LATEST NEWS BY WIRE AND MAIL.

BOMBAY, Oct. 4.—Henry Savage Landor, the well-known artist, traveller and writer, and grandson of the celebrated Walter Savage Landor, has returned to India from an exploring expedition to Thibet, where he was abandoned by all the members of his company except two coolies. Finally the Thibetians arrested him by an act of treachery, sentenced him to death and after torturing him with hot irons, actually carried him to the execution ground. At almost the last moment the execution was stopped by the Grand Lama, who commuted the sentence to torture by the stretching log, a species of rack, which greatly injured Mr. Landor's spine and limbs. After being chained for eight days he was released. Mr. Landor has no fewer than twenty two wounds as the result of his torture.

PARIS, October 4.—The Eclair advocates a Franco-Russian-American dreitbund. In so doing the newspaper says it considers America's commercial and agricultural support necessary even in the event of a Franco-German war and expresses the hope that the new French ambassador to the United States Wm. Jules Gombon, the retiring governor-general of Algeria, will do his utmost to bring about the alliance referred to.

TACOMA, Wash., Oct. 4.—The Steamship Victoria, which arrived at Tacoma Sunday, brings news of a severe storm that prevailed over Japan last month, and attaining the force of a typhoon. The principal damage so far as noted in late papers was at Tokyo, where 376 houses were totally demolished, 772 partly damaged, and 143 houses submerged. In Shy-droka there were 1,060 houses demolished, and 4,000 rendered practically worthless. In this district 37 were killed. In the Gifu province bridges were washed away, the rice crop injured and other damage done.

NEW YORK, October 4.—A London despatch to the Times says: "Tonight's news from India, with its obvious implications that worse things are expected than have been reported as yet, sends the public mood away down again. Misleading bulletins earlier in the week had created the notion that the punitive expedition had about finished their work. So this revelation that it still has all to be done, makes matters seem worse than they really are. Ugly growls about General Jeffries, who has now twice misjudged the strength of the enemy and been whipped in consequence, are beginning to come from the press."

WINNIPEG, October 4.—Further fatalities are reported tonight resulting from Saturday's bush fires. At Scott's Hills, near Whittemouth station, an old hunter named Landry was burned to death. North of Reaburn, Hamilton Uppjohn was cremated and his brother had a narrow escape. Lake Francis reports fears entertained for the safety of several people. Fourteen out of seventeen settlers lost everything. The chief sufferers are those located in bush lands between Winnipeg and Rat Portage. They are mostly foreigners and are located in colonies. Assistance is being sent from Winnipeg.

TACOMA, October 4.—Late Manila advices by steamer Victoria report fighting still going on in the Philippines. At San Rafael a party of rebels under General Natividad met a regiment of Spanish, and a desperate battle ensued which lasted several hours, until the Spanish were obliged to flee and throwing away their arms to save their lives. The Spanish loss was 400 dead and wounded.

SEATTLE, October 4.—The steam schooner North Fork passed here last night on her way to Tacoma from St. Michaels, Alaska. From passengers who left the schooner at Port Townsend, it is learned that the North Fork brought down a number of passengers, but no gold. It is also learned that none of the river boats have succeeded in reaching Dawson City with supplies. One of the passengers on board the North Fork, said there were at least 550 people at Dawson City a great number living in tents. The North American transportation and trading company closed their store being out of provisions and unable to fill about 400 paid orders. The Alaska Commercial company was filing about one-third of their paid orders, with a bare chance of the Margaret with 100 tons of provisions, and the Alice with 75 tons arriving before they would be compelled to close. The Margaret ought to have arrived by August 25, but it is almost impossible to get up the Yukon on account of the lack of water.

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, 31 one cent stamps, to cover cost of mailing only, and the book will be sent post paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at \$1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

Show day at Patons on Thursday.
