

fish carriage, in which was his Majesty, dressed in a Field Marshal's uniform, there was the greatest cheering. In the last followed the Queen. Their Majesties were drawn to nearly opposite Stanhope gate, and then alighted, when a royal salute was fired by the artillery. The royal cortage proceeded towards the troops, who were formed in line, when the band struck up "God save the King."

The King accompanied by her Majesty, the Royal Princesses, the Duke of Wellington, Prince George of Cambridge, and a numerous staff, passed and repassed the lines; they then took up their position in front, and the troops marched by in review order, after which the Guards formed themselves into a square, and her Majesty most graciously presented the regiment with the new standard, the men presenting arms. The troops then formed again in line, and marched by in open columns, with their new colors flying and band playing. At one o'clock a royal salute was fired. On their departure their Majesties were greeted with the greatest enthusiasm.

Notor did the victor of Waterloo witness a more devoted attachment and respect than were bestowed upon him this day. Three glorious cheers saluted the hero on his arrival at Apsley house.

The 6th Dragoons, or Carbiniers.—This regiment, which is at present stationed at Portobello barracks, was yesterday inspected by Lieutenant-General Sir Hussey Vyvyan and Major-General Sir Edward Blakeney, who seemed much pleased with the appearance of that gallant corps, and congratulated the officers on their excellent discipline.

It is said to be in contemplation to reduce the second major and two companies in every regiment of infantry in the service.

The commission of the unfortunate Captain Markham of the 58th regiment, who fell in a duel with Colonel Macdonald, of the 95th Highlanders, has been given to an old Lieutenant of the 89th regiment, without purchase. Captain Campbell, of the 46th, has got the Majority in that regiment, vacant by the suicide of Major Thompson. Three cadets in the Royal Military College have just got commissions, two by purchase, one gratis.

From the London Courier, July 5.
We regret to state that the returns for the Quarter's Revenue, ending this day, will not be quite so favorable as was anticipated some time ago although the deficiency is to be accounted for in a way which will show that there is no falling off in the prosperity. The returns will not be completed until late this evening, and as some alteration may take place in the course of the day, we cannot pledge ourselves for the entire correctness of the subsequent statement; it will, not, however, we believe, differ very materially from the returns which will be published to-morrow.

In the customs there will be a deficiency as compared with the corresponding quarter last year, of about 200,000l.—Stamp, 40,000l.—Assessed Taxes, 100,000l.—Post Office, 75,000l.—Miscellaneous, 75,000l.—making a total decrease of 460,000l.

In the Excise, however, there is, as we stated on Tuesday, an increase, which is now computed at 35,000l., making the decrease for the quarter, 425,000l.

It should be observed with respect to the Customs, that in the corresponding quarter of the last year a considerable sum had been received for duty on Foreign Corn. The absence of a similar source of revenue, and the restrictions upon commerce caused by the Cholera, in the quarter just ending, will sufficiently account for the present deficiency.

The apparent falling off in assessed taxes is easily accounted for. Owing to the abolition of the Receivers Generals, there has not yet been time to collect the same amount as in the corresponding term of the last quarter. The increase of the Excise would have been much larger, but for the repeal of the duty on candles.

In the corresponding Quarter of the last year, that duty produced 120,000l.; and, therefore, if it were still in existence, there would be an increase of upwards of 150,000l. on the Excise for the present Quarter.

M. Dupin set out yesterday for the department of the Nièvre, but will, it is said, return to Paris in the course of a few days.

The accounts from Africa mention the death of King Broomey. This native King, it appears, was from the first hostile to the American settlement of Liberia, and never dissembled it to the last.

IN PURSUANCE OF THE ACT of the General Assembly of this Island, made and passed in the Eleventh year of the Reign of his late Majesty King George the Fourth, entitled "An Act for raising a fund by an Assessment on Land, for erecting a Government House and other Public Buildings within this Island." I do hereby publicly notify the Owners, Proprietors, or Occupiers of Lands within this Island, for which the Annual Assessment charged thereon by the said Act, of Two Shillings lawful money of this Island, for every hundred acres contained in the several Townships thereof, and in the several Islands belonging thereto, and the sum of Two Shillings for every Town Lot, Pasture Lot, Common Lot, and Water Lot, granted in the Town and Royalty of Charlotte-Town; and the sum of One Shilling and Four-pence for every Town Lot, Pasture Lot, Common Lot, and Water Lot, in the Towns and Royalities of George-Town and Prince Town, is payable, that, unless the Assessment for the current year shall be paid into my hands on or before the Seventeenth day of February next, I shall on the last day of the next Fiscal Term (1833) cause Proclamation to be made, of all such lands as shall then be in arrear, for non payment of the sums charged thereon, agreeably to the directions of the said Act.
