

Campus Women

This week Campus Women will not be submitting a regular feature due to our six page supplement on Rape and Sexual Assault. Watch next week for our article on Single Mothers at U.P.E.I.

Quote of the week

“No person asks to be hurt or degraded, just as no one asks to be robbed because they are carrying money in their pocket. No woman -- whatever her behavior -- “deserves” to be raped by one or seven or eleven men. Rape is the responsibility of the rapist(s), not the victim.” -Ehrhart and Sandler

ERROR

In the October 17th issue of the X-Press, there was an error made in not giving the full credit to the original writer and publisher of the article entitled "Women in engineering: More than Just Numbers." The article by Jeanne Inch and was published in University Affairs by The Association of Universities and Colleges of Canada. The error was truly unintentional and we apologize to University Affairs.
