Place Steel At New Building

A large crane is seen at work placing the steel at the new T. Eaton building on Kent Street. The sub contract of placing the steel has been let to the Robb Engineering Company of Amherst, N. S. Huge trailer trucks have been landing steel on the job for several days. Each truck carries 10 tons and already half of the 100 tons is here. The general contract which is being carried out by Anglin Norcross, Maritime Ltd., will go forward with considerably more speed since the foundations and butments have been poured, and very soon it will be possible to view the structure from street level.

Large Attendance Of Potato Growers At Meeting In Morell Hall Last Night

In order to fulfill its functions, the Potato Marketing Board must make use of the powers given it by legislation, that is, overall control by central selling, said Mr. Donald A. MacDonald, chairman of the P. E. I. Potato Marketing Board at a meeting called by the Federation of Agriculture in Morell hall last night. The meeting was well attended. Mr. Roland MacDonald, President of the Federation presided.

Mr. MacDonald was replying to a question which had been pressed at the meeting regarding the future plans of the Potato Marketing Board. He made it clear that the opinion expressed was a personal one and that he was only one member of a board of ten. Mr. MacDonald stated that the Board had tried to operate by not exercising overall control but had been circumvented by dealers all along the line. "I am not an enemy of the dealers," said Mr. MacDonald, "I realize that they have an important part to play in the potato industry, but it was necessary through rulings of the Board to protect the dealers from one another," he added.

Mr. H. B. Willis, speaking both as a producer and a shipper, sharply criticized the Potato Board for their tactics during the 1952-53 season. He said that "due to the dictatorial policies of the Board many of the producers and dealers lost a great deal of money." He did, however, state that the Board had done a good job during the past season and expressed the opinion that it was in capable hands.

When asked by a grower what he as a dealer intended to offer, Mr. Willis replied that he had nothing to offer but felt that the supply and demand on the potato market would take care of the situation. The grower commented, "How can you expect the Marketing Board to tell us what they intend to do in the future?"

Reviews Activities - Mr. MacDonald in reviewing the activities of the Potato Marketing Board said, "We have gained a lot of valuable experience in the past four years. Agriculture is the basis of our economy and the potato market is a fair barometer of financial conditions in this Province." He pointed out that last spring producers throughout Canada and the United States were warned to reduce potato acreages but 25,000-30,000 acres more were planted in U. S. and 9,000,000 more in Canada. It was thought that an early blight which seemed to be prevalent in the crop would lessen the yield, but in this Province 10,000 cars have already been shipped and

Hillside Lodge Meet In Montague

The regular meeting of Hillside Lodge, I. O. O. F., Montague, was held Tuesday night with brother Gordon Coffin, N.G., presiding. The committee for the Red Cross blood donor clinic reported that 15 canvassers have been appointed in the town, who will be calling on the eligible donors. The second degree will be conferred on several candidates from Willey Lodge, Charlottetown, on Tuesday night, May 18. It is expected that a large number of brothers from the city will accompany the candidates and the necessary arrangements have been made to entertain the visitors. A lunch committee was appointed and all members are expected to bring lunch. Brother William MacLean reported that arrangements have been made for the annual church service next Sunday. It was reported that brothers Harry MacGregor and Heath Stewart were still well on hospital, but canvassers had been sent to the road to recovery. It was also reported that brother Douglas Coffin was confined to his home through illness and the visiting committee were instructed to visit him.

Dental Nurse Is Convicted Of Theft

TORONTO, (CP)—A frustrated 31-year-old dental nurse Thursday was convicted of stealing \$2,200 from her dentist employer. She was remanded until May 19 for sentence. Mrs. Marion Thompson, the nurse, pleaded guilty in magistrate's court. Her employer, Dr. Joseph Donoghue, a Toronto dental surgeon, said he had had "complete confidence in her" since he hired her in October, 1953. He estimated Mrs. Thompson had cashed more than 30 cheques, endorsed by him, including his baby-bonus cheques.

LONDON, (CP)—Making his first trip to Canada since 1934, the regimental band of the Irish Guards will play at the Canadian National Exhibition in Toronto this year. The band has 60 musicians under Capt. C. H. Jaeger.

questions regarding the plebiscite. He told the meeting that there are about 7,000 licensed growers in the Province all of whom are entitled to a vote. Ballots will be mailed on the 24th and the grower has until the 29th to return them. He expressed the hope that every grower who receives a ballot will avail himself of the opportunity of voting on this very important matter.

Mr. Dewar called attention to the question on the ballot "Are you in favour of the continuation of the Potato Marketing Board." He pointed out that all that was required was a "yes" or "no" answer.

Competitive rates established through negotiations with the railway as well as freight rate zoning were other benefits pointed out by Mr. MacDonald. He concluded his remarks by saying "As long as I remain head of the Board my one and honest desire will be to serve you."

Pavement From Souris To Wood Islands Discussed By Montague Trade Board

Mr. R. K. Clements was re-elected president of the King's County Board of Trade at a dinner meeting held at the Bison Restaurant, Montague, last evening. Other officers include vice-president, John A. MacDonald; Cardigan; secretary, Ralph Beck; Montague; executive, Leslie Hunter; Bridgetown; Crilly Lea, Murray Harbour; Murdoch McGowan, Kilmuir; George MacIntyre; E. H. Stewart, D.H. Coffin, Horace Fraser, John Ballem, L. H. Poole, all of Montague.

Following a delicious lobster supper, a short business meeting was held. Mr. C. A. Shaw, secretary, gave an interesting account of the meeting of the Maritime Board of Trade which he attended at Sydney, N. S. A nominating committee including Ethan Stewart, C. A. Shaw, and George MacIntyre was appointed to bring in a slate of officers for the coming year.

An interesting and lively discussion period followed the election of officers, during which several important matters were discussed. Of primary importance was a connecting pavement between Souris and the Wood Island ferry terminal through King's County. It was considered that this was a major factor in the future economic development of King's County, and required serious consideration. It was felt that, inasmuch as the Trans Canada Highway does not enter King's, the country should rightfully be compensated by a direct route from the northern section of the country to the ferry terminal, and further, because a portion of this route was already paved, it was considered not to be a major task to complete the remainder.

Winter Service - Some discussion also centered on a winter ferry service from Georgetown to Picou, and the advantages of such a service were pointed out, particularly for trade with Nova Scotia. It was decided that negotiations on this matter would be re-opened in an attempt to acquire this service.

It was pointed out that the Montague bridge was a vital communication link within the county, and it was feared that the apparent delay in proceeding with the completion of the approaches would be the cause of serious hardships later in the year.

It was proposed that the government be requested to expedite this matter insofar as existing conditions might make it possible. In reference to the bridge construction, but a matter purely of a local nature, the idea of a dam spanning the river to retain a level of water in the basin above, was given consideration. It was explained that at low tide the mud flats

above the bridge were not at all conducive to beautification, and that the condition could be overcome by the erection of a dam to the east of the bridge of a height sufficient to retain enough water in the basin to cover the flats, thereby immensely improving the beauty of the area.

Of a local nature also was the proposal to plant trees along the sides of the main roads leading into Montague, which, because of its many trees along the main thoroughfare and side streets, is considered as "Montague, the beautiful". It was felt that the planting of these trees, English hawthorn, flowering cherry, and flowering crab, would add immeasurably to the already lovely picture and make the town a centre of attraction. It was proposed that this matter be given immediate consideration.

In view of the fact that of late years there has been considerable sea transportation in King's County, it was proposed that negotiations be made to have the Cardigan River dredged for sea-going vessels. It was considered that this was a possible important call port for vessels and every endeavor should be made to increase its potentialities.

At the conclusion of the meeting it was moved to hold quarterly annual dinner meetings. On motion a vote of thanks was extended Mrs. Clay for the lovely supper, and for the use of the dining room for the meeting.

Brown Charged

shots over Brown's head and the latter surrendered meekly. Brown was hunted by police forces in connection with the fatal shooting of Thompson in his isolated cabin May 5 and the wounding of the same evening of Rene Patris, 43. Patris is being treated at a hospital in Fredericton.

The fugitive had no lawyer when he appeared briefly Thursday. He will come up again May 20 and meanwhile is being held in the York county jail at Fredericton.

GUN NOT FOUND - Police said they so far had not found the .22-calibre rifle Brown was carrying when he fled into the woods more than a week ago. Brown was tired, dirty and hungry when police nabbed him. The only food he was known to have had during the entire week were four tins of canned goods he picked up late last week from the run-down shack he once shared with a brother.

Police had all but abandoned the search when Mrs. Annie Fulton, who lives on the outskirts of Minto, reported Brown had called at her house for food. She said he leaned patiently against the door jam while she made two bologna sandwiches. He took the food, thanked her and quickly strode off. She hurried to a neighbor's home and phoned police.
