ANOTHER GRIT DISGUSTED.

ARTHUR DELISLE, ex-member of Parliament for Port Neuf, is another Grit who is at loggerheads with the Laurier-Tarte administration. In the course of a recent interview in Montreal Mr. Delisle said,—"I am still a Liberal of the old school. I will be a candidate in the County of Port Neuf at the coming election. I declare this, and I will run against all comers. I will run as an independent Liberal, ready to give British fair play according to its merits to the party in power. I do not wish to say more," added Mr. Delisle, "but do not forget that, if I am a Liberal, I am not a fanatic. I will support a good Administration be it Liberal or Conservative. In any case, I can judge for myself with the experience I acquired while a member, and know what to think on that point." Mr. Delisle concludes his interview by saying,—"I will not approve of the present regime, in which it is not the chief who governs, but his allies."

DEPARTURE OF MR. PROWSE.

To be honoured by one's fellow-citizens as Mr. L. E. Prowse was honoured yesterday, is an ambition that very few men realize. The appreciation of true worth exists in the heart of every true man, and it is because Mr. Prowse is the possessor of so many good qualities that he was yesterday given such a flattering token of the esteem and affection of his fellow citizens and friends.

When it became known that Mr. Prowse had resolved to leave Charlottetown and take up his abode in Sydney it was decided by his many friends that some expression of their regard should be given. Accordingly the meeting in the Legislative Chamber was decided on. A report of this will be found on another page of to-day's EXAMINER.

During the years Mr. Prowse has been in business here he has worked himself up from the humblest position to be the head of one of the largest dry goods establishments in the lower provinces. That he has been able to do this in those days of close competition speaks much for his energy and business ability; that, while doing so, he has won success without incurring any ill-will is the fittest testimonial to his goodness of heart, geniality, and other traits that men admire. It was to place upon record their appreciation of a good friend and worthy fellow citizen that so many of our leading men gathered together yesterday. We join with them all in regretting Mr. Prowse's departure from Charlottetown and wish him, during the years he will be connected with the business and social life of Sydney, the same success and popularity he has achieved in his native province.

THE INCREASED EXPENDITURES

In the Canadian Farmer of recent date there appeared a letter written by a farmer for the benefit of farmers. In that letter many truths were brought home to the people, especially the agriculturists. The writer in the course of his letter says: How do the farmers of Canada like the proposed expenditure for next year? The estimated expenditure amounts to something over $ 6,000,000. This is going it pretty strong for a country the size of Canada. It is an increase in the annual expenditure of Canada in four years of about $16,000,000 per annum. The estimates brought down by the Conservative government at their last session amounted to only $38,000,000 and if we add to this $2,000,000 for supplementaries, which is actually going above the mark, it gives us a difference of $16,000,000 between the estimates of 1896-7 and those of 1900-1. It is certainly piling up the expense of the country out of all proportion to the increased needs of the country. This after all, is the point on which good or bad government hinges. The government that conducts the affairs of the people in an efficient manner for the least money, is the government which should be placed in office and kept there. And when we say this we are only repeating an old Liberal argument, used with great force throughout their campaign. Give us power and we will save you money, lower your taxes and give you good government was the cry, and here we have the performance. The expenses of the government are raised $16,000,000 a year. Just think of the enormous amount of money that is, and how many farms it would buy. It would buy 4000 hundred-acre farms at $4000 each, or it would buy 400,000 acres of land at $40 an acre, which means that it would buy out 4000 of the best farmers of Ontario, for it is good land that brings $40 an acre. Of ordinary Crown lands, bought at $2 an acre this great increase in the annual expenditure of Canada brought about by the Liberals, would purchase 8,000,000 acres. That is to say they are spending ever and above what the old government spent, every year, a large sum, enough to pay for a hundred-acre farm each for 80,000 farmers. And where are they getting their money? They are taking it out of the pockets of the people of Canada, and out of the pockets of the farmers of Canada, and they are not giving the farmers anything in return. This is a very serious matter and the farmers would do well to consider it seriously, and not be led away by the cry of good times. If the times are good, we have providence to thank and not the men who require $56,000,000 to do what other men have done with less than $40,000,000.
