Factories Without Chimneys.

The statement that a chimney, the third or fourth tallest in the world, has just been completed at a cost of \$53,000, and the announcement that the most gratifying success has attended the use of forced draft, without any chimneys whatever out of the ordinary, appear in contemporary journals. The experiment of forced draft gives promise of great economy in fuel, as well as doing away with the expensive and unornamental chimney. The draft arrangement consists of a large fan, which is connected with a 4 by 4 double cylinder engine. The fan has a wheel 54 inches in diameter and runs at almost any rate of speed desired. The draft is something prodigious and makes it possible to employ fuel of a lower grade than any heretofore used. Instead of the best Cumberland coal, a mixture of Cumberland and screenings has been tried. The cost of operating the fan, even with imperfect apparatus, is something like \$800 per annum. The smokestack is scarcely taller than the roof of the building and of less capacity than that heretofore used for such purposes.

Story of Lincoln.

This Lincoln story is told in Short Stories: A New York firm applied to Abraham Lincoln some years before he became president for information as to the financial standing of one of his neighbors. Mr. Lincoln replied as follows:

Yours of the 10th inst. received. I am well acquainted with Mr. X. and know his circumstances. First of all, he has a wife and baby; together they ought to be worth \$50,000. Secondly, he has an office, in which there are a table worth \$1.50 and three chairs worth, say, 11. Last of all, there is in one corner a large bath-tub, which will bear looking into. Respectfully yours, A. LINCOLN

Faith Cure and a Carbuncle.

Say I have an obtrusive carbuncle on my nose. I call in the Christian Scientist, who administers "a high attenuation of truth." My belief in the carbuncle disappears, and with it goes the carbuncle, too, so far as I am concerned. It may be that I look in the glass and perceive no carbuncle. The Christian Scientist takes her fee and leaves me.

Doctors said Incurable

But the Notary, Mr. Lemire, was cured of Kidney Disease in two months by Dr. Chase's Kidney-Liver Pills.

It is only when thoroughly convinced of the superior merit of a remedy that public men will give their sanction.

Mr. E. H. Lemire, Notary Public, 1692 Notre Dame Street, Montreal, tells of his remarkable recovery from a severe attack of kidney disease. When doctors had failed, Dr. Chase's Kidney-Liver Pills saved his life. He writes: "I give this statement, first because it is only just that the merit of Dr. Chase's Kidney-Liver Pills should be made known, and again in order that others may profit by my experience. For years I suffered with kidney disease which doctors pronounced incurable. Thanks to Dr. Chase's Kidney-Liver Pills, which I have used for two months, I am completely cured. They helped me from the first, and the cure is now perfect."

Dr. Chase's Kidney-Liver Pills act directly on the kidneys, and through their combined influence on the kidneys and liver, cure the most complicated diseases of these delicate organs. One pill a dose. 25 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.
