A HOAX.—By forging the name of an old and esteemed subscriber, some clown obtained insertion in the EXAMINER, of a bogus notice of the marriage of Mr. Joseph Brown and Miss Mary Ann Coughlan, both of Hope River. We trust the scoundrel may be discovered and punished.

DEAF MUTES.—Mr. J. Scott Hutton, Principal of the Deaf and Dumb Institute, Halifax, has sent us a circular letter drawing attention to certain impostors who go about the country, and who, under the pretence of being deaf mutes, collect large sums, which of course never find their way into the funds of the Institution. The public is also warned against real deaf mutes, who instead of availing themselves of the advantages of an Institution for the deaf and dumb, or of making an honest livelihood, prefer the role of medicants, and impose on the benevolent.

THE ISLAND STEAMERS—A COMPLAINT.—A correspondent of the Halifax *Chronicle* complains that no notice is given in that city of the days and hours on which our Island steamers sail from the different ports. He says: "American and Canadian travellers an[illegible]rists are considerably perplexed, on arrival here, to find no advertisement giving the required information. Last year, on arrival here, I could not find a man in the city who could state definitely what days said steamers would sail from Pictou to Port Hawkesbury; and I know of a gentleman from Portland who went all the way by stage to Sydney, leaving New Glasgow on the very day the *St. Lawrence* left Pictou for Hawkesbury.

PRINCE EDWARD ISLAND RIFLE ASSOCIATION.—An adjourned meeting of the Prince Edward Island Rifle Association was held at the Athenæum on the 22nd inst., Mayor Rankin in the chair. Col. McGill, Capt. Freeland, Major Mitchell, Lt. Col. Beer, Major Morris, Lt. Col. Rankin, was appointed to draw a code of rules and regulations for the government of the Association to be submitted to a general meeting to be held at the Mayor's office, on Thursday next, 27th inst., at 3 o'clock, p. m., when all interested in the same are requested to attend.

JAS. D. IRVING, Sec., *pro tem.*

AN INDIAN RAID.—In an Ottawa telegram to the St. John *Telegraph* (May 18) it is reported that the Government has received advices from the Northwest mounted police to the effect that the Blackfeet Indians, who occupy a reserve stretching to a considerable extent along the south of the Canadian boundary, made a raid recently into the Canadian territory, and stole a large number of horses—in one case cleaning out an Indian encampment completely of all its horses. The thieves were pursued but managed to escape. The Dominion government has directed the attention of the government to the matter, and called upon it to preserve the same order south of the line as is maintained in Canadian territory. The raiders came from the eastward, making a long detour, and sweeping everything before them. The mounted police are in excellent condition and completely successful in preserving good order on the Canadian side of the line.

A VERY GRATIFYING TESTIMONAL.—Prince Edward Islanders will be extremely gratified by the following extract from a letter written by one of the ablest and most popular gentlemen who ever occupied the gubernatorial chair in this Island. Governor Robinson is now stationed at Western Australia. In a letter written there, and addressed to R. R. Hodgson Esq., of this city, he remarks that he likes that country very well; 'but,' he adds 'of no colony, in which I ever served, am I so fond as of your little Island; and I shall always take a deep interest in its welfare." These kindly sentiments will, we feel sure, meet a ready response from our people. They will never forget—they will ever feel a deep interest in—the Governor under whose administration the most important measures ever consummated in the Province were commenced and carried to a successful issue.

FREIGHTS.—North Sydney, May 17.—G. H. Dobson & Co.—Since our our last report no improvements have taken place in our freight market, which is very dull.

Hopes were entertained that on the opening of the Canals and the St. Lawrence freights would improve, but the heavy fleet of vessels reported on their way to our shores have a tendency to keep down rates for some time unless a considerable decline takes place at home or an advance in foreign markets.

We have had considerable seeking tonnage during the past week, principally large, which have been quietly absorbed in the trans-Atlantic business, mostly to load grain at Montreal and Baltimore.

Coal continues dull, having no orders from the American market, our trade is principally confined to provincial requirements.

The current rates for coal freights are:—Montreal $2,25, Quebec, $2,00, Newfoundland, $2,50, American ports, $2 to $2,25, West Indies, £3,50, Para and Brazillian ports, $5 to 5,50, Mediterrenean, 7,00. In long voyages we remark bark Albert Russel, Singapore at $7,00 a m. gold.

Lumber requirements are rather limited still we can use a few vesssels of medium size from Montreal and St. Lawrence ports for the River Plate, at $18 to 18,50 net p. m, and from Southern ports $19 to 20 and primage.

Deal vessels are in fair demand, though ratesare inclinnd to favor shippers. We quote Miramichi, Richibucto, Dalhousie, 72s 6d, St. Margarets 70s, Quebec, 75s to 77s 6d, St. John, 72s 6d to 75s, Doboy, St. Mary's 110s to 120s, Pensacola, Florida, 120s to 130, Pascagoula 130s to 135s.

During the past week we have closed a bark 550 deal, Richibucto to Liverpool, 72s 6d, and one of 395 tons for Doboy, or Brunswick, to Cork or Falmouth for orders, U. K., 115s.

Timber freight continues dull, rates can be quoted—Quebec, U. K., 28s to 30s. Pitch pine from Southern Atlantic ports 37s 6d to 40s. Gulf 42s 6d to 45s, to the continent 47s 6d, Marseilles or Genoa 50.

We require six vessels of medium size to to load timber at safe ports below Quebec for Liverpool or Greenock with deals for stowage at 70s to 72s 6d.

NO FAILURE!

Physicians Cornered.

PROBABLY there are few circumstances under which a physician labors with more real sympathy for his patient than when called upon to administer relief to an acute sufferer with Chronic Rheumatism.

Rheumatism is a disease of the blood, and no substantial relief can be obtained without cleaning the blood from the fibrim substances which obstruct the circulation, causing inflammation and pain.

The greatest success of the DIAMOND RHEUMATIC CURE in curing this disease is owing to its power of converting the blood from its diseased condition to a healthy circulation. It also regulates the bowels, which is very essential in this complaint, and no one will read the following statement, from a well-known Dartmouth gentleman, with more interest and pleasure than those physicians who have a real desire to benefit their suffering patients:

DARTMOUTH, Sept. 14, 1874.

FORSYTH & Co.,

Gentlemen:—For the two past years I have been severely troubled with Rheumatism. I have suffered the most acute pain, and at times I have been rendered perfectly helpless—being unable to walk, sleep or even sit up. I have tried many physicians and used numerous patent medicines, but I still continued to grow worse. It is now about four days since I commenced taking the DIAMOND RHEUMATIC CURE, and the pain has all left me, and the use of my limbs is rapidly returning. I bless the day that the Diamond Rheumatic Cure was called to my attention.

Gratefully yours,
WM. BRODIE

FURTHER PROOF.

HALIFAX, Sept, 19, 1874.

FORSYTH & Co.,

Gentlemen:—I wish to make known to all sufferers from Rheumatism in Halifax, that I, the undersigned, suffered the most terrible pains possible to imagine, for two years past. I have tried several physicians in this city, and paid them most of my means for prescriptions, but all of no avail. I have now taken the DIAMOND RHEUMATIC CURE for a week past, and I can truthfully say that it has done me more good than anything I have ever taken. I cordially recommend it to all afflicted humanity.

Truly yours,
ALAM HANNIGAN,
Lower Water Street.

The proprietor of this has walked the aisles of the hospitals of London, Eng., for the past twenty years, making Rheumatism a speciality and the prescriptions from which the remedy is compounded is all he ever used in the treatment of this disease.

In simple cases sometimes one or two does suffice. In the most chronic cases it is sure to give way by the use of three or four bottles. By this efficient and simple remedy hundreds of dollars are saved by those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is prepared by a careful experienced and conscientious physician, in obedience to the desire of numberless friends in the profession in the trade and among the people. Every bottle is warranted to contain the full strength of the Medicine in its highest state of purity and development and is superior to any medicine ever compounded for this terrible complaint.

It is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to,

FARMERS, LOOK HERE.

HAVING improved my Hay Carrier that it now gives general satisfaction to all, as you will see by the certificates of some of the most influential Farmers of Queen's County, who have worked it and proved that it will do all it claims. Hoping that some of our independent Farmers of the other Counties would patronize our new and labor-saving machine. Give it a trial; encourage home manufacture.

A. GILL & CO.,
Little York.

MR. A. GILL—Sir: The Hay Carrier I purchased from you, has given the greatest satisfaction, and I have no hesitation in recommending it to farmers, as the best labor saving machine I have seen.

JOHN DEACON,
North Wiltshire, Lot 31, 1875.

MR. A. GILL—Sir: The improved Hay Carrier put up for me last summer, worked admirably; one light horse being able to hoist from 4 to 6 hundred at a lift. I consider the Hay Carrier an indispensible implement on a farm, and would not grow hay without it. I also used it for housing oats, and I consider the saving of labor far more than counters balance the loss (if any) from putting up the grain loose.

DR. J. T. JENKINS, Charlottetown.

MR. A. GILL—Sir: I have found your Hay Carrier to be as represented. I have used it both for hay and grain, and considered it invaluable where labor is dear and scarce.

JOHN W. JOHNSON, Newstead.

MR. A. GILL—Sir: Have used your Hay Carrie last summer, I found it of great use in lifting the hay high, and carrying it back, doing away with unloading the carts by hand, what I consider the heaviest part of hay making.

DUNCAN MCCALLUM
Brackley Point Road.

MR. A. GILL—Sir: The Hay Carrier I purchased from you gave full satisfaction, I considers it a great saving of labor for stowing hay in buildings.

BENJAMIN E. WRIGHT, Belmont.

MR. A. GILL—Sir: The improvements put by you last year, on the Hay Carrier, purchased from you in 1873, have so increased its capacity for work, that the horse can now do a greater amount of work and with greater ease, in the same time.
