

CURRENT NOTES.

Mr. Barnum has offered \$20,000 for the sea serpent, dead or alive.

The women of Sydney, Australia, play cricket. Two clubs recently played a match game.

Paris contains one married woman of 14, three widows of 18, and two widows of 16, as a late census shows.

A two-legged colt died at Brockville, Ont., on Saturday. The owner had refused \$1,500 for the two days before.

With the exception of William Pitt, Lord Randolph Churchill is the youngest leader that the House of Commons has seen for nearly two centuries.

An inspection of the 500 mail bags that were sunk in the Oregon and have since been recovered shows that ladies smuggle a great many French gloves, with laces, ribbons, etc., in newspapers sent by mail.

The remains of the Abbe Liszt, by request of the Grand Duke of Saxe-Weimar, will be permanently laid beside those of Goethe and Schiller, and the Duke will erect the costly tomb already designed.

A young man who has a good deal of spare time on his hands wishes to learn of something that will keep him occupied. We can think of two things right off—getting married and tipping over a bee hive.

Germany produces 73,000 pianofortes annually, England makes 45,000, the United States 42,000 and France 20,000. Canada, it is safe to say, also turns out some thousands, for there are numerous factories in the Dominion.

One Sunday when it was raining a Washington policeman escorted Mrs. Cleveland from her carriage to the church door. He has had the arm she took on exhibition ever since, and is now waiting for an offer of \$500 a week to exhibit it in a dime museum.

The late Sir John Anderson invented for the British Government machinery which reduced the cost of making bullets from \$1.25 to 11c. per thousand, and of bayonets from \$1.87 to 62c. each, but never made anything out of it beyond his salary of \$6,000 a year.

The den of lions belonging to Forepaugh's circus, fell into a hole on a Kingston, Ont., street, and capsize, the lid being knocked completely out. A fire was built around the cage in order to frighten the animals into remaining inside, and the cage was replaced by the exertions of two elephants.

On Wednesday night last, at Montevideo, South America, as the President of the Republic was entering a theatre, a miscreant fired a revolver almost point blank at his head. The ball entered the President's cheek, inflicting a slight wound. An infuriated crowd attacked the would-be assassin, and maltreated him so terribly that he died shortly afterwards.

Horsford's Acid Phosphate.

ONE OF THE BEST TONICS.

Dr. A. Atkinson, Prof. Materia Medica and Dermatology, in College of Surgeons and Physicians, Baltimore, Md., says: "It makes a pleasant drink, and is one of our best tonics in the shape of phosphates in soluble form."

ABSOLUTE PURITY.

THE following analyses (made by the Dominion Analyst) of three BAKING POWDERS sold in this market should put a stop to the unjust efforts of the Royal Commission to label as to its being the only pure Powder. These impartial tests show that other Powders are as pure and wholesome:

W. SAUNDERS, Dom. Analyst, St. John, N. B. reports: Royal—Contains Alkaline Carbonate—a mixture consisting mainly of Bi-Carbonate of Soda and Cream of Tartar—adulterated with about 20 per cent. of Starch.

W. F. BEST, Dom. Analyst, St. John, N. B. reports: Pure Gold—Contains Cream of Tartar, Carbonate of Soda—fresh and pure.

WOODILL'S reports: April 7, 1885—Not adulterated; same as usual. June 1, 1885—Fresh and pure; same composition as usual.

MAYNARD BOWMAN, Dom. Analyst, Halifax, N. S. reports: Woodill's of good quality; contains nothing injurious.

Woodill's German Baking Powder has a reputation for purity and wholesomeness now nearly 30 years.
