify whatever is in fault, restore strength to the body, and confidence to the mind.

JUST THE THING.—Rev. E. R. Fairchild, D. D., Montgomery, Orange county, N. Y, writes—"Mrs S. A. Allen's World's Hair Restorer and Zylobalsamum have been used in my family with beneficial effects; and I take pleasure in commending them to such as have occasion to use such preparations."

CHEAPSIDE STORE.
VINEGAR!

THE SUBSCRIBER begs to inform the Public that he has on sale a few Casks of

Hills & Underwood's VINEGAR.

The following certificate will testify to its genuineness.

BENJ. DAVIES.
July 20th, 1863. 6in

I hereby certify that the Vinegar prepared by an improved process of fermentation from Malt by Messrs. Hills & Underwood, of Norwich and London, possesses the taste and aroma of the finest White Wine Vinegar of France; and being free from the gluten present in all Vinegars manufactured in the old way, it is not liable to become decomposed by keeping or to cause disorder in weak stomachs. It contains no Sulphuric or other mineral Acids, such as contaminates all the ordinary Malt Vinegars of the United Kingdom, and is stronger by nearly 20 per cent in pure Malt Acid than the Vinegar on sale in London not manufactured on this excellent system. A Vinegar thus perfectly acidified must be far more wholesome, grateful and mild than our ordinary half fermented Vitriol holding Vinegars, and preferable to much even of the pretended Wine Vinegar of France, which is most commonly nothing more than the acrimonious Acid distilled from wood, flavoured in imitation of the genuine article.

The Liverpool and London FIRE AND LIFE INSURANCE COMPANY.

THE Agent for the above first class English Fire Insurance Company begs to call the attention of the public to the advantages offered by this Company, in respect to the security to the assured, and promptness to pay losses, which, without disparaging other Companies, may be safely asserted to be superior to those afforded by any other Company in the Island. The Liverpool and London F. & L. Insurance Company has been in successful operation since 1836, with agencies all over the world, and has paid in losses about two millions and a quarter sterling. Its subscribed capital is £2,000,000 sterling, and its invested funds alone amount to £1,312,000 stg.; and the fire premiums for 1861 amount to £360,130 19s 9d; and in addition to this very large capital, the Company, having been established before the recent Limited Liability Act, the individual fortunes of each of the shareholders, comprising some of the wealthiest merchants in Liverpool and London, are liable for the losses, should the whole of the capital be swept away. In this respect it differs, it is believed, from any other Company established here.

And lastly, the Agent being appointed by Power of Attorney directly from England, is authorised to draw Bills the moment a loss occurs, and without referring to the Home Company, to the extent of one thousand pounds sterling.

With these superior advantages, the Company is not disposed (though it might be well justified) to ask a higher rate of premium than other English Companies, which do not present the same advantageous features, and the Agent has been advised that an uniform rate has been agreed upon by the Directors of this Company and the "Queen's," and that the Agents here should, in this respect, "act in concert."

[EXTRACTS FROM NEWSPAPERS.]

On reference to a return made to Parliament, and ordered by the House of Commons to be printed, 7th June, 1861, it will be seen that the increase of Duty for the year, paid by the "QUEEN," was £256, being upwards of £1000 more than paid by any other office ever yet established in this City.

[From Gore's General Advertiser, Oct. 24, 1861.]

"Indeed, we believe that we are perfectly justified in saying that no other Company, within the same period, ever attained so large an income in either the Fire or Life Departments as the Queen Insurance Company. In making this statement, we make no exception even in favor of our older local companies, namely, the Liverpool and London, the Royal, and the Lancashire Insurance Companies."

[From the Civil Service Gazette, Nov. 2, 1861.]

"Among these important institutions stands eminent for its solidity, as well as for its success, "the Queen Insurance Company," which last week held its annual meeting of proprietors in Liverpool. A reference to the ample report in another page will fully satisfy every reader of the signal progress made by this association since its foundation. Such success is, indeed, rarely attained; and it attests at once the excellence of its management, and the public confidence in its constitution."

[From the Liverpool Mercury, Nov. 2, 1861.]

"It must be gratifying to the public generally, and especially to the proprietors, to find that its income during the past three years has increased at the rate of £20,000 per annum. We believe that no other Company, within the same short period, ever attained so large an increase either in the Fire or Life Department. This speaks highly for the activity and zeal of the management, while the promptness with which all the claims, arising out of the late disastrous fire in London were met, testifies to their financial ability and the care and prudence which marked the investment of these funds."
