Receives Degree From University of Montreal

Byron J. Grant, Montague, received the degree of L.Sc.O. from the University of Montreal, School of Optometry, at the graduation exercises held in Montreal today and will open an office in Charlottetown in July. He is a son of Senator T. V. Grant, M.D., and Mrs. Grant of Montague.

Mr. Grant is a former graduate of Prince of Wales College where he received his first class teacher's license. He taught school for five years in King's County and was at one time Vice-Principal and later Principal of Montague Memorial School.

In 1936 he left the Province to take a position as meteorologist with the Department of Transport in Shediac, N.B. Later he was transferred to the Department's control tower at Traffic Control officer at Moncton. Shortly after the outbreak of war he joined the Royal Canadian Air Force with the commission of Flying Officer and spent three years in uniform. After his discharge from the air force, he began a four-year course in optometry from which he was graduated today at the University of Montreal.

Three of his brothers are medical doctors - Dr. Roy in Summerside, Dr. Earl and Dr. Norbert both in Saint John, N.B. Another brother Dr. Vincent is a dentist in Summerside. His youngest brother Raymond is studying optometry in Montreal. Four of his sisters are nurses, one a laboratory technician, and another a Registered Pharmacist, they are Beatrice, Mrs. E. P. McGuire, Montreal; Cora, Mrs. Stephen Gillis, Deep River; Mary, Mrs. Dr. Haggerty, Megantic, Que.; Sister St. Vincent, Reg. Pharmacist, Charlottetown Hospital, Jean in Montreal, and Ann at home.

His father, Senator Grant, is also a medical doctor.

It is reliably reported that the Bergmann Construction Company are carrying on negotiations which they hope will lead to the signing of a contract whereby three steamer-loads of pulp wood would be assembled in Georgetown each year. Certain alterations to the wharf here are necessary to facilitate loading this product. If arrangements can be made to have this work done, the contract will in all likelihood be signed.

The Danish, diesel-powered, 872 reg. ton, ocean-going freighter, "Hugo Neilson", which arrived in Georgetown on Sunday last from Digby, N. S., sailed from here on Monday night at 10.00 p. m., for Swansea, Wales. A crew of twenty manned the freighter, which was commanded by Captain J. Kristofferson. Built in England, eleven months ago this ship is modern in every respect and all her galleys are equipped with electric cooking stoves. The main portion of her cargo of pig props was put aboard at Digby, N. S., and the remaining 116 cubic fathoms were loaded here by the Bergmann Construction Company. Pilot Temple Gotell and his co-pilot, Victor Rafuse took the ship in and out of port.

Teachers At Murray Harbour Hold Meetings

On Friday afternoon May 19th, a teacher's meeting was held in Murray River School, with an attendance of sixteen teachers and their supervisor Mr. A. A. Gilmore. This meeting took the form of an informal discussion group. Mr. C. P. Richards was appointed chairman, and in a few well-chosen remarks, welcomed the teachers and asked them to be ready to state their problems. Mr. Gilmore spoke on the Grade 8 tests showing improvement made as follows:

1. 9 sub-tests instead of 8 Hygiene taking its place as one of the sub-tests along with Science

2. Tests are bound in booklet form, done in three settings with short intermissions.

3. No cancellation type of question used.

4. 250 items in the whole standard tests. Some of the problems aired by teachers were:

The difficulty of grading - The type of school closing in Rural schools - How to get more Co-operation between home and school - The teaching of Physical Drill - The supervisor stressed the fact that each teacher should judge carefully in the matter of grading and judge what is best for the pupil. One suggestion was made that a standard test be set for each grade as a guide to teachers in this matter. Any type of school closing that brought teachers, parents, and children together was acceptable, it was stated.

The new Physical training books were discussed, some thought the high grade one to be a little difficult to use in the rural schools. It was suggested that school libraries be classified and a record kept as a book was taken out to be read.

It was thought that a Home and School Association would be very beneficial and result in greater co-operation if it could be organized. Appreciation was given to the Women's Institutes, which have been helpful to the schools in a great many ways.

Mention was made of Highway signs and of teaching the children to respect same by not defacing them in any way. The new Temperance Study book was discussed and ways of teaching it were planned.

In closing, Mr. Gilmore asked - Are we going away with the idea that we learned something from this informal discussion group? All teachers seemed to feel that this was an excellent idea and well worth continuing under the capable leadership of our Supervisor.

Meeting came to a close with the singing of the National Anthem.
