

## NATURAL HISTORY SOCIETY OF PRINCE EDWARD ISLAND

P.O. BOX 2346, CHARLOTTETOWN C1A 8C1

MEETINGS are held on the first Tuesday of the month (except June, July and August) at 8:00 p.m. at the Farm Centre on University Avenue. Members and non-members are welcome.

MEMBERSHIP is open to anyone interested in the natural history of Prince Edward Island. Membership is available at any meeting or by contacting Margaret Mallett, 53 Fitzroy St., Charlottetown, P.E.I. C1A 1R4 (telephone 894-9595). Annual rates are as follows: regular - \$4; student - \$2; family \$5. Renewals are due in early January.

1987 EXECUTIVE: President.....Rosemary Curley, Waterside 651-2585  
Vice-President.....Dan McAskill, Donagh 569-4351  
Past-President.....Jane Symmes, Bonshaw 675-4806  
Sec/Treasurer....Margaret Mallett, Charlottetown 894-9595  
Recording Sec.....Geoff Hogan, Springvale 894-5995  
Directors.....Joyce MacLeod, Charlottetown 894-4182  
.....Teresa Hughes, Websters Corner 676-2026

NEWSLETTERS are published bi-monthly. Articles, notes, reports, drawings, etc. are welcomed from members. If you have seen anything unusual, please share it with us. It is important to have your observations recorded so that others may learn from them. "Today's notations become tomorrow's history". All contributions should be sent to:

Gary Schneider,  
RR6, Cardigan, P.E.I.  
COA 1G0  
Phone: 838-2678

The Natural History Society gratefully acknowledges financial assistance from the Department of Transportation and Public Works which enables the newsletters to be distributed to schools and libraries as well as to members.

The Natural History Society of P.E.I. is a member organization of the Canadian Nature Federation. The Society is a registered, non-profit organization. Editors of other newsletters are welcome to reprint articles appearing in this issue but acknowledgement would be appreciated.

### **This month's cover**

The Little Brown Bat (Myotis lucifugus) is the most common bat in Canada, ranging from coast to coast and into the Yukon Territory. They are often seen on summer evenings, especially around ponds, chasing insects, and are covered with long, silky brown hair. Jennifer Brown tells you a lot more about this interesting mammal on pg. 3.
