Men and Women Repaired

A machine that is constantly and incessantly working needs repairs at certain intervals.

The human frame worn by mental and physical toil and subjected to the worries and cares of modern life, has need of repairs and building up. In the hot summer weather nervous energy is at a low ebb, and as consequence nervous debility, terrible headaches, dyspepsia and a run-down condition make life a burden for thousands.

Paine's Celery Compound is a great restorer and builder when weakness and sickness prevail. This great medicine has the power of rapidly repairing the tissues and purifying the blood. It bestows the proper nutriment to all the weakened tissues, bringing strength and true vigor, thus averting breakdown and collapse.

Thousands of lives are now fast wearing out that can be prolonged and made happy by the present use of Paine's Celery Compound. Its use today will save months of sickness, misery and suffering. Take no substitute; get only "Paine's" the kind that cures.

Getting an Extra Ration.

Medical Officer (going his rounds)—Well, Murphy, how are you this morning?

Private M.—Much better, sir.

M. O.—Is your appetite good?

Private M.—Yes, sir.

M. O.—Are you getting enough to eat?

Private M.—No, sir.

M. O.—What would you like in addition to your present diet?

Private M.—Another pound of bread, sir.

M. O.—That I cannot give you, as the regulations do not admit of a soldier receiving a double ration of bread in one day.

Private M. (after a moment's hesitation)—Could you not let me have the extra pound and mark it down as bread poultice?

He got it.—London Telegraph.

Fatal Frivolity.

Jack and his two pretty cousins happened to be walking along in front of a drug store.

"I wonder," said Ethel, "if, astronomically speaking, Uncle Henry's son is in the right sign for ice cream soda?"

"I'm afraid not," replied Gwendolen with her eye on the youth. "I don't see any signs of the soda act."

Jack groaned and marched them fiercely past the drug store by way of punishment.

One whale will furnish from 1,000 to 3,000 pounds of bone. At San Francisco the bone is split, sorted as to color and tied in bundles. These split pieces are called slabs and are three to eight feet long and weigh from three to seven pounds.

It rarely if ever happens that a woman actually falls in love with the man the rest of the world thinks she should.

Perfectly Cured

Weak and Low Spirited—Nervous Prostration—Appetite Poor and Could Not Rest.

"I take great pleasure in recommending Hood's Sarsaparilla to others. It has been the means of restoring my wife to good health. She was stricken down with an attack of nervous prostration. She suffered with headaches and her nerves were under severe strain. She became very low spirited and so weak she could only do a little work without resting. Her appetite was poor, and being so weak she could not get the proper rest at night. She decided to try Hood's Sarsaparilla, as we had heard it highly praised, and I am glad to state that Hood's Sarsaparilla has perfectly cured all her ailments." G. BELLAMY, 321 Hannah St., West, Hamilton, Ontario.

RUSSIA.

The lack of machine-like discipline in the Russian soldiery is truly Asiatic, and so are the stagnation, patience, suffering and squalor of the people. In Russia they are drunken, instead of being gamblers and opium smokers as in China. The absence of a middle class and the gulf that takes its place are Asiatic conditions. In Russia no man except a member of the cabinet or a diplomat dares to discuss politics.

In other Asiatic countries the people are not forbidden to discuss them, because they have never shown any inclination to do so. No more do the 119,000,000 muzhiks of Russia. Their intellectual activity never goes beyond the affairs of village, family, farm or employment. Their most active interest is in religion, but they make of that such a mere tissue of forms and mechanical or automatic practices that it is carried on without any more mental effort than the activity of a victim of St. Vitus' dance.

The leaven of progress is not in the muzhik any more than it is in the cooly. If Russia's system of government is to be threatened or altered, it must be by the 10,000,000 who reflect the European ideals in their dress and manners and who present fertile ground for the propagation of European reforms. Russia's danger is from the top; the bottom is sodden.—Julian Ralph in Harper's Magazine.

Nature's Silver Works.

The process by which nature forms such accumulations of silver is very interesting.

It must be remembered that the earth's crust is full of water, which percolates everywhere through the rocks, making solutions of elements obtained from them. These chemical solutions take up small particles of the precious metal which they find scattered here and there.

Sometimes the solutions in question are hot, the water having got so far down as to be set boiling by the internal heat of the globe. Then they rush upward, picking up the bits of metal as they go. Naturally heat assists the performance of this operation. Now and then the streams thus formed, perpetually flowing hither and thither below ground, pass through the cracks or cavities in the rocks, where they deposit their loads of silver.

This is kept up for a great length of time, perhaps thousands of years, until the fissures of the pocket are filled up. Crannies permeating the stony mass in every direction may become filled with the metal, or occasionally a chamber may be stored full of it, as if a myriad hands were fetching the treasure from all sides and hiding away a future bonanza for some lucky prospector to discover.—Pearson's Weekly.

Didn't Suit Him.

"What are you doing now?" asked the man from the country who was looking over a drug store with a view to a possible purchase.

"Charging the soda we expect to sell today."

"Do you know all the people that come in here to buy things?"

"Of course not. We have hundreds of strangers every day, especially among those who come to patronize the fountain."

"That's what I reckoned, and me and you can't make no dicker. I hain't a goin to buy no business where they charge all the sodey in advance and then peddle it out to every Tom, Dick and Harry what comes along. What I want to buy is a drug store doin a strictly cash trade."

Why, Certainly.

Customer—I wish I had as good a head of hair as you have. I have tried everything to remedy my baldness, but with no good results.

Watchmaker—Have you ever tried rubbing your head with steel?

Customer—Certainly not. That seems to me ridiculous.

Watchmaker—Why ridiculous? Isn't it a fact that steel makes the hair spring?—Boston Courier.

Montague, of Dunnville, Cured of Ulcerated Itching Piles.

Mr. Robert Montague, of Dunnville, Ont. writes:—"Was troubled with Itching Piles for five years and was so badly ulcerated, they were very painful so much so, that I could not sleep. I tried almost every medicine known when I was recommended to use Dr. Chase's Ointment. I purchased a box and from the first application got relief. Have used two boxes and am now completely cured."

Just What It Seems.

"It seems like a dream," he said in speaking of his courtship.

"My boy," replied the veteran, "when you wake up after marriage you will find that that is just exactly what it is—nothing but a dream."—Chicago Post.

Dr. Chase's Preparations Have Merit.

For Piles, Eczema, salt Rheum, Pin Worms and all skin diseases Dr. Chase's Ointment is a positive cure. It is recommended by Dr. C. M. Harlan, of the American Journal of Health.
