He said it was a central point
where all Command records are
maintained and the logical place
for branch officials to seek in-
formation or assistance when in

COMMUNICATIONS

Continued from page 1

N.B., was on return to Prince Ed-
ward Island when it ran into the
storm. The craft made anchor in
Pownal Bay and the crew were
taken ashore there and returned
to the City.

Traffic Impeded

All over the roads and main
highways branches and trees were
down. The highway in the vicinity
of Pownal being particularly
blocked. However the Department
of Works and Highways was man-
aging the job and very quickly had
the road passable again.

A slight accident occurred near
the Towers Restaurant, Malpeque
Road, when during a period of
poor visibility a car operated by
a man from Marshfield crashed
into the rear of a car which had
stopped to change a tire. Damage
was slight and there were no in-
juries.

A great deal of damage was
suffered by farm crops which had
not been harvested. This was es-
pecially true of grain which had
been beaten down by the wind
and rain.

Generally the damage through-
out the Province was compara-
tively mild considering the in-
tensity of the storm which rag-
ged across the Province for hours
starting late yesterday afternoon
and continuing until last night.

Wire Service Affected

Both the Maritime Electric and
the Island Telephone Company
ran into the same difficulties as
other services. Most telephone
circuits were out and as far as
communication with the mainland
was concerned the Island was
completely cut off. The company
reported last night that at a late
hour they were beginning to faint-
ly reach Saint John, but the rest
of the lines were still closed.

Falling trees caused the most
of the trouble for the Maritime
Electric Company as they scat-
tered branches in all directions.
The Railroad roundhouse which
was in the process of being dis-
mantled with the roof partially
off had the work of demolition al-
most completed when in the
height of the gale the walls came
tumbling down.

Members of the Yacht Club were
busy securing their crafts and
protection, as a part of the B.E.S.L. has
a unique significance in Canadian
life. "Some people," he said, "think
that the task of the Legion is
largely done, but there is little
more to do, but this is not so for
we are engaged in the great
struggle of solving great problems
for the service men." He said
that in order to enable the Legion
to accomplish the tasks which
lie ahead and to leave the im-
print of the Canadian Legion on
Canadian life it will be neces-
sary to have a larger membership.

20 per cent of the membership of
the service men is not enough he
said.

In conclusion he asked for
greater efforts on the part of all
members to bring more men into
the Legion and as a result it will
be a greater organization, one that
will certainly commend itself to
the Canadian people. The toast to
Her Majesty's Forces was re-
sponded to by Group Captain A. G.
Kenyon, Commanding Officer, R.
C.A.F. Station, Summerside, and
the toast to the ladies was re-
sponded to by Mrs. Clifford Mac-
Guigan, President of the Ladies'
Auxiliary, Summerside Branch.

IN MEMORIAM

In fond and loving memory of
our dear brother William Lewis
Paynter who passed away at his
home, 289 West State Street, Pres-
que Isle, Maine, on September 5,
1952.

Fast as the rolling seasons bring
The hour of fate to those we love,
Each pearl that leaves the broken
string
Is set in friendship's crown above.

As narrower grows the earthly
chain,
The circle widens in the sky;
These are our treasures that re-
main
But these are stars that beam on
high.

Always remembered by his sis-
ters Minnie and Mary, Kens-
ington, P. E. I.

New roofs for old

A NUMBER of ancient English
churches are replacing their
equally ancient roofs with alumi-
num. One of these is the Chapel
of St. James in the village of
Nether Warton, Oxfordshire. Its
lead roof, originally laid in 1665,
brought £478 as scrap—enough
to pay the whole cost of installing
the new roof.

It is a neat example of how,
while most metals have been get-
ting more expensive through the
centuries, the cost of aluminum
has been going down. Aluminum

Adenauer In
Smashing Win
In Germany

BONN, (AP) — Chancellor Kon-
rad Adenauer's government surged
toward a smashing triumph Mon-
day in a West German election
which trounced his main Socialist
opposition, routed the Communists
and squelched a Nazi comeback
bid.

His Christian Democrat party
was well out in front of the op-
position Socialists who fought re-
armament and demanded that
West Germany remain neutral in
the cold war.

Sharp vigilance by West Ger-
man authorities prevented a feared
outbreak by Red thugs from
East Germany who spent Sunday
in jail instead of molesting voters
as the government charged they
were ordered to do by Moscow.

The election Sunday took place
in a calm, violence-free atmos-
phere.
Peter Pond, the great fur-trader
and explorer of the Canadian
northwest, was born in Connecticut
in 1740.

SAFETY SYMBOL
LONDON, (CP) — No child has
been killed on the streets in the
borough of Islington since "Billy"
took over, two years ago. Billy is
an automaton with moving lips and
a hidden loudspeaker voice, who
gives road safety lectures in Is-
lington schools.

CHELMSFORD, England (CP)—
The Essex old peoples choir faced
one difficulty—reaching the top
notes of some of their selections.
Now the music advisor is com-
posing special music within their
tonal range.
